Animal Plant and Health Inspection Service

Title: Bees and Related Articles.

OMB Control Number: 0579–0207.

Summary of Collection: The Plant Protection Act (APA) (7 U.S.C. 7701 *et seq.*), authorizes the Secretary of Agriculture to prohibit or restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Under the Honeybee Act (7 U.S.C. 281–286), the Secretary is authorized to prohibit or restrict the importation of honeybee semen to prevent the introduction into the United States of diseases and parasites harmful to honeybees and of undesirable species and subspecies of honeybees. The Animal and Plant Health Inspection Service (APHIS), Plant Protection and Quarantine (PPQ), is responsible for implementing the intent of these Acts, and does so through the enforcement of its pollinator regulations and honeybee regulations.

Need and Use of the Information: APHIS collects information from a variety of individuals who are involved in breeding, exporting, importing, and containing bees and related articles. The information APHIS collects serves as the supporting documentation needed to issue required PPQ forms and documents that allow importation of bees and related articles or authorizes the release of bees. This documentation is vital to helping APHIS ensure that exotic bee diseases and parasites, and undesirable species and subspecies of honeybees, do not spread into or within the United States. Without the information APHIS could not verify that imported bees and related articles do not present a significant risk of introducing exotic bee disease, parasites, and undesirable species and subspecies of honeybees.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Foreign Agricultural Service

Title: Food Donation Programs (Food for Progress & Section 416(b) and McGovern-Dole International Food for Education and Child Nutrition Program).

OMB control number: 0551–0035.

Summary of Collection: The U.S. Department of Agriculture's Foreign Agricultural Service (FAS) provides U.S. agricultural commodities to feed millions of hungry people in needy countries through direct donations and

concessional programs. USDA Food aid may be provided through two program authorities: Food for Progress authorized by the Food for Progress Act of 1985, Section 416(b); and the McGovern-Dole International Food for Education and Child Nutrition Program is authorized by the Food, Conservation, and Energy Act of 2008.

Need and Use of the Information: FAS will collect information from applicants desiring to receive grants under the programs to determine its ability to carry out a food aid program, to establish the terms under which the commodities will be provided, to monitor the progress of commodity distribution (including how transportation is procured), to monitor the progress of expenditure of monetization funds, and to evaluate both the program's success and the participant's effectiveness in meeting the agreed upon goals. Information is also collected from ship owners/brokers shipping the commodity to its destination.

Description of Respondents: Not for-profit institutions; Business or other for-profit.

Number of Respondents: 68.

Frequency of Responses: Recordkeeping; Reporting: Semi-annually; Quarterly.

Forest Service

Title: Arctic National Wildlife Refuge Visitor Study.

OMB Control Number: 0596-NEW.

Summary of Collection: The Wilderness Act of 1964 directs that the National Wilderness Preservation System be managed to protect natural wilderness conditions and to provide outstanding opportunities for solitude or primitive and unconfined types of recreation. To help meet Federal agencies' mandates related to recreation, scientists at the Aldo Leopold Wilderness Research Institute periodically monitor and report to managers and the public, visitor use and user characteristics and visitor feedback on management actions on federal lands, including National Wildlife Refuges.

Need and use of the Information: This study will only ask recreation visitors questions about their recreation visit, their personal demographics relevant to education and service provision, and factors that have influenced or are likely to influence their recreation visits. Agency personnel will use the collected information to ensure that visitors' recreational activities do not harm the natural resources of the refuge and that wilderness-type recreation experiences are protected. The collected information will help managers continue to adapt their current programs to changing societal interests and needs; and meet

the intent of the legislation that created the Arctic National Wildlife Refuge.

Forest Service

Title: Environmental Justice and the Urban Forest in Atlanta, GA.

OMB Control Number: 0596-NEW.

Summary of Collection:

Environmental justice is defined by the Environmental Protection Agency as the "fair treatment and meaningful involvement of all people . . . with respect to the development, implementation, and enforcement of environmental laws . . ." This information collection addresses environmental justice in urban settings. Cities are often (though not always) places of particular concern for environmental justice inquires due to the greater concentration of environmental pollutants and human populations. The following statutes and regulations are relevant to this request for information collection: Executive Order 12898, Memorandum of Understanding on Environmental Justice and Executive Order 12898, National Environmental Policy Act of 1969 (Pub. L. 91-190), the Civil Rights Act of 1964 (Pub. L. 88-352).

Need and use of the Information: The proposed study provides an integrated approach to assessing residents' relationship to the urban forest. The collection addresses environmental justice from the perspective of urban trees; and how this resource may contribute to environmental justice in a given community or neighborhood. The agency will use this information to determine whether their programs, policies, and activities have disproportionately high and adverse human health or environmental effects on minority populations and low-income populations. If the information is not collected, efforts at the federal level to evaluate environmental justice will remain limited to methodologies that reproduce incomplete assessments of environmental justice.

Description of Respondents:

Individuals or households.
