

required training while ensuring public safety.

Numerous persons questioned why the Navy was doing this now since the range has been in use for so long. Modifying the regulation will better protect citizens from potential hazards associated with the operation of the small arms training range on Cheatham Annex.

The United States Coast Guard submitted recommended changes to the proposed regulation that would make its intent clearer. The Coast Guard recommended using a separate paragraph for the sentence stating that the Navy will not use the range when visibility is less than the maximum range of the weapons being used. They also recommended adding at the end of this sentence "or while a vessel is within the danger zone" to address the expected cease fire when vessels transit through the danger zone. We concur with these changes and as a result we modified the regulation.

Procedural Requirements

a. Review under Executive Order 12866. This final rule is issued with respect to a military function of the Defense Department and the provisions of Executive Order 12866 do not apply.

b. Review under the Regulatory Flexibility Act. This final rule has been reviewed under the Regulatory Flexibility Act (Pub. L. 96-354) which requires the preparation of a regulatory flexibility analysis for any regulation that will have a significant economic impact on a substantial number of small entities (i.e., small businesses and small governments). The Corps determined that this regulation would have practically no economic impact on the public nor would it result in any anticipated navigational hazard or interference with existing waterway traffic. This regulation will have no significant economic impact on small entities.

c. Review under the National Environmental Policy Act. This final rule will not have a significant impact to the quality of the human environment and, therefore, preparation of an environmental impact statement will not be required. An environmental assessment has been prepared and it may be reviewed at the district office listed at the end of **FOR FURTHER INFORMATION CONTACT** above.

d. Unfunded Mandates Act. This final rule does not impose an enforceable duty on the private sector and, therefore, it is not a Federal private sector mandate and is not subject to the requirements of either Section 202 or Section 205 of the Unfunded Mandates

Reform Act. (Pub. L. 104-4, 109 Stat. 48, 2 U.S.C. 1501 *et seq.*) We have also found under Section 203 of the Act, that small governments will not be significantly or uniquely affected by this rulemaking.

SUPPLEMENTARY INFORMATION:

I. Background

The SIP is a living document which the State revises as necessary to address its unique air pollution problems. Therefore, EPA from time to time must take action on SIP revisions containing new and/or revised regulations to make them part of the SIP. On May 22, 1997 (62 FR 27968), EPA revised the procedures for incorporating by reference federally-approved SIPs, as a result of consultations between EPA and the Office of the Federal Register (OFR). The description of the revised SIP document, IBR procedures, and "Identification of plan" format are discussed in further detail in the May 22, 1997 **Federal Register** document. On March 13, 2012 (77 FR 14862), EPA published a document in the **Federal Register** beginning the new IBR procedures for the State of Nevada. On March 26, 2012 (77 FR 17334), August 23, 2012 (77 FR 50936), September 27, 2012 (77 FR 59321), October 5, 2012 (77 FR 60915), and October 18, 2012 (77 FR 64039), EPA amended the tables listing EPA-approved regulations and statutes for the State of Nevada in 40 CFR 52.1470(c) to account for submitted regulations and statutory provisions included in those individual SIP revision actions.

In this document, EPA is publishing an updated set of tables listing the regulatory (i.e., IBR) materials in the Nevada SIP taking into account the additions, deletions, and revisions to those materials as set forth in the above listed SIP actions. In addition, EPA has found certain errors in certain entries listed in 40 CFR 52.1470(c), as amended by the SIP actions listed above, and is correcting them in this document. These include:

- The erroneous listing of 9/24/04 as the State effective date for the version of NAC 445B.001 ("Definitions") approved by EPA at 73 FR 19144 (April 9, 2008)(the correct date is 1/1/07) and the erroneous listing of 12/4/76 as the State effective date for the version of NAC 445B.002 ("Act" defined) approved by EPA at 71 FR 15040 (3/27/06)(the correct date is 8/28/79);
- the inadvertent omissions of Clark County section 18, subsections 18.6 through 18.12, approved at 46 FR 43141 (August 27, 1981), and Clark County

section 52, subsection 52.10, approved at 46 FR 21758 (April 14, 1981);

- a typographical error regarding the EPA approval date for a number of Washoe County regulations that should have been shown as approved at 37 FR 15080 (July 27, 1972) instead of 38 FR 12702 (May 14, 1973);
- the inadvertent listing of certain Washoe County regulations, sections 030.3105 ("Hazardous materials processes"), 030.3107 (related to permit transfer fees), and 030.3108 (related to permit replacement cost), which were deleted without replacement from the SIP at 74 FR 57051 (November 3, 2009);
- the erroneous identification of 5/18/10 and 3/6/12 as the local effective dates for amended Clark County sections 0 and 12, respectively, in the final rule taking action on those amended rules (77 FR 64039, October 18, 2012) (the correct date for both is 3/20/12);
- the inadvertent omission of the submittal date (8/30/12) for Washoe County regulations 030.235 and 030.970A (i.e., 8/30/12)(see 77 FR 60915, October 5, 2012); and
- the inadvertent listing of an entry for EPA's approval of Washoe County regulation 030.970 (subsection A only) as "030.970A" (see 77 FR 60915, October 5, 2012).

II. EPA Action

In this action, EPA is doing the following:

- A. Announcing an update to the IBR material as of December 31, 2013;
- B. Correcting certain listings in paragraph 52.1470(c) as described above; and
- C. Revising the entries in paragraphs 52.1470(b) and (c) to reflect the update and corrections.

EPA has determined that today's rule falls under the "good cause" exemption in section 553(b)(3)(B) of the Administrative Procedure Act (APA) which, upon finding "good cause," authorizes agencies to dispense with public participation and section 553(d)(3) which allows an agency to make a rule effective immediately (thereby avoiding the 30-day delayed effective date otherwise provided for in the APA). Today's rule simply codifies provisions which are already in effect as a matter of law in Federal and approved State programs. Under section 553 of the APA, an agency may find good cause where procedures are "impractical, unnecessary, or contrary to the public interest." Public comment is "unnecessary" and "contrary to the public interest" since the codification only reflects existing law. Immediate notice in the CFR benefits the public by

removing outdated citations and incorrect table entries.

III. Statutory and Executive Order Reviews

A. General Requirements

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve State choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
 - Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
 - Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
 - Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
 - Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
 - Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
 - Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
 - Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
 - Does not provide EPA with the discretionary authority to address disproportionate human health or environmental affects with practical, appropriate, and legally permissible methods under Executive Order 12898 (59 FR 7929, February 16, 1994).
- In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249,

November 9, 2000), because the SIP is not approved to apply in Indian country located in the State, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

B. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

C. Petitions for Judicial Review

EPA has also determined that the provisions of section 307(b)(1) of the CAA pertaining to petitions for judicial review are not applicable to this action. Prior EPA rulemaking actions for each individual component of the Nevada SIP compilations had previously afforded interested parties the opportunity to file a petition for judicial review in the United States Court of Appeals for the appropriate circuit within 60 days of such rulemaking

action. Thus, EPA sees no need in this action to reopen the 60-day period for filing such petitions for judicial review for this “Identification of plan” reorganization update action for the State of Nevada.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 141

[EPA-HQ-OW-2014-0408; FRL-9912-52-OW]

Expedited Approval of Alternative Test Procedures for the Analysis of Contaminants Under the Safe Drinking Water Act; Analysis and Sampling Procedures

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This action announces the U.S. Environmental Protection Agency’s (EPA’s) approval of alternative testing methods for use in measuring the levels of contaminants in drinking water and determining compliance with national primary drinking water regulations. The Safe Drinking Water Act (SDWA) authorizes EPA to approve the use of alternative testing methods through

publication in the **Federal Register**. EPA is using this streamlined authority to make 21 additional methods available for analyzing drinking water samples. This expedited approach provides public water systems, laboratories, and primacy agencies with more timely access to new measurement techniques and greater flexibility in the selection of analytical methods, thereby reducing monitoring costs while maintaining public health protection.

DATES: This action is effective June 19, 2014.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

Public water systems are the regulated entities required to measure

contaminants in drinking water samples. In addition, EPA Regions as well as States and Tribal governments with authority to administer the regulatory program for public water systems under SDWA may measure contaminants in water samples. When EPA sets a monitoring requirement in its national primary drinking water regulations for a given contaminant, the agency also establishes in the regulations standardized test procedures for analysis of the contaminant. This action makes alternative testing methods available for particular drinking water contaminants beyond the testing methods currently established in the regulations. EPA is providing public water systems required to test water samples with a choice of using either a test procedure already established in the existing regulations or an alternative test procedure that has been approved in this action or in prior expedited approval actions.
