SUPPLEMENTARY INFORMATION: Section 455(b) of the Higher Education Act of 1965, as amended (HEA) (20 U.S.C. 1087e(b)), provides formulas for determining the interest rates charged to borrowers for loans made under the Direct Loan Program including: Federal Direct Subsidized Stafford Loans (Direct Subsidized Loans); Federal Direct Unsubsidized Stafford Loans (Direct Unsubsidized Loans); Federal Direct PLUS Loans (Direct PLUS Loans); and Federal Direct Consolidation Loans (Direct Consolidation Loans).

Direct Subsidized Loans, Direct Unsubsidized Loans, and Direct PLUS Loans (collectively, Direct Loans) first disbursed on or after July 1, 2013, have a fixed interest rate that is calculated based on the high yield of the 10-year Treasury notes auctioned at the final auction held before June 1 of each year, plus a statutory add-on percentage. Therefore, while the interest rate determination for new loans will be different from year to year, such loans will have a fixed interest rate for the life of the loan. In each case, the calculated rate is capped by a maximum interest rate.

The following chart contains specific information on the calculation of the interest rates for Direct Loans first disbursed on or after July 1, 2014, and through June 30, 2015. We publish a separate notice containing the interest rates for Direct Loans that were made in prior years.

FIXED-RATE DIRECT SUBSIDIZED LOANS, DIRECT UNSUBSIDIZED LOANS, AND DIRECT PLUS LOANS FIRST DISBURSED ON OR AFTER 7/1/2014 AND THROUGH 6/30/2015

Loan type	Student grade level	Cohort		Index rate	Margin (percent)	Fixed rate (percent)	Max. rate (percent)
		First disbursed on/after	First disbursed before	10-Year treasury note			
Subsidized	Undergraduates	7/1/2014	7/1/2015	2.61	2.05	4.66	8.25
Unsubsidized ...	Undergraduates	7/1/2014	7/1/2015	2.61	2.05	4.66	8.25
Unsubsidized ...	Graduate and Professional Students.	7/1/2014	7/1/2015	2.61	3.60	6.21	9.50
PLUS	Parents of Dependent Undergraduates.	7/1/2014	7/1/2015	2.61	4.60	7.21	10.50
PLUS	Graduate and Professional Students.	7/1/2014	7/1/2015	2.61	4.60	7.21	10.50

If an application for a Direct Consolidation Loan is received by the Department on or after July 1, 2013, the interest rate on that loan is the weighted

average of the consolidated loans, rounded up to the nearest higher 1/8 of 1 percent. Such Direct Consolidation Loans do not have an interest rate cap.

SUPPLEMENTARY INFORMATION: On January 9, 2014, President Obama issued a *Presidential Memorandum—Establishing a Quadrennial Energy Review*. To accomplish this review, the Presidential Memorandum establishes a Quadrennial Energy Review Task Force to be co-chaired by the Director of the Office of Science and Technology Policy, and the Director of the Domestic Policy Council. Under the Presidential Memorandum, the Secretary of Energy shall provide support to the Task Force, including support for coordination activities related to the preparation of the Quadrennial Energy Review Report, policy analysis and modeling, and stakeholder engagement.

The DOE, as the Secretariat for the Quadrennial Energy Review Task Force, will hold a series of public meetings to discuss and receive comments on issues related to the Quadrennial Energy Review.

The initial focus for the Quadrennial Energy Review will be our Nation's infrastructure for transporting, transmitting, storing and delivering energy. Our current infrastructure is increasingly challenged by transformations in energy supply, markets, and patterns of end use; issues of aging and capacity; impacts of climate change; and cyber and physical threats. Any vulnerability in this infrastructure may be exacerbated by the increasing interdependencies of energy systems with water, telecommunications, transportation, and emergency response systems. The first Quadrennial Energy Review Report will serve as a roadmap to help address these challenges.

The Department of Energy has a broad role in energy policy development and the largest role in implementing the Federal Government's energy research and development portfolio. Many other executive departments and agencies also play key roles in developing and implementing policies governing energy resources and consumption, as well as associated environmental impacts. In

addition, non-Federal actors are crucial contributors to energy policies. Because most energy and related infrastructure is owned by private entities, investment by and engagement of the private sector is necessary to develop and implement effective policies. State and local policies; the views of nongovernmental, environmental, faith-based, labor, and other social organizations; and contributions from the academic and non-profit sectors are also critical to the development and implementation of effective energy policies.

An interagency Quadrennial Energy Review Task Force, which includes members from all relevant executive departments and agencies (agencies), will develop an integrated review of energy policy that integrates all of these perspectives. It will build on the foundation provided in the Administration's *Blueprint for a Secure Energy Future* of March 30, 2011, and *Climate Action Plan* released on June 25, 2013. The Task Force will offer recommendations on what additional actions it believes would be appropriate. These may include recommendations on additional executive or legislative actions to address the energy challenges and opportunities facing the Nation.

July 21, 2014 Public Meeting: Natural Gas Transmission, Storage & Distribution

On July 21, 2014, the DOE will hold a public meeting in Pittsburgh, Pennsylvania. The July 21, 2014, public meeting will feature facilitated panel discussions, followed by an open microphone session. Persons desiring to speak during the open microphone session at the public meeting should come prepared to speak for no more than 5 minutes and will be accommodated on a first-come, first-serve basis, according to the order in which they register to speak on a sign-in sheet available at the meeting location, on the morning of the meeting.

In advance of the meeting, DOE anticipates making publicly available a briefing memorandum providing useful background information regarding the topics under discussion at the meeting. DOE will post this memorandum on its Web site: <http://energy.gov>.

Submitting comments via email. Submitting comments by email to the QER email address will require you to provide your name and contact information in the transmittal email. Your contact information will be viewable to DOE staff only. Your contact information will not be publicly viewable except for your first and last names, organization name (if any), and submitter representative name (if any).
