Title: Schedule of Tobacco Products, Cigarette Papers, or Tubes Withdrawn from the Market.

Form: TTB F 5200.7.

Abstract: TTB F 5200.7 is used by persons who intend to withdraw tobacco products from the market and file a claim for credit, refund, or abatement of tax on those products for which Federal excise taxes have already been paid or determined. The industry member uses this form to describe the products that are to be withdrawn from the market. Through the use of this form, the industry member notifies TTB when a withdrawal or destruction is to take place, and TTB may elect to supervise the withdrawal or destruction.

Affected Public: Businesses or other for-profit organizations.

Estimated Annual Burden Hours: 2,250.

OMB Number: 1513–0062.

Type of Review: Extension without change of a currently approved collection.

Title: Usual and Customary Business Records Relating to Denatured Spirits—TTB REC 5150/1.

Abstract: Denatured spirits are used for nonbeverage industrial purposes in the manufacture of personal and household products. These records are maintained at the premises of the regulated individual and are routinely inspected by TTB personnel during field tax compliance examinations. These examinations are necessary to verify that all specially denatured spirits can be accounted for and are being used only for purposes authorized by laws and regulations. By ensuring that spirits have not been diverted to beverage use, tax revenue and public safety are protected. No additional recordkeeping is imposed on the respondent, as this information collection requires the maintenance only of the usual and customary business records of the regulated individual.

Affected Public: Businesses or other for-profit organizations; State, local, and tribal governments.

Estimated Annual Burden Hours: 1.

OMB Number: 1513–0113.

Type of Review: Extension without change of a currently approved collection.

Title: Special Tax “Renewal” Registration and Return/Special Tax Location Registration Listing.

Form: TTB F 5630.5R.

Abstract: Chapter 52 of the Internal Revenue Code of 1986, as amended (IRC), imposes an occupational tax on

persons engaging in certain tobacco businesses. Section 5731 of the IRC (26 U.S.C. 5731) requires persons to register and/or pay a special occupational tax before conducting business in certain tobacco categories. TTB F 5630.5R is used both to compute and report the tax and as an application for registry as required by statute. TTB F 5630.5R is computer-generated by TTB with known taxpayer identifying information (e.g., name, trade name, address, employer identification number, etc.) along with tax computations reflecting tax class(es), number of business locations, tax rate(s), and total tax due. The taxpayer corrects or supplies any inaccurate or incomplete information.

Affected Public: Businesses or other for-profit organizations.

Estimated Annual Burden Hours: 100.

OMB Number: 1513–0130.

Type of Review: Revision of a currently approved collection.

Title: Report of Removal, Transfer, or Sale of Processed Tobacco.

Form: TTB F 5250.2.

Abstract: Unregulated transfers or sales of processed tobacco to persons who do not hold TTB permits could lead to processed tobacco falling into the hands of persons who would be unknown and unaccountable to TTB, including illegal manufacturers. In order to better regulate processed tobacco and prevent diversion, TTB requires the filing of a report, TTB F 5250.2, covering all such transfers or sales. This report is used to protect the revenue.

Affected Public: Businesses or other for-profit organizations.

Estimated Annual Burden Hours: 2,400.

SUPPLEMENTARY INFORMATION:

Title: Treasury International Capital (TIC) Form SHC/SHCA “U.S. Ownership of Foreign Securities, including Selected Money Market Instruments.”

OMB Control Number: 1505–0146.

Abstract: Form SHC/SHCA is used to conduct annual surveys of U.S. residents’ ownership of foreign securities for portfolio investment purposes. These data are used by the U.S. Government in the formulation of international financial and monetary policies, and for the computation of the U.S. balance of payments accounts and of the U.S. international investment position. These data are also used to provide information to the public and to meet international reporting commitments. The SHC/SHCA survey is part of an internationally coordinated effort under the auspices of the International Monetary Fund to improve data on securities worldwide. Most of the major industrial and financial countries conduct similar surveys.

The data collection includes large benchmark surveys conducted every five years, and smaller annual surveys conducted in the non-benchmark years. The data collected under an annual survey are used in conjunction with the results of the preceding benchmark survey to make economy-wide estimates for that non-benchmark year. Currently, the determination of who must report in the annual surveys is based primarily on

the data submitted during the preceding benchmark survey. The data requested in the annual survey will generally be the same as requested in the preceding benchmark report. Form SHC is used for the benchmark survey of all significant U.S.-resident custodians and end-investors regarding U.S. ownership of foreign securities. In non-benchmark years Form SHCA is used for the annual surveys of primarily the very largest U.S.-resident custodians and end-investors.

Current Actions: The proposed changes will: (1) Modify the determination of who must report on the annual surveys to include consideration of those filing the monthly TIC Form SLT report; (2) streamline Form SHC/SHCA to provide consistency among the annual surveys and the TIC SLT (details of the changes follow below); and (3) update and clarify the instructions, including updating how to submit reports and the line-by-line instructions. The changes will improve overall survey reporting.

The remainder of the Current Actions section shows in more detail the proposed changes to streamline Form SHC/SHCA, organized by schedule:

The following changes apply to Schedule 1: Reporter Contact Information and Summary of Financial Information:

- a. Minor changes in wording concerning the reporter's identification number, name, and contacts.
- b. Lines that previously lacked numbers now have them, resulting in renumbering of subsequent lines.
- c. In "Reporter Type", "Banks" is replaced with "Depository Institution", "Mutual fund or investment trust" is replaced with "Fund/Fund Manager/Sponsor (excluding pension fund)", and "Other Financial Organization" is specified to include "BHCs (Bank Holding Companies) and FHCs (Financial Holding Companies)."

d. The line for a contact fax number is eliminated.

e. "Industrial Classification Code" is replaced with "Reporter Type".

The following changes apply to Schedule 2: Details of Securities:

a. Minor changes in wording throughout to remove instruction comments.

b. Lines are renumbered.

c. The line for "Security ID System" is now consistent across Forms SHC/SHCA and SHL/SHLA. The new categories are: 1 = CUSIP, 2 = ISIN, 3 = CINS, 4 = Common Code, 5 = SEDOL, 6 = Internally Generated, and 7 = Other.

d. "Face Value in Currency of Denomination" for non-asset-backed securities and "Remaining Principal Outstanding in Currency of Denomination" for asset-backed securities are replaced by "Face Value or Remaining Principal Outstanding in the Currency of Denomination" for all debt securities.

e. The separate "Issue Date" and "Maturity Date" for non-Asset-Backed Securities and

Asset-Backed Securities are replaced by "Issue Date" and "Maturity Date" for all debt securities.

f. The "Term Indicator" line is eliminated.

g. The "Intentionally Left Blank" lines are eliminated.

h. "Market value" is replaced by "Fair value"

i. A new item requires reporters to specify whether they are reporting the security as "End-investors" or "Custodians".

j. "Security Type" is now consistent with Form SHL/SHLA. "Unstripped bond or note and all other asset-backed debt" is replaced by security types "Bond or note, unstripped", "Bond or note, stripped", and "All other debt". "Zero-coupon & stripped security" is replaced by "Zero-coupon bond or note".

k. "Ownership Code" is replaced with "Type of U.S. Owner". A new, more precise system of categories replaces the old categories. The new categories are: 1 = Depository Institution; 2 = Fund or Other Investment Vehicle (excluding pension and mutual funds); 3 = Pension Fund; 4 = Mutual Fund, 5 = Insurance Company; 6 = Other Financial Organization (including BHC and FHC); 7 = Nonfinancial Organization.

l. "Type of Foreign Issuer" is added to identify if the security is issued by "Foreign Official Institutions" or "All Other Foreigners".

The following changes apply to Schedule 3: Custodians Used:

a. Minor changes in wording throughout to remove instruction comments.

Type of Review: Revision of currently approved data collection.

Affected Public: Business/Financial Institutions.

Form: TIC SHC/SHCA, Schedules 1, 2 and 3 (1505-0146).

Estimated Number of Respondents:

An annual average (over five years) of 341, but this varies widely from about 955 in benchmark years (once every five years) to about 190 in other years (four out of every five years).

Estimated Average Time per Respondent:

An annual average (over five years) of about 169 hours, but this will vary widely from respondent to respondent. (a) In the year of a benchmark survey, which is conducted once every five years, it is estimated that

exempt respondents will require an average of 17 hours; custodians of securities providing security-by-security information will require an average of 361 hours, but this figure will vary widely for individual custodians; end-investors providing security-by-security information will require an average of 121 hours; and end-investors and custodians employing U.S. custodians will require an average of 41 hours. (b) In a non-benchmark year, which occurs four years out of every five years: Custodians of securities providing security-by-security information will require an average of 546 hours (because only the largest U.S.-resident custodians

will report), but this figure will vary widely for individual custodians; end-investors providing security-by-security information will require an average of 146 hours; and reporters entrusting their foreign securities to U.S. custodians will require an average of 49 hours. The exemption level, which applies only in benchmark years, for custodians is the holding of less than \$100 million in foreign securities and for end-investors the owning of less than \$100 million in foreign securities with a single custodian.

Estimated Total Annual Burden Hours: An annual average (over five years) of 57,630 hours.

Frequency of Response: Annual.

Request For Comments: Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval. All comments will become a matter of public record. The public is invited to submit written comments concerning: (a) Whether the Survey is necessary for the proper performance of the functions of the Office of International Affairs within the Department of the Treasury, including whether the information collected will have practical uses; (b) the accuracy of the above estimate of the burdens; (c) ways to enhance the quality, usefulness and clarity of the information to be collected; (d) ways to minimize the reporting and/or record keeping burdens on respondents, including the use of information technologies to automate the collection of the data requested; and (e) estimates of capital or start-up costs of operation, maintenance and purchase of services to provide the information requested.

Administrator, International Portfolio Investment Data Systems.
