However, following Transco's amendment to their request, the Permits and Conservation Division and the Northeast Regional Office concluded that take of North Atlantic right whale is unlikely. Therefore, the Project is not expected to result in the take of any threatened or endangered marine mammal species.

NMFS participated as a cooperating agency on the FERC's Rockaway Delivery Lateral Project Environmental Impact Statement (EIS), which was published on March 10, 2014 (79 FR 13295) and is available here: <https://www.ferc.gov/industries/gas/enviro/eis/2014/02-28-14-eis.asp>. NMFS determined that the EIS is adequate and appropriate to meet our responsibilities under NEPA for the issuance of an IHA. NMFS adopted FERC's FEIS on May 27, 2014.

SUPPLEMENTARY INFORMATION:

I. Abstract

The United States Patent and Trademark Office (USPTO) administers the Trademark Act, 15 U.S.C. § 1051 *et seq.*, which provides for the Federal registration of trademarks, service marks, collective trademarks and service marks, collective membership marks, and certification marks. Individuals and businesses that use or intend to use such marks in commerce may file an application to register their mark with the USPTO.

Such individuals and businesses may also submit various communications to the USPTO, including providing additional information needed to process a request to delete a particular filing basis from an application or to divide an application identifying multiple goods and/or services into two or more separate applications. Applicants may seek a six-month extension of time to file a statement that the mark is in use in commerce or submit a petition to revive an application that abandoned for failure to submit a timely response to an office action or a timely statement of use or extension request. In some circumstances, an applicant may expressly abandon an application by filing a written request for withdrawal of the application.

The rules implementing the Act are set forth in 37 CFR Part 2. These rules

mandate that each register entry include the mark, the goods and/or services in connection with which the mark is used, ownership information, dates of use, and certain other information. The USPTO also provides similar information concerning pending applications. The register and pending application information may be accessed by an individual or by businesses to determine the availability of a mark. By accessing the USPTO's information, parties may reduce the possibility of initiating use of a mark previously adopted by another. The Federal trademark registration process may thereby reduce the number of filings between both litigating parties and the courts.

II. Method of Collection

The forms in this collection are available in electronic format through the Trademark Electronic Application System (TEAS), which may be accessed on the USPTO Web site. TEAS Global Forms are available for the items where a TEAS form with dedicated data fields is not yet available. Applicants may also submit the information in paper form by mail, fax, or hand delivery.

Estimated Total Annual (Non-Hour) Respondent Cost Burden: \$37,707,606. There are no capital start-up, maintenance or recordkeeping costs associated with this information collection. However, this collection does have annual (non-hour) cost burden in the form of postage costs and filing fees.

Applicants incur postage costs when submitting information to the USPTO by

mail through the United States Postal Service. The USPTO estimates that the majority of the paper forms are submitted to the USPTO via first-class mail at a rate of 49 cents per ounce. Therefore, the USPTO estimates that with 4,091 total paper submissions, the postage costs in this collection will be \$2,006.

The filing fees for several items in this collection are charged per class of goods

and/or services; therefore, the filing fees will vary for each respondent depending on the number of classes. The total filing fees of \$37,705,600 shown here are based on the minimum fee of one class for those items for which a fee is required.
