[Project No. 13739–002]

Lock+ Hydro Friends Fund XLII, LLC; Notice of Final Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR part 380 (Order No. 486, 52 FR 447897), the Office of Energy Projects has reviewed the application for an original license for the proposed 5.25-megawatt (MW) Braddock Locks and Dam Hydroelectric Project, which would be located on the U.S. Army Corps of Engineers' Braddock Locks and Dam facility on the Monongahela River in the Borough of West Mifflin and the City of Duquesne, Allegheny County, Pennsylvania. Commission staff prepared a final Environmental Assessment (EA) which analyzes the potential environmental effects of construction and operation of the project and concludes that issuing a license for the project, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the final EA is on file with the Commission and is available for public inspection. The final EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP12-507-000; CP12-508-000]

Corpus Christi Liquefaction, LLC; Cheniere Corpus Christi Pipeline, LP; Notice of Availability of the Draft Environmental Impact Statement for the Proposed Corpus Christi LNG Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a draft environmental impact statement (EIS) for the Corpus Christi LNG Project (Project), proposed by Corpus Christi Liquefaction, LLC and Cheniere Corpus Christ Pipeline, LP (collectively Cheniere) in the above-referenced docket. Cheniere requests authorization to construct and operate the facilities necessary to import, export, store, vaporize, and liquefy natural gas and deliver the resulting product either into existing interstate and intrastate natural gas pipelines in the Corpus Christi area, or export liquefied natural gas (LNG) elsewhere.

The draft EIS assesses the potential environmental effects of the construction and operation of the Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed Project, with the mitigation measures recommended in the EIS, would ensure that impacts in the Project area would be avoided or minimized and would not be significant. Construction and operation of the Project would result in mostly temporary and short-term environmental impacts; however, some long-term and permanent environmental impacts would occur.

The U.S. Army Corps of Engineers (COE), U.S. Coast Guard, U.S. Department of Energy (DOE), U.S. Environmental Protection Agency (EPA), and U.S. Department of Transportation (DOT) participated as cooperating agencies in the preparation of the EIS. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis. The DOE will adopt and use the EIS in issuing their permit. The U.S. Coast Guard, EPA, and DOT cooperated in the preparation of this EIS because of their special expertise with respect to resources potentially affected by the proposal. Although the cooperating agencies provide input to the conclusions and recommendations presented in the draft EIS, the agencies will present their own conclusions and recommendations in their respective Records of Decision for the Project.

The draft EIS addresses the potential environmental effects of the construction and operation of the following Project facilities:

- Liquefaction facilities, including three liquefaction trains capable of producing 782 million British thermal units (MMBtu) per year of LNG;
- vaporization facilities, including two trains of ambient air vaporizers and send out pumps capable of vaporizing sufficient LNG volume for each to send out 200 MMBtu per day of natural gas;
- LNG storage facilities, including three LNG storage tanks each capable of storing 160,000 cubic meters of LNG;
- marine terminal with two LNG carrier berths;
- 23 miles of 42-inch-diameter pipeline;
- one 41,000 horsepower compressor station and one 12,260 horsepower compressor station; and
- ancillary facilities.

The FERC staff mailed copies of the draft EIS to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the Project area; and parties to this proceeding. Everyone on our environmental mailing list will receive a CD version of the draft EIS. In addition, the draft EIS is available for public viewing on the FERC's Web site (www.ferc.gov) using the eLibrary link. A limited number of copies are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE.,

Room 2A, Washington, DC 20426, (202) 502-8371.

If you would like a hard copy of the draft EIS, please contact the Public Reference Room.

Any person wishing to comment on the draft EIS may do so. To ensure consideration of your comments on the proposal in the final EIS, it is important that the Commission receive your comments before August 4, 2014.

For your convenience, there are four methods you can use to submit your comments to the Commission. In all instances, please reference the Project docket numbers (CP12-507-000 and CP12-508-000) with your submission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or efiling@ferc.gov.

(1) You can file your comments electronically using the eComment feature on the Commission's Web site (www.ferc.gov) under the link to Documents and Filings. This is an easy method for submitting brief, text-only comments on a project;

(2) You can file your comments electronically by using the eFiling feature on the Commission's Web site (www.ferc.gov) under the link to Documents and Filings. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on "eRegister." If you are filing a comment on a particular project, please select "Comment on a Filing" as the filing type; or

(3) You can file a paper copy of your comments by mailing them to the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

(4) In lieu of sending written or electronic comments, the Commission invites you to attend the public comment meeting its staff will conduct in the Project area to receive comments on the draft EIS. We encourage interested groups and individuals to attend and present oral comments on the draft EIS. Transcripts of the meetings will be available for review in eLibrary under the Project docket numbers. The meeting will begin at 7:00 p.m. and is scheduled as follows:

Date	Location
July 15, 2014	Portland Community Center, 2000 Billy G Webb Drive, Portland, TX 78374.

Any person seeking to become a party to the proceeding must file a motion to
