Consultation

A detailed assessment of the human remains was made by El Morro National Monument professional staff in consultation with representatives of the Navajo Nation, Arizona, New Mexico & Utah; Pueblo of Acoma, New Mexico; and Zuni Tribe of the Zuni Reservation, New Mexico (hereafter referred to as “The Consulted Tribes”).

The following tribes were invited to consult but did not participate: Hopi Tribe of Arizona; Kewa Pueblo, New Mexico (previously listed as the Pueblo of Santo Domingo); Mescalero Apache Tribe of the Mescalero Reservation, New Mexico; Pueblo of Laguna, New Mexico; Pueblo of Sandia, New Mexico; Pueblo of Santa Ana, New Mexico; and Pueblo of Zia, New Mexico (hereafter referred to as “The Invited Tribes”).

History and Description of the Remains

In 1954 and 1955, human remains representing, at minimum, 14 individuals were removed from Atsinna Pueblo in Cibola County, NM. The human remains were removed during legally authorized excavations by Richard B. Woodbury under the auspices of the Department of Anthropology, Columbia University, New York, NY. No known individuals were identified. The 16 associated funerary objects are 1 cordage fragment, 1 textile fragment, 1 projectile point, 1 chopper, 1 bag of plaque fragments, 1 wooden pump drill, 2 pieces of worked wood, 1 bivalve shell, 1 prayer stick, 1 ground stone maul, 2 bags of worked turkey bone, 1 bag of unworked turkey bone, 1 canine tooth, and 1 bag of unworked small mammal bone.

In 1961, human remains representing, at minimum, three individuals were removed from Atsinna Pueblo in Cibola County, NM. The legally authorized excavations were conducted by Joel Shiner and Roland Richart of the National Park Service. No known individuals were identified. The eight associated funerary objects are one ground stone abrader, two bags of unworked turkey bone, one ground stone maul, one textile fragment, one twined wicker basket fragment, one fragment of bark matting, and one pine cone.

Ceramic and tree-ring evidence indicate that the pueblo was built around A.D. 1275 and was occupied through the mid-1300s. Evidence demonstrating continuity between the people of Atsinna Pueblo from A.D. 1275–1300 and the Pueblo of Acoma, New Mexico, and the Zuni Tribe of the Zuni Reservation, New Mexico, includes similarities in architecture, material culture, mortuary practices, and settlement patterns. Oral histories of both the Pueblo of Acoma and Zuni Tribe support cultural continuity between the Pueblo of Acoma and the Zuni Tribe and the people of Atsinna Pueblo, which is known as Heshoda Yalta in the Zuni Language. For example, many Zuni migration and origin stories recount the journey from their place of emergence, deep within the canyon along the Colorado River, to the Middle Place now known as Zuni Pueblo, with Heshoda Yalta as a stopping point along the way. Pictographs and petroglyphs important to the Zuni tribe and Pueblo of Acoma are found near Atsinna Pueblo. During consultation, both the Zuni Tribe and the Pueblo of Acoma described the historic Zuni Acoma trail, which connects the two present day pueblos and runs through El Morro National Monument, as used for regular foot traffic and an access route to various sacred places. The contemporary significance and continued cultural use of the pictographs, petroglyphs, and trail are further evidence of the continuity between the people of Atsinna Pueblo from A.D. 1275–1300 and the Pueblo of Acoma, New Mexico, and the Zuni Tribe of the Zuni Reservation, New Mexico.
