Final Priorities, Requirement, and Definitions; Innovative Approaches to Literacy (IAL) Program

AGENCY: Office of Elementary and Secondary Education, Department of Education (Department).

ACTION: Final priorities, requirement, and definitions.

SUMMARY: The Assistant Secretary for Elementary and Secondary Education announces priorities, a requirement, and definitions under the IAL program. The Assistant Secretary may use one or more of the priorities, requirement, and definitions for competitions in fiscal year (FY) 2014 and later years. We take this action to ensure IAL projects are supported, at a minimum, by evidence of strong theory, and to focus Federal financial assistance on projects that serve rural local educational agencies (LEAs).

DATES: *Effective Date:* These priorities, requirement, and definitions are effective July 17, 2014.

SUPPLEMENTARY INFORMATION:

Purpose of Program: The purpose of the IAL program is to support high-quality projects designed to develop and improve literacy skills for children and students from birth through 12th grade within the attendance boundaries of high-need LEAs and schools.

Program Authority: 20 U.S.C. 7243–7243b.

We published a notice of proposed priorities, requirement, and definitions for this program in the **Federal Register** on February 28, 2014 (79 FR 11363). That notice contained background information and our reasons for proposing the particular priorities, requirement, and definitions.

There are differences between the proposed priorities, requirement, and definitions and these final priorities, requirement, and definitions as discussed in the *Analysis of Comments and Changes* section elsewhere in this notice.

Public Comment: In response to our invitation in the notice of proposed priorities, requirement, and definitions, nine parties submitted comments on the proposed priorities, requirement, and definitions.

We group major issues according to subject. Generally, we do not address technical and other minor changes.

Analysis of Comments and Changes: An analysis of the comments and of any changes in the priorities, requirement, and definitions since publication of the notice of proposed priorities, requirement, and definitions follows.

Priorities

Comment: One commenter recommended that we amend proposed priority 1 to require, as a minimum level of evidence, that projects be supported by evidence of promise rather than strong theory. The commenter explained that the strong theory level of evidence proposed in priority 1 appears to set a lower standard of evidence than was used in the previous competition, which required applicants to cite at least one study in support of the proposed project that meets the definition of “scientifically valid research.” The commenter also recommended that the Department look for stronger standards of evidence for all applicants.

Discussion: We agree with the commenter that the Department should
