Classroom Guidelines for Preventing the Introduction and Spread of Aquatic Invasive Species (AIS)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: The U.S. Fish and Wildlife Service (Service), announces the availability of the *Classroom Guidelines for Preventing the Introduction and Spread of Aquatic Invasive Species (AIS)*. These voluntary guidelines are intended to be used by agencies and organizations to develop materials that inform educators and students about the risks of spreading aquatic invasive species, and to limit their spread via the disposal of unwanted live educational specimens (animals, plants, and

microorganisms) into local waters, including release into drains or flushing down toilets.

DATES: To ensure consideration, please send your written comments by July 16, 2014.

ADDRESSES: The guidelines may be obtained online, by U.S. mail, or by email:

SUPPLEMENTARY INFORMATION:

Background

Through the Lacey Act (18 U.S.C. 42), the U.S. Fish and Wildlife Service (Service) regulates the importation and interstate transport of certain aquatic invasive species that have been determined to be injurious. The Nonindigenous Aquatic Nuisance Prevention and Control Act of 1990 (16 U.S.C. 4701 *et seq.*) established the Aquatic Nuisance Species Task Force (ANSTF), an intergovernmental organization co-chaired by the Service and the National Oceanic and Atmospheric Administration and dedicated to preventing and controlling the spread of aquatic nuisance species.

Development of the Guidelines

In 2011 the ANSTF established a committee to develop guidelines that would help to prevent the spread of aquatic invasive species through the disposal of unwanted live educational specimens (animals, plants, and microorganisms) into local waters and municipal water systems. The goal of the committee was to develop clear, easy-to-use standardized national guidelines that are easily communicated to educators and students and can be incorporated into education and outreach media.
