

and Energy Act of 2008, 7 U.S.C. 8701 (referred to as the 2008 Farm Bill) establishes a requirement for the Department of Agriculture (USDA) to annually compile application and participation rate data regarding socially disadvantaged farmers or ranchers by computing for each program of the USDA that serves agriculture producers and landowners (a) raw numbers of applicants and participants by race, ethnicity, and gender, subject to appropriate privacy protection, as determined by the Secretary; and (b) the application and participation rate, by race, ethnicity and gender as a percentage of the total participation rate of all agricultural producers and landowners for each county and State in the United States.

Need and Use of the Information: Data will be collected on a voluntary basis through a questionnaire to determine the race, ethnicity and gender of farmers and ranchers who apply for and who participate in USDA programs and services. The data will enable the Secretary and the Office of Advocacy and Outreach and the agencies' outreach offices in reaching current and prospective socially disadvantaged farmers or ranchers in a linguistically appropriate manner to focus resources in a particular county or region where low participation is indicated by the data to improve the participation of those farmers and ranchers in USDA programs. The data is intended to be used as one indicator in targeting and designing outreach activities and in assessing compliance with civil rights laws in program delivery. The data may also be used as an indicator in directing compliance reviews to geographic areas where there are indications of low participation in USDA programs by minorities and women, thus serving as an "early warning system" that warrants further investigations. Failure to collect this information will have a negative impact on USDA's outreach activities and could result in an inability of the agencies to equitably deliver programs and services to applicant and producers.

Title: South American Cactus Moth; Quarantine and Regulations.

OMB Control Number: 0579–0337.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701—*et seq.*), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. The Animal and Plant Health Inspection Service (APHIS) regulations subpart, “Subpart–South American Cactus Moth” (7 CFR part 301.55 through 301.55–9), restrict the interstate movement of regulated articles from quarantined areas into or through non-quarantined areas within the United States.

Need and Use of the Information: APHIS will collect information using Limited Permit (PPQ Form 530), Certificate (PPQ Form 540) and Compliance Agreement (PPQ Form 519).

The limited permits are used to authorize movement of regulated articles that are not certifiable to specified destination for processing, treatment, or utilization. The certificate is used for domestic movement of treated articles relating to quarantines. Certificates are issued for regulated articles when an inspector or other person authorized to issue certificates finds that the articles have met the conditions of the regulations and may be safely moved interstate without further restrictions. The Compliance agreements are provided for the convenience of persons who are involved in the growing, handling, or moving of regulated articles from quarantined areas. Without this information, APHIS could not provide an effective domestic quarantine

program to prevent the artificial spread of the South American cactus moth within the United States.

Number of Respondents: 7.

Frequency of Responses: Reporting; On occasion.
