BILLING CODE 6560-50-P**ENVIRONMENTAL PROTECTION AGENCY****[EPA-HQ-OPP-2014-0459; FRL-9912-39]****Pesticide Chemicals; Registration Review; Draft Human Health and Ecological Risk Assessment; Notice of Availability.****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: This notice announces the availability of EPA's draft human health and ecological risk assessments for the registration review of chlorfenapyr, fenoxaprop-p-ethyl, flumiclorac-pentyl, maleic hydrazide, sulfentrazone, and tebuthiuron and opens a public comment period on these documents. Registration review is EPA's periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, the pesticide can perform its intended function without unreasonable adverse effects on human health or the environment. As part of the registration review process, the Agency has completed draft human health and ecological risk assessments, including an endangered species assessment, for all uses of the previously listed pesticide chemicals. After reviewing comments received during the public comment period, EPA will issue revised risk assessments, explain any changes to the draft risk assessments, and respond to comments and may request public input on risk mitigation before completing proposed registration review decisions for the previously listed pesticide chemicals. Through this program, EPA is ensuring that each pesticide's registration is based on current scientific and other knowledge, including its effects on human health and the environment.
