

9. Availability to participate in-person in a 2-day peer review meeting in the Washington, DC metro area in August or September 2014 (exact date will be published in the **Federal Register** at least 30 days prior to the external peer review meeting).

Further information regarding the external peer review meeting will be announced at a later date in the **Federal Register**.

V. Peer Panel Selection Process

EPA’s contractor will notify candidates of selection or non-selection. EPA’s contractor will follow-up with nominees and request additional information such as:

1. The disciplinary and specific areas of expertise of the nominee.
2. The nominee’s curriculum vita.
3. A biographical sketch of the nominee indicating current position; educational background; past and current research activities; recent service on other advisory committees, peer review panels, editorial boards, or professional organizations; sources of recent grant and/or contract support; and other comments on the relevance of the nominee’s expertise to this peer review topic.

EPA’s contractor may also conduct an independent search for candidates to assemble a balanced group representing the expertise needed to fully evaluate EPA’s draft documents. EPA’s contractor will consider and screen all candidates against the criteria listed in Unit III. and the Agency’s Conflict of Interest (COI) and appearance of bias

guidance (http://www.epa.gov/peerreview/pdfs/spc_peer_rvw_handbook_addendum.pdf and <http://www.epa.gov/osa/pdfs/epa-process-for-contractor.pdf>). Following the screening process, EPA’s contractor will narrow the list of potential reviewers. Prior to selecting the final peer reviewers, a second **Federal Register** notice will be published to solicit comments on the interim list of 12–15 candidates. The public will be requested to provide relevant information or documentation on the nominees that EPA’s contractor should consider in evaluating the candidates within 21 days following the announcement of the interim candidates. Once the public comments on the interim list of candidates have been reviewed, EPA’s contractor will select the final peer reviewers who, collectively, best provide expertise spanning the multiple areas listed Unit III. and, to the extent feasible, best provide a balance of perspectives. Compensation of non-Federal peer reviewers will be provided by EPA’s contractor.

SUPPLEMENTARY INFORMATION:

Background: CECANF was established to develop a national strategy and recommendations for reducing fatalities resulting from child abuse and neglect.

Agenda: The purpose of the meeting is for Commission members to gather information to better understand the extent of, and risks associated with, child abuse and neglect fatalities. The Commission will hear from researchers regarding strategies for improving national data and preventing fatalities; learn more about the federal policy framework for addressing these fatalities; gain a better understanding of confidentiality issues and possible solutions; and hear about child welfare, law enforcement, health, and public health strategies for addressing the issue of child abuse and neglect fatalities.

Attendance at the Meeting: Individuals interested in attending the meeting in person must register in advance because of limited space. To register to attend in person or by phone, please go to <https://www.surveymonkey.com/s/7JCP6W9> and follow the prompts. Detailed meeting minutes will be posted within 90 days of the meeting. Interested members of the public may listen to the CECANF discussion by calling 1–866–928–2008, and entering pass code 556476. Members of the public will not have the opportunity to ask questions or otherwise participate in the meeting.

However, members of the public wishing to comment should follow the steps detailed under the heading addresses in this publication or contact us via the CECANF Web site at <https://eliminatechildabusefatalities.sites.usa.gov/contact-us/>.

Dated: June 23, 2014.

Agency for Healthcare Research and Quality

Scientific Information Request on Interventions To Improve Appropriate Antibiotic Use for Acute Respiratory Tract Infections

AGENCY: Agency for Healthcare Research and Quality (AHRQ), HHS.

ACTION: Request for Scientific Information Submissions.

SUMMARY: The Agency for Healthcare Research and Quality (AHRQ) is seeking scientific information submissions from the public. Scientific information is being solicited to inform our review of Interventions to Improve Appropriate Antibiotic Use for Acute Respiratory Tract Infections, which is currently being conducted by the Evidence-based Practice Centers for the AHRQ Effective Health Care Program. Access to published and unpublished pertinent scientific information will improve the quality of this review. AHRQ is conducting this systematic review pursuant to Section 1013 of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003, Public Law 108–173, and Section 902(a) of the Public Health Service Act, 42 U.S.C. 299a(a).

DATES: Submission Deadline on or before July 28, 2014.

ADDRESS: Online submissions: <http://effectivehealthcare.AHRQ.gov/index.cfm/submit-scientific-information-packets/>. Please select the study for which you are submitting information from the list to upload your documents. Email submissions: SIPS@epc-src.org.

SUPPLEMENTARY INFORMATION: The Agency for Healthcare Research and Quality has commissioned the Effective Health Care (EHC) Program Evidence-based Practice Centers to complete a review of the evidence for Interventions to Improve Appropriate Antibiotic Use for Acute Respiratory Tract Infections.

The EHC Program is dedicated to identifying as many studies as possible that are relevant to the questions for each of its reviews. In order to do so, we are supplementing the usual manual and electronic database searches of the literature by requesting information from the public (e.g., details of studies conducted). We are looking for studies that report on Interventions to Improve Appropriate Antibiotic Use for Acute Respiratory Tract Infections, including those that describe adverse events. The entire research protocol, including the key questions, is also available online at: <http://effectivehealthcare.AHRQ.gov/search-for-guides-reviews-and-reports/?pageaction=displayproduct&productID=1913>.

This notice is to notify the public that the EHC Program would find the following information on Interventions to Improve Appropriate Antibiotic Use for Acute Respiratory Tract Infections helpful:

- A list of completed studies that your company has sponsored for this indication. In the list, indicate whether results are available on ClinicalTrials.gov along with the ClinicalTrials.gov trial number.

- For completed studies that do not have results on ClinicalTrials.gov, please provide a summary, including the following elements: study number, study period, design, methodology, indication and diagnosis, proper use instructions, inclusion and exclusion criteria, primary and secondary outcomes, baseline characteristics, number of patients screened/eligible/enrolled/lost to follow-up/withdrawn/analyzed, effectiveness/efficacy, and safety results.

- A list of ongoing studies your company has sponsored for this indication. In the list, please provide the ClinicalTrials.gov trial number or, if the trial is not registered, the protocol for the study including a study number, the study period, design, methodology, indication and diagnosis, proper use instructions, inclusion and exclusion criteria, and primary and secondary outcomes.
