- Pursuant to 25 U.S.C. 3001(2), a relationship of shared group identity cannot be reasonably traced between the Native American human remains and any present-day Indian tribe.

NAGPRA Review Committee Actions

Pursuant to 43 CFR 10.16, the Secretary of the Interior may make a recommendation for the transfer of control of culturally unidentifiable human remains. In April 2014, the DMNS requested that the Secretary, through the NAGPRA Review Committee, recommend the proposed transfer of control of the culturally unidentifiable Native American human remains in this notice to The Requesting Indian Tribes and The Requesting Native Hawaiian organizations. The Requesting Indian Tribes and The Requesting Native Hawaiian organizations jointly requested transfer of control of the human remains.

The Review Committee, acting pursuant to its responsibility under 25 U.S.C. 3006(c)(5), considered the request at its April 10, 2014 meeting and recommended to the Secretary that the proposed transfer of control proceed. A May 5, 2014, letter on behalf of the Secretary of Interior from the Designated Federal Official transmitted the Secretary's independent review and concurrence with the Review Committee that:

- The DMNS consulted with appropriate Indian tribes and Native Hawaiian organizations,
 - none of The Notified Indian Tribes or The Notified Native Hawaiian organizations objected to the proposed transfer of control, and
 - the DMNS may proceed with the agreed upon transfer of control of the culturally unidentifiable human remains to The Requesting Indian Tribes and The Requesting Native Hawaiian organizations

Transfer of control is contingent on the publication of a Notice of Inventory Completion in the **Federal Register**. This notice fulfills that requirement.

Additional Requestors and Disposition

Representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these

human remains should submit a written request with information in support of the request to Chip Colwell-Chanthaphonh, Denver Museum of Nature and Science, 2001 Colorado Blvd., Denver, CO 80205-5798, telephone (303) 370-6367, email chip.c-c@dmns.org, by July 24, 2014. After that date, if no additional requestors have come forward, transfer of control of the human remains to The Requesting Indian Tribes and The Requesting Native Hawaiian organizations may proceed.

The DMNS is responsible for notifying The Notified Indian Tribes and The Notified Native Hawaiian organizations that this notice has been published.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the correction of an inventory of human remains and associated funerary objects under the control of the Denver Museum of Nature & Science (DMNS). The human remains and associated funerary objects were removed from the Turner-Look Site near Cisco, Grand County, UT.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

This notice corrects the number of associated funerary objects published in Notices of Inventory Completion in the **Federal Register** (75 FR 42770-42771, July 22, 2010 and 75 FR 55823-55824, September 14, 2010). Since the publication of notices, additional associated funerary objects were found to be in the possession of DMNS. Transfer of control of the items in this correction notice has not occurred.

Correction

In the **Federal Register** (75 FR 42770-42771, July 22, 2010), paragraph 5, is corrected by substituting the following paragraph:

In 1938, human remains representing a minimum of five individuals were excavated at the Turner-Look Site near Cisco, Grand County, UT, by Wormington. The human remains were removed during legal excavation on private land. The human remains were accessioned into the museum collection (A533.4A (CUI 28), A533.5C (CUI 29), A533.5B (CUI 30), A533.5A (CUI 31), and A533.6A (CUI 32)). Remains include one child, which was reportedly found with seven associated funerary objects, but only three were collected and in the museum's possession: one small circular slate plaque (A533.4B), one stone metate (A533.7A), and one lot of shell fragments (A533.36). The additional human remains are composed of one infant and three adult males, one with the following associated funerary objects: two lots of pottery sherds (A533.6B, A533.6C), one lot of lithics (A533.6D), and one animal

bone fragment (A533.6D). When excavated these remains were defined within the then incipient culture type "Fremont" although this designation as it was then understood is ambiguous in today's archeological lexicon. No known individuals were identified.

In the **Federal Register** (75 FR 55823–55824, September 14, 2010), paragraph 7, sentence 2 is corrected by substituting the following sentence:

Officials of the Denver Museum of Nature & Science also have determined that, pursuant to 25 U.S.C. 3001(3)(A), the 20 objects described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.

Additional Requestors and Disposition

After that date, if no additional requestors have come forward, transfer of control of the associated funerary objects to the Hopi Tribe of Arizona; Pueblo of Acoma, New Mexico; Pueblo of Zia, New Mexico; and the Zuni Tribe of the Zuni Reservation, New Mexico, may proceed.

No burials were documented at the time of excavation; this phalanx appears to be an isolated find. The human remains were transferred to the Burke Museum and
