Submission for OMB Review; Comment Request

Title: Federal Strategic Action Plan on Services for Victims of Human

Trafficking: Enhancing the Health Care System's Response to Human Trafficking.

OMB No.: New Collection.

Description: In 2013, the U.S.

Department of Health and Human Services co-chaired an inter-agency process with the Departments of Justice and Homeland Security to create the first Federal Strategic Action Plan on Services for Victims of Human Trafficking in the United States. The Plan addresses the needs for the implementation of coordinated, effective, culturally appropriate and trauma informed care for victims of human trafficking. The purpose of this initiative is to develop a pilot training project that will strengthen the health systems' response to human trafficking in four key ways:

1. Increase knowledge about human trafficking among health care providers;

2. Build the capacity of health care providers to deliver culturally appropriate and trauma-informed care to victims of human trafficking;

3. Increase the identification of victims of human trafficking; and

4. Increase services to survivors of human trafficking.

The evaluation is an impact evaluation, measuring immediate outcomes, e.g., from pre-intervention to post-intervention, as well as intermediate outcomes at a 3 month post intervention.

Respondents: The target audience for training and evaluation will be 300 health care providers from hospitals, clinics, and private health practices. The health care providers will be from federal, state/territorial, and local health departments, the Veterans' Administration, professional associations, and tribal institutions.

ANNUAL BURDEN ESTIMATES

| Instrument | Number of respondents | Number of responses per respondent | Average burden hours per response | Total burden hours |
|---------------------------|-----------------------|------------------------------------|-----------------------------------|--------------------|
| Training | 300 | 1 | 2.0 | 600.00 |
| Pre-training | 300 | 1 | .40 | 120.00 |
| Post-training | 300 | 1 | .40 | 120.00 |
| Email Follow-up | 60 | 1 | .40 | 120.00 |
| Telephone Follow-up | 60 | 1 | .40 | 24.00 |
| Telephone Follow-up | 60 | 1 | .40 | 984.00 |

Estimated Total Annual Burden Hours:

Additional Information: Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 370 L'Enfant Promenade SW., Washington, DC 20447, Attn: ACF Reports Clearance Officer. All requests should be identified by the title of the information collection. Email address: infocollection@acf.hhs.gov.

OMB Comment:

OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication. Written comments and recommendations for the proposed information collection should be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project, Email: OIRA_SUBMISSION@OMB.EOP.GOV, Attn:

Desk Officer for the Administration for Children and Families.

Robert Sargis,

Reports Clearance Officer.

Proposed Information Collection Activity; Comment Request

Title: Health Profession Opportunity Grants (HPOG) program.

OMB No.: 0970-0394.

Description: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS) is proposing data collection activities as part of the Health Profession Opportunity Grants (HPOG) program. The proposed data collection activities described in this notice will provide data for the Impact Studies of the Health Profession Opportunity Grants (HPOG-Impact) and the National

Implementation Evaluation of the Health Profession Opportunity Grants to Serve TANF Recipients and Other Low-Income Individuals (HPOG-NIE).

The goal of HPOG-Impact is to evaluate the effectiveness of approaches used by 20 of the HPOG grantees to provide TANF recipients and other low-income individuals with opportunities for education, training and advancement within the health care field. HPOG-Impact also is intended to evaluate variation in participant impact that may be attributable to different HPOG program components and models. The impact study design is a classic experiment in which eligible applicants will be randomly assigned to a treatment group that is offered participation in HPOG and a control group that is not permitted to enroll in HPOG. In a subset of sites, eligible applicants will be randomized into two treatment arms (a basic and an enhanced version of the intervention) and a control group.

The goal of HPOG-NIE is to describe and assess the implementation, systems change, and outcomes and other important information about the operations of the 27 HPOG grantees
