SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

For a person to participate in Federal fisheries, the National Marine Fisheries Service (NMFS) requires a Federal Fisheries Permit (FFP), a Federal Processor Permit (FPP), or an Experimental Fisheries Permit (EFP). NMFS Alaska Region created a set of groundfish permits that operators of vessels and managers of processors must have onboard or onsite when fishing for, receiving, buying, or processing groundfish. These permits provide NMFS with a way to monitor participation in groundfish fisheries.

Section 303(b)(1) of the Magnuson-Stevens Act specifically recognizes the need for permit issuance. The requirement of a permit for marine resource users is one of the regulatory steps taken to carry out conservation and management objectives. The issuance of a permit is an essential ingredient in the management of fishery resources needed for identification of the participants and expected activity

levels and for regulatory compliance (e.g., withholding of permit issuance pending collection of unpaid penalties).

II. Method of Collection

Respondents have a choice of either electronic or paper forms. Methods of submittal include email of electronic forms, and mail and facsimile transmission of paper forms.
