SUPPLEMENTARY INFORMATION:**I. Abstract**

This request is for extension of a currently approved information collection.

The License Limitation Program (LLP) restricts access to the commercial groundfish fisheries, commercial crab fisheries and commercial scallop fisheries in the Exclusive Economic Zone off Alaska except for certain areas where alternative programs exist. The intended effect of the LLP is to limit the number of participants and reduce fishing capacity in fisheries off Alaska.

For a vessel designated on an LLP license, the LLP license authorizes the type of fishing gear that may be used by the vessel, the maximum size of the vessel, and whether the vessel may catch and process fish at sea or if it is limited to delivering catch without at-sea processing. LLP licenses that allow vessels to catch and process at-sea are assigned a catcher/processor endorsement. LLP licenses specify the maximum length over all (MLOA) of the vessel to which that LLP license may be assigned. Regulations implementing the

LLP prohibit participants in LLP groundfish fisheries from using a vessel to fish for LLP groundfish that has a length overall that is greater than the MLOA specified on the LLP license. The LLP also includes a species endorsement for Pacific cod in the Bering Sea and Aleutian Islands (BSAI) and Gulf of Alaska (GOA).

An LLP license is required onboard any vessel deployed in scallop fisheries in Federal waters off Alaska (except for some diving operations). The scallop LLP is intended to limit the number of participants and reduce fishing capacity in the scallop fishery off Alaska. The scallop LLP will limit the number of participants and reduce fishing capacity in the scallop fishery off Alaska.
