

(c) Prevent the restarting of the pump motor at any time the water level is below 3 feet at the pump location.

(3) The pump installation will be equipped with a water level indicator located at the pump electrical controls so that the water level at the pump can be determined before the pump motor is restarted.

(4) All high- and low-water probes and float circuits associated with the pump will be MSHA-accepted intrinsically safe, and will be installed and maintained in accordance with MSHA acceptance.

(5) All surface installed equipment associated with the pump will be accessible for inspection.

(6) A functional test will be conducted weekly for the grounded-phase protective device(s) to determine if it is operating properly. A record of the tests will be kept for one year and will be made available for review by MSHA.

(7) Before installation and operation of any future pumps, not including replacement pump(s) for the pump in this proposed petition, the petitioner will notify the District Manager for approval prior to installation and operation.

(8) Implementation of the proposed decision and order will not begin until MSHA has conducted an inspection of the pump and associated electrical installation to ensure that the terms and conditions of the decision have been complied with.

(9) Within 60 days after this petition for modification is granted, the petitioner will submit to the District Manager proposed revisions for the approved 30 CFR part 48 training plan that will specify task training for all electricians who perform electric work on this pump. The training will include instructions in the following elements:

(a) Hazards that could exist if the water level falls below the electric connections of the pumps and pump motor; and

(b) Safe pump restart procedures when the water is 3 feet above the electric components and pump motor.

The petitioner asserts that adhering to the proposed requirements in this petition for modification will guarantee the same measure of protection as the existing standard.

Sheila McConnell,

Acting Director, Office of Standards, Regulations and Variances.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: The information collection activity will gather qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback PBGC means information that provides useful insights on perceptions and opinions, but the information requests are not statistical surveys that yield quantitative results generalizable to the population of interest. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between PBGC and its customers and stakeholders. These collections also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address:

- The target population to which generalizations will be made,
- the sampling frame,
- the sample design (including stratification and clustering),
- the precision requirements or power calculations that justify the proposed sample size,
- the expected response rate,
- methods for assessing potential non-response bias,
- the protocols for data collection, and
- any testing procedures that were or will be undertaken prior fielding the study.

Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

PBGC is requesting that OMB extend approval the information collection for another three years without change. An agency may not conduct or sponsor, and

a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Current Action: Extension of approval for a collection of information (OMB Control Number 1212–0066; expires June 30, 2014).

Type of Review: Regular.

Affected Public: Individuals and households.

Estimated Annual Number of Respondents: 1180.

Below are projected average annual estimates for the next three years:

Average Expected Annual Number of Activities: Three.

Average Number of Respondents per Activity (varies by activity):

- Usability Testing; 40.
 - Focus Group: 90 (nine groups of ten respondents).
 - Customer Satisfaction Survey: 1050.
- Frequency of Response:* Once per request.

Annual Responses: 1180 (based on one response per respondent).

Average Time per Response (varies by activity):

- Two hours per response for Usability Testing and Focus Groups;
- 15 minutes for Customer Satisfaction Survey.

Burden Hours (varies by activity):

- Usability Testing, 80 hours.
- Focus Group, 180 hours.
- Customer Satisfaction Survey, 263 hours.

Total: 523 hours.

Issued in Washington, DC, this 24 day of June 2014.

Judith Starr,

General Counsel, Pension Benefit Guaranty Corporation.

Applicants’ Representations

1. The Initial Fund is a recently-formed Delaware statutory trust that is registered under the Act as a diversified, closed-end management investment company. The Initial Fund’s primary investment objective is to produce current income with a secondary objective to achieve long-term capital

appreciation with moderate volatility and low to moderate correlation to the broader equity markets. Applicants represent that the Initial Fund pursues its investment objectives by investing, under normal circumstances, at least 80% of its assets in real estate and real estate related industry securities, primarily in income producing equity and debt securities.

2. The Adviser is a Delaware corporation and is registered as an investment adviser under the Investment Advisers Act of 1940. The Adviser serves as investment adviser to the Initial Fund.

3. The Applicants seek an order to permit the Initial Fund to issue multiple classes of shares, each having its own fee and expense structure, and to impose asset-based distribution fees and EWCs.

4. Applicants request that the order also apply to any continuously-offered registered closed-end management investment company that has been previously organized or that may be organized in the future for which the Adviser or any entity controlling, controlled by, or under common control with the Adviser, or any successor in interest to any such entity,¹ acts as investment adviser and which operates as an interval fund pursuant to rule 23c–3 under the Act or provides periodic liquidity with respect to its shares pursuant to rule 13e–4 under the Securities Exchange Act of 1934 (“Exchange Act”) (together with the Initial Fund, the “Funds”).²

5. The Initial Fund is currently making a continuous public offering of its common shares following the effectiveness of its registration statement and that the Initial Fund anticipates that it will continue its continuous public offering of its common shares. Applicants state that additional offerings by any Fund relying on the order may be on a private placement or public offering basis. Shares of the Funds will not be listed on any securities exchange, nor quoted on any quotation medium. The Funds do not expect there to be a secondary trading market for their shares.

6. If the requested relief is granted, the Initial Fund intends to redesignate its common shares as “Class A Shares” and to continuously offer two additional

¹ A successor in interest is limited to an entity that results from a reorganization into another jurisdiction or a change in the type of business organization.

² Any Fund relying on this relief in the future will do so in a manner consistent with the terms and conditions of the application. Applicants represent that each entity presently intending to rely on the requested relief is listed as an applicant.
