SUMMARY: In this document the Federal Communications Commission (Commission) released a Report and Order which revised the Commission’s Form 477 collection to include data on deployment of fixed and mobile broadband networks and mobile voice networks, as well as company identification and emergency contact information. The Report and Order also made a number of targeted changes to the collection of subscription data to reduce reporting burdens and improve the quality and usefulness of data collected through the Form 477.

DATES: Sections 1.7001, 1.7002, 43.01 and 43.11, published at 78 FR 49126, were approved by the OMB on June 4, 2014 (OMB Control Number 3060–0816). Accordingly, the amendments to those sections published at 78 FR 49126, Aug. 13, 2013, are effective June 26, 2014.

FOR FURTHER INFORMATION CONTACT: Chelsea Fallon, Wireline Competition Bureau, (202) 418–7991 or chelsea.fallon@fcc.gov.

SUPPLEMENTARY INFORMATION: The Report and Order stated that the changes to §§ 1.7001, 1.7002, 43.01 and 43.11 of the Commission’s rules, which contain information collection requirements, would be effective upon announcement in the Federal Register of OMB approval. On June 4, 2014, OMB approved the information collection requirement contained in the Report and Order pursuant to OMB Control Number: 3060–0816, Local Telephone Competition and Broadband Reporting, FCC Form 477. Accordingly, the information collection requirements contained in the Report and Order are effective June 26, 2014. The expiration date for the information collection is June 30, 2017. The Commission will announce, in a separate notice, the due date by which respondents must submit the required data.

Pursuant to the Paperwork Reduction Act of 1995, 44 U.S.C. 3501–3520, an agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. Notwithstanding any other provisions of law, no person shall be subject to any penalty for failing to comply with the collection of information subject to the Paperwork Reduction Act that does not display a valid control number. Questions concerning this information collection, 3060–1196, should be directed to Leslie F. Smith, Federal Communications Commission at (202) 418–0217 or leslie.smith@fcc.gov.

The total annual reporting burdens and costs for the respondents are as follows:

OMB Control Number: 3060–0816.
OMB Approval Date: June 4, 2014.
OMB Expiration Date: June 30, 2017.
Title: Local Telephone Competition and Broadband Reporting, FCC Form 477.
Form Number: FCC Form 477.
Respondents: Business or other for-profit entities; not-for-profit institutions; and State, local or tribal governments.
Number of Respondents and Responses: 2,002 respondents; 4,004 responses.
Estimated Time Per Response: 387 hours.
Frequency of Response: Semi-annual reporting requirement.
Obligation to Respond: Mandatory.
Total Annual Burden: 1,549,548 hours.
Total Annual Cost: None.
Nature and Extent of Confidentiality: The Commission will continue to allow respondents to certify on the submission interface that some subscribership data contained in that submission are privileged or confidential commercial or financial information and that disclosure of such information would likely cause substantial harm to the competitive position of the entity making the submission. If the Commission receives a request for, or proposes to disclose such information, the respondent would be required to show, pursuant to Commission rules for withholding from public inspection information submitted to the Commission, that the information in question is entitled to confidential treatment. We will retain our current policies and procedures regarding the protection of submitted FCC Form 477 data subject to confidential treatment, including the use of only non-company specific aggregates of subscribership data in our published reports. Most of the broadband deployment data to be collected on Form 477 as a result of modifications will be made publicly available. NTIA currently publishes similar data on the National Broadband Map Web site at www.broadbandmap.gov. The Commission will coordinate with NTIA to continue the publication of the National Broadband Map using the data to be collected through modifications to Form 477. The one exception is that mobile broadband and voice providers can request confidential treatment of their deployment data by spectrum band.

Needs and Uses: FCC Form 477 gathers information on the development of local telephone competition, including telephone services and interconnected Voice over Internet Protocol (VoIP) services, and on the deployment of broadband Internet access services. FCC staff use the information to advise the Commission about the efficacy of its rules and policies adopted to implement the Telecommunications Act of 1996. The data are necessary to evaluate the status of local telecommunications competition and broadband deployment.

Federal Communications Commission.

Jurisdictional Separations Process

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document, the Federal Communications Commission (Commission) extends the freeze of jurisdictional separations category relationships and cost allocation factors in the Commission’s rules for three years, through June 30, 2017.

DATES: This final rule is effective on June 26, 2014.

I. Introduction
1. This Report and Order (Order) extends, through June 30, 2017, the
existing freeze of the Federal
Communications Commission’s
Commission rules regarding
jurisdictional separations. Specifically,
the Commission extends the existing
freeze of Part 36 category relationships
and jurisdictional cost allocation
factors.

II. Background
2. Jurisdictional separations is the
process by which incumbent LECs
apportion regulated costs between the
intrastate and interstate jurisdictions.
Incumbent LECs record their costs
pursuant to part 32 of the Commission’s
regulations. These costs are then
divided between regulated and
unregulated costs pursuant to Part 64 of
the Commission’s regulations.
Incumbent LECs then perform the
jurisdictional separations process
pursuant to part 36 of the Commission’s
rules.
3. The jurisdictional separations
process itself has two parts. First,
incumbent LECs assign regulated costs
to various categories of plant and
expenses. In certain instances, costs are
further disaggregated among service
categories. Second, the costs in each
category are apportioned between the
intrastate and interstate jurisdictions.
These jurisdictional apportionments of
categorized costs are based upon either
a relative use factor, a fixed allocator, or,
when specifically allowed in the Part 36
rules, by direct assignment.
4. The statute requires the
Commission to refer to the Federal-State
Joint Board on Jurisdictional
Separations (Joint Board) any
proceeding regarding “the jurisdictional
separations of common carrier property
and expenses between interstate and
intrastate operations” that the
Commission institutes pursuant to a
notice of proposed rulemaking. In 1997,
the Commission initiated a proceeding
seeking comment on the extent to which
legislative, technological, and market
changes warranted comprehensive
reform of the separations process. The
Commission also invited the State
Members of the Joint Board to develop
a report that would identify additional
issues that should be addressed by the
Commission in its comprehensive
separations reform effort. The State
Members filed a report setting forth
additional issues that they believed
should be addressed by the Joint Board
and proposing an interim freeze, among
other things, to reduce the impact of
changes in telephone usage patterns and
resulting cost shifts from year to year.
The Commission noted that the current
network infrastructure was vastly
different from the network and services
used to define the cost categories
appearing in the Commission’s Part 36
rules.
5. On July 21, 2000, the Joint Board
issued its 2000 Separations
Recommended Decision, recommending
that, until comprehensive reform could
be achieved, the Commission: (i) freeze
Part 36 category relationships and
jurisdictional allocation factors for
incumbent LECs subject to price cap
regulation (price cap incumbent LECs); and
(ii) freeze the allocation factors for
incumbent LECs subject to rate-of-return
regulation (rate-of-return incumbent
LECs). In the 2001 Separations Freeze
Order, the Commission generally
adopted the Joint Board’s
recommendation. The Commission
concluded that the freeze would provide
stability and regulatory certainty for
incumbent LECs by minimizing any
impacts on separations results that
might occur due to circumstances not
contemplated by the Commission’s Part
36 rules, such as growth in local
competition and new technologies.
Further, the Commission found that a
freeze of the separations process would
reduce regulatory burdens on
incumbent LECs during the transition
from a regulated monopoly to a
deregulated, competitive environment
in the local telecommunications
marketplace. Under the freeze, price cap
incumbent LECs calculate: (1) The
relationships between categories of
investment and expenses within part 32
accounts; and (2) the jurisdictional
allocation factors, as of a specific point
in time, and then lock or “freeze” those
category relationships and allocation
factors in place for a set period of time.
The carriers use the “frozen” category
relationships and allocation factors for
their calculations of separations results
and therefore are not required to
conduct separations studies for the
duration of the freeze. Rate-of-return
incumbent LECs are only required to
freeze their allocation factors, but were
given the option of also freezing their
category relationships at the outset of
the freeze.
6. The Commission ordered that the
freeze would be in effect for a five-year
period beginning July 1, 2001, or until
the Commission completed
comprehensive separations reform,
whichever came first. In addition, the
Commission stated that, prior to the
expiration of the separations freeze, the
Commission would, in consultation
with the Joint Board, determine whether
the freeze period should be extended.
The Commission further stated that any
decision to extend the freeze beyond the
five-year period in the 2001 Separations
Freeze Order would be based “upon
whether, and to what extent, comprehensive reform of separations
has been undertaken by that time.”
Separations Freeze Extension and
Further Notice, 71 FR 29882, the
Commission extended the freeze for
three years or until comprehensive
reform could be completed, whichever
came first. The Commission concluded
that extending the freeze would provide
stability to LECs that must comply with
the Commission’s jurisdictional
separations rules that must comply with
the Commission’s jurisdictional
separations rules pending further
Commission action to reform the part 36
rules, and that more time was needed to
study comprehensive reform. The freeze
was subsequently extended by one year
in 2009, 2010, and 2011 and by two
years in 2012.
8. When it extended the freeze in
2009, the Commission referred a
number of issues to the Joint Board and
asked the Joint Board to prepare a
recommended decision. The
Commission asked the Joint Board to
consider comprehensive jurisdictional
separations reform, as well as an interim
adjustment of the current jurisdictional
separations freeze, and whether, how,
and when the Commission’s
jurisdictional separations rules should
be modified. On March 30, 2010, the
State Members of the Joint Board
released a proposal for interim and
comprehensive separations reform. The
Joint Board sought comment on the
proposal. On September 24, 2010, the
Joint Board held a roundtable meeting
with consumer groups, industry
representatives, and state regulators to
discuss interim and comprehensive
jurisdictional separations reform. The
Joint Board staff conducted an extensive
analysis of various approaches to
separations reform, and the Joint Board
is evaluating that analysis.
9. In addition, in 2011, the
Commission comprehensively reformed
the universal service and intercarrier
compensation systems and proposed
additional reforms. The Joint Board is
considering the impact of the reforms proposed by the USF/JCC Transformation Order and any subsequent changes on its analysis of the various approaches to separations reform. On March 27, 2014, the Commission sought comment on extending the freeze once more.

III. Extending the Freeze

10. We extend through June 30, 2017, the freeze on part 36 category relationships and jurisdictional cost allocation factors that the Commission adopted in the 2001 Separations Freeze Order. As a result, price cap carriers will use the same relationships between categories of investment and expenses within Part 32 accounts and the same jurisdictional allocation factors that have been in place since the inception of the current freeze on July 1, 2001; rate-of-return carriers will use the same frozen jurisdictional allocation factors, and will (absent a waiver) use the same frozen category relationships if they had opted to freeze those.

11. We conclude that extending the freeze will provide stability to carriers that must comply with the Commission’s jurisdictional separations rules while the Joint Board continues its analysis of the jurisdictional separations process. The majority of commenters support extending the freeze for at least three years. Significantly, the State Members of the Federal-State Board on Jurisdictional Separations agree with the proposed extension, “based upon our understanding that under the Commission’s orders on various forbearance petitions, the States retain the ability to adopt any reasonable allocation of costs between the intrastate and interstate jurisdictions for State ratemaking and other purposes.”

12. NASUCIC asserts that extending the freeze, rather than substantively reforming the separations rules, is not in the public interest. Although NASUCIC does not support the freeze, per se, it does not advocate for returning to prefreeze regulations, which would be the consequence of permitting the freeze to expire before new separations rules are in effect. The Joint Board is considering comprehensive separations reform. We find that an extension of the freeze is necessary in the interim to avoid regulatory instability and substantial administrative burdens on carriers. If the Commission allowed the earlier separations rules to return to force, carriers would be required to reinstitute their former separations processes even though many carriers no longer have the necessary employees and systems in place to comply with the old jurisdictional separations process and likely would have to hire or reassign train employees and redevelop systems for collecting and analyzing the data necessary to perform separations in the prior manner. To require carriers to reinstitute their separations systems “would be unduly burdensome when there is a significant likelihood that there would be no lasting benefit to doing so.” Therefore, we find that a three-year extension is appropriate.

13. The Small Company Coalition recommends a longer extension, until the transition to bill and keep for terminating access is complete, in July 2020. USTelecom recommends an indefinite extension of the freeze, arguing that separations requirements are increasingly irrelevant, and GVNW argues for an unspecified longer extension. We decline to extend the freeze for more than three years, because the Joint Board may recommend specific reforms and the Commission may be able to substantively address separations rule reform well before the bill and keep transition is complete.

14. Pioneer Telephone Cooperative, which has requested a waiver of its cost category relationship freeze, expresses concern that the grant of the freeze extension without simultaneously granting Pioneer’s waiver will only perpetuate the misallocation of its expenses and investment. As explained above, we conclude that allowing the freeze to expire would create unnecessary burdens and disruption for carriers. The decision to extend the freeze does not affect the Commission’s ability to address pending or future waiver petitions.

15. In the 2014 Separations Freeze Extension FNPRM, we also sought comment on whether to open a filing “window” for rate-of-return incumbent LECs to file waiver requests to unfreeze their jurisdictional separations category relationships. We do not address that in this Order.

IV. Severability

16. All of the rules that are adopted in this Order are designed to work in unison to ensure just, reasonable, and fair regulation of jurisdictional separations. However, each of the reforms we undertake in this order serves a particular function toward this goal. Therefore, it is our intent that each of the rules adopted herein shall be severable. If any of the rules are declared invalid or unenforceable for any reason, it is our intent that the remaining rules shall remain in full force and effect.

V. Procedural Matters

A. Final Regulatory Flexibility Certification

17. The Regulatory Flexibility Act of 1980, as amended (RFA), requires that a regulatory flexibility analysis be prepared for notice-and-comment rulemaking proceedings, unless the agency certifies that “the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities.” The RFA generally defines the term “small entity” as having the same meaning as the terms “small business,” “small organization,” and “small governmental jurisdiction.” In addition, the term “small business” has the same meaning as the term “small business concern” under the Small Business Act. A “small business concern” is one that: (1) Is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the Small Business Administration (SBA).

18. As discussed above, in 2001 the Commission adopted a Joint Board recommendation to impose an interim freeze of the part 36 category relationships and jurisdictional cost allocation factors, pending comprehensive reform of the part 36 separations rules. The Commission ordered that the freeze would be in effect for a five-year period beginning July 1, 2001, or until the Commission completed comprehensive separations reform, whichever came first. On May 16, 2006, concluding that more time was needed to implement comprehensive separations reform, the Commission extended the freeze for three years or until such comprehensive reform could be completed, whichever came first. On May 15, 2009, the Commission extended the freeze through June 30, 2010, on May 24, 2010, extended the freeze through June 30, 2011, on May 3, 2011, extended the freeze through June 30, 2012, and on May 8, 2012, extended the freeze through June 30, 2104.

19. The purpose of the current extension of the freeze is to allow the Commission and the Joint Board additional time to consider changes that may need to be made to the separations process in light of changes in the law, technology, and market structure of the telecommunications industry without creating the undue instability and administrative burdens that would occur were the Commission to eliminate the freeze.

20. Implementation of the freeze extension will ease the administrative burden of regulatory compliance for LECs, including small incumbent LECs.
The freeze has eliminated the need for all incumbent LECs, including incumbent LECs with 1500 employees or fewer, to complete certain annual studies formerly required by the Commission’s rules. The effect of the freeze extension is to reduce a regulatory compliance burden for small incumbent LECs, by abating the aforementioned separations studies and providing these carriers with greater regulatory certainty. Therefore, we certify that the requirement of the report and order will not have a significant economic impact on a substantial number of small entities.

21. The Commission will send a copy of the report and order, including a copy of this Final Regulatory Flexibility Certification, in a report to Congress pursuant to the Congressional Review Act. In addition, the report and order and this final certification will be sent to the Chief Counsel for Advocacy of the SBA, and will be published in the Federal Register.

B. Paperwork Reduction Act Analysis

22. This Report and Order does not contain new, modified, or proposed information collections subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104–13. In addition, therefore, it does not contain any new, modified, or proposed information collection burden for small business concerns with fewer than 25 employees, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4).

C. Congressional Review Act

23. The Commission will send a copy of this Report and Order in a report to be sent to Congress and the Government Accountability Office pursuant to the Congressional Review Act.

D. Effective Date

24. We find good cause to make these rule changes effective immediately upon publication in the Federal Register. As explained above, the current freeze is scheduled to expire on June 30, 2014. To avoid unnecessary disruption to carriers subject to these rules, we preserve the status quo by making the extension of the freeze effective before the scheduled expiration date.

E. Federal Rules That May Duplicate, Overlap, or Conflict With the Proposed Rules

25. None.

VI. Ordering Clauses

26. Accordingly, it is ordered, pursuant to sections 1, 2, 4(i), 201–05, 215, 218, 220, and 410 of the Communications Act of 1934, as amended, 47 U.S.C. 151, 152, 154(i), 201–205, 215, 218, 220, and 410, that this Report and Order is adopted.

27. It is further ordered that the Commission’s Consumer and Governmental Affairs Bureau, Reference Information Center, shall send a copy of this Report and Order, including the Final Regulatory Flexibility Certification, to the Chief Counsel for Advocacy of the Small Business Administration.

28. It is further ordered, pursuant to section 553(d)(3) of the Administrative Procedure Act, 5 U.S.C. 553(d)(3), and sections 1.4(b)(1) and 1.427(b) of the Commission’s rules, 47 CFR 1.4(b)(1), 1.427(b), that this Report and Order shall be effective on the date of publication in the Federal Register.

List of Subjects in 47 CFR Part 36

Jurisdictional separations procedures, Telecommunications.

Federal Communications Commission.

Marlene H. Dortch, Secretary.

For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR part 36 as follows:

PART 36—JURISDICTIONAL SEPARATIONS PROCEDURES; STANDARD PROCEDURES FOR SEPARATING TELECOMMUNICATIONS PROPERTY COSTS, REVENUES, EXPENSES, TAXES AND RESERVES FOR TELECOMMUNICATIONS COMPANIES

1. The authority citation for part 36 continues to read as follows:

Authority: 47 U.S.C. Secs. 151, 154(i) and (j), 205, 221(c), 254, 403, –410, and 1302 unless otherwise noted.

Subpart A—General

2. Amend §36.3 by revising paragraphs (a), (b), (c), (d) introductory text, and (e) to read as follows:

§36.3 Freezing of jurisdictional separations category relationships and/or allocation factors.

(a) Effective July 1, 2001, through June 30, 2017, all local exchange carriers subject to part 36 rules shall apportion costs to the jurisdictions using their study area and/or exchange specific jurisdictional allocation factors calculated during the twelve month period ending December 31, 2000, for each of the categories/sub-categories as specified herein. Direct assignment of private line service costs between jurisdictions shall be updated annually.

Other direct assignment of investment, expenses, revenues or taxes between jurisdictions shall be updated annually. Local exchange carriers that invest in telecommunications plant categories during the period July 1, 2001, through June 30, 2017, for which it had no separations allocation factors for the twelve month period ending December 31, 2000, shall apportion that investment among the jurisdictions in accordance with the separations procedures in effect as of December 31, 2000 for the duration of the freeze.

(b) Effective July 1, 2001, through June 30, 2017, local exchange carriers subject to price cap regulation, pursuant to §61.41 of this chapter, shall assign costs from the part 32 accounts to the separations categories/sub-categories, as specified herein, based on the percentage relationships of the categorized/sub-categorized costs to their associated part 32 accounts for the twelve month period ending December 31, 2000. If a part 32 account for separations purposes is categorized into more than one category, the percentage relationship among the categories shall be utilized as well. Local exchange carriers that invest in types of telecommunications plant during the period July 1, 2001, through June 30, 2017, for which it had no separations category investment for the twelve month period ending December 31, 2000, shall assign such investment to separations categories in accordance with the separations procedures in effect as of December 31, 2000. Local exchange carriers not subject to price cap regulation, pursuant to §61.41 of this chapter, may elect to be subject to the provisions of paragraph (b) of this section. Such election must be made prior to July 1, 2001. Local exchange carriers electing to become subject to paragraph (b) shall not be eligible to withdraw from such regulation for the duration of the freeze. Local exchange carriers participating in Association tariffs, pursuant to §69.601 et seq., shall notify the Association prior to July 1, 2001, of such intent to be subject to the provisions of paragraph (b). Local exchange carriers not participating in Association tariffs shall notify the Commission prior to July 1, 2001, of such intent to be subject to the provisions of paragraph (b).

(c) Effective July 1, 2001, through June 30, 2017, any local exchange carrier that sells or otherwise transfers exchanges, or parts thereof, to another carrier’s study area shall continue to utilize the factors and, if applicable, category relationships as specified in paragraphs (a) and (b) of this section.
(d) Effective July 1, 2001, through June 30, 2017, any local exchange carrier that buys or otherwise acquires exchanges or part thereof, shall calculate new, composite factors and, if applicable, category relationships based on a weighted average of both the seller's and purchaser's factors and category relationships calculated pursuant to paragraphs (a) and (b) of this section. This weighted average should be based on the number of access lines currently being served by the acquiring carrier and the number of access lines in the acquired exchanges.

(e) Any local exchange carrier study area converting from average schedule company status, as defined in §69.605(c) of this chapter, to cost company status during the period July 1, 2001, through June 30, 2017, shall, for the first twelve months subsequent to conversion categorize the telecommunications plant and expenses and develop separations allocation factors in accordance with the separations procedures in effect as of December 31, 2000. Effective July 1, 2001 through June 30, 2017, such companies shall utilize the separations allocation factors and account categorization subject to the requirements of paragraphs (a) and (b) of this section based on the category relationships and allocation factors for the twelve months subsequent to the conversion to cost company status.

Subpart B—Telecommunications Property

Central Office Equipment

3. Amend §36.123 by revising paragraphs (a)(5) and (6) to read as follows:

§36.123 Operator systems equipment—Category 1.

(a) * * * *
(5) Effective July 1, 2001, through June 30, 2017, study areas subject to price cap regulation, pursuant to §61.41 of this chapter, shall assign the average balances of Account 2220, Operator Systems, to the categories/subcategories, as specified in paragraph (a)(1) of this section, based on the relative percentage assignment of the average balance of Account 2220 to these categories/subcategories during the twelve month period ending December 31, 2000.

(6) Effective July 1, 2001 through June 30, 2017, all study areas shall apportion costs to these categories/subcategories during the twelve month period ending December 31, 2000.

4. Amend §36.124 by revising paragraphs (c) and (d) to read as follows:

§36.124 Tandem switching equipment—Category 2.

(c) Effective July 1, 2001, through June 30, 2017, study areas subject to price cap regulation, pursuant to §61.41 of this chapter, shall assign the average balances of Accounts 2210, 2211, and 2212 to Category 2, Tandem Switching Equipment based on the relative percentage assignment of the average balances of Account 2210, 2211, 2212, and 2215 to Category 2, Tandem Switching Equipment during the twelve month period ending December 31, 2000.

(d) Effective July 1, 2001, through June 30, 2017, all study areas shall apportion costs in Category 2, Tandem Switching Equipment, among the jurisdictions using the relative number of study area minutes of use, as specified in paragraph (b) of this section, for the twelve month period ending December 31, 2000. Direct assignment of any subcategory of Category 2 Tandem Switching Equipment between jurisdictions shall be updated annually.

5. Amend §36.125 by revising paragraphs (h), (i), and (j) to read as follows:

§36.125 Local switching equipment—Category 3.

(h) Effective July 1, 2001, through June 30, 2017, study areas subject to price cap regulation, pursuant to §61.41 of this chapter, shall assign the average balances of Accounts 2210, 2211, and 2212 to Category 3, Local Switching Equipment, based on the relative percentage assignment of the average balances of Account 2210, 2211, 2212, and 2215 to Category 3, during the twelve month period ending December 31, 2000.

(i) Effective July 1, 2001, through June 30, 2017, all study areas shall apportion costs in Category 3, Local Switching Equipment, among the jurisdictions using the relative dial equipment minutes of use for the twelve month period ending December 31, 2000.

(j) If the number of a study area’s access lines increases such that, under paragraph (f) of this section, the weighted interstate DEM factor for 1997 or any successive year would be reduced, that lowered weighted interstate DEM factor shall be applied to the study area’s 1996 unweighted interstate DEM factor to derive a new local switching support factor. If the number of a study area’s access lines decreases or has decreased such that, under paragraph (f) of this section, the weighted interstate DEM factor for 2010 or any successive year would be raised, that higher weighted interstate DEM factor shall be applied to the study area’s 1996 unweighted interstate DEM factor to derive a new local switching support factor.

6. Amend §36.126 by adding paragraph (b)(6) and revising paragraphs (c)(4), (e)(4), and (f)(2) to read as follows:

§36.126 Circuit equipment—Category 4.

(b) * * * *
(6) Effective July 1, 2001, through June 30, 2017, study areas subject to price cap regulation, pursuant to §61.41 of this chapter, shall assign the average balances of Accounts 2230 through 2232 to the categories/subcategories as specified in paragraphs (b)(1) through (4) of this section based on the relative percentage assignment of the average balances of Accounts 2230 through 2232 costs to these categories/subcategories during the twelve month period ending December 31, 2000.

(c) * * *
