II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, CME included statements concerning the purpose and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. CME has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

CME is registered as a derivatives clearing organization with the Commodity Futures Trading Commission ("CFTC") and operates a substantial business clearing futures and swaps contracts subject to the jurisdiction of the CFTC. CME is proposing to make a certain change to its collateral acceptance practices through the issuance of an advisory notice to its clearing members. More specifically, CME is expanding its existing collateral program to include

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ 15 U.S.C. 78s(b)(3)(A).

⁴ 17 CFR 240.19b-4(f)(4)(ii).

additional Exchange Traded Funds (“ETFs”) that may be used as performance bond collateral for CME’s Base Guaranty Fund products. The proposed change would not impact CME’s collateral acceptance practices relating to products in its CDS Guaranty Fund. CME also notes that although the proposed change would expand the eligible performance bond collateral for products in the Base Guaranty Fund, the proposed change would have no impact on the level of margin collected but rather would simply impact the makeup

of the collateral used by a clearing member to meet its margin requirements.

Currently, CME accepts a select number of ETFs as collateral in connection with the products associated with certain non-CDS guaranty funds. ETFs accepted by CME as collateral are chosen through historical analysis of the ETF market and stock market. ETFs accepted as collateral conform to CME’s credit risk criteria and are monitored by CME daily for price changes and are subject to periodic eligibility review. The existing haircut of 30% for

currently accepted ETFs would be applied to the newly-added ETFs under the proposed change. Both ETFs and stocks are part of CME’s “Category 3” assets. Therefore, ETFs and stocks in combination with other category 3 assets would be capped at the lesser of 40% of core requirement per currency or \$5 billion per clearing member firm. ETFs and stocks combined are capped at \$1 billion per clearing member firm. An updated table showing CME Base Guaranty Fund performance bond limits is included below.

UPDATED PERFORMANCE BOND ACCEPTABLE COLLATERAL CATEGORIES AND LIMITS

Category 1	Category 2 *	Category 3 **
Category 2 & 3 Capped at \$7bn Per Firm		
Cash: U.S. Treasuries IEF5 (Interest Bearing Cash) Letters of Credit* <i>*Capped at 40% of core requirement per currency requirement per firm</i>	U.S. Government Agencies Strips TIPS (capped at \$1bn per firm) Select MBS <i>* Capped at 40% of core requirement per currency requirement per firm</i>	IEF2† (Money Market Mutual Funds) Gold (capped at \$500mm per firm) ETFs and Stocks (capped at \$1bn per firm) IEF4 (corporate bonds) Foreign Sovereign Debt (capped at \$1bn per firm) <i>**Capped at 40% of core requirement per currency requirement per firm or \$5 billion per firm, the lesser of the two</i> <i>† Not included in the 40% requirement</i>

The advisory also clarifies that, in accordance with CME Rule 930.C, a CME clearing member cannot accept an accountholder security that has been “issued, sponsored or otherwise guaranteed by the accountholder.” In addition, the advisory would clarify that any ETF that is sponsored by the clearing member or its parent or affiliate company may not be pledged for the clearing member’s house performance bond requirement.

The proposed change in this filing is limited to products associated with CME’s Base Guaranty Fund and therefore does not impact products associated with CME’s CDS guaranty fund. CME accepts a narrower range of collateral for CDS clearing and does not currently accept letters of credit, stocks or corporate bonds as acceptable collateral for CDS; the proposed rule change in this filing would not impact these current practices. The proposed rule change would become effective immediately.

CME believes the proposed rule change is consistent with the requirements of the Exchange Act including Section 17A of the Exchange Act.⁵ The proposed change would amend CME’s collateral acceptance practices to permit the use of additional

ETFs that may be used as performance bond collateral for CME’s Base Guaranty Fund products. Although the proposed change would expand the eligible performance bond collateral for Base Guaranty Fund products, the proposed change would have no impact on the level of margin collected but rather would simply impact the makeup of the collateral used by a clearing member to meet its margin requirements. Expanded collateral choices for market participants will promote the prompt and accurate clearance and settlement of securities transactions and, to the extent applicable, derivatives agreements, contracts, and transactions, to assure the safeguarding of securities and funds which are in the custody or control of the clearing agency or for which it is responsible, and, in general, to protect investors and the public interest consistent with Section 17A(b)(3)(F) of the Exchange Act.⁶

Furthermore, the proposed change is limited to products associated with CME’s Base Guaranty Fund, which means the proposed change is limited in its effect to products that are under the exclusive jurisdiction of the CFTC. As such, the proposed change is limited to CME’s activities as a DCO clearing swaps that are not security-based swaps.

CME notes that the policies of the CFTC with respect to administering the Commodity Exchange Act are comparable to a number of the policies underlying the Exchange Act, such as promoting market transparency for over-the-counter derivatives markets, promoting the prompt and accurate clearance of transactions and protecting investors and the public interest.

Because the proposed change is limited in its effect to products associated with CME’s Base Guaranty Fund and therefore offered under CME’s authority to act as a DCO, the proposed change is properly classified as effecting a change in an existing service of CME that:

(a) Primarily affects the clearing operations of CME with respect to products that are not securities, including futures that are not security futures, swaps that are not security-based swaps or mixed swaps; and forwards that are not security forwards; and

(b) does not significantly affect any securities clearing operations of CME or any rights or obligations of CME with respect to securities clearing or persons using such securities-clearing service.

As such, the change is therefore consistent with the requirements of

⁵ 15 U.S.C. 78q-1.

⁶ 15 U.S.C. 78q-1(b)(3)(F).

Section 17A of the Exchange Act⁷ and are properly filed under Section 19(b)(3)(A)⁸ and Rule 19b-4(f)(4)(ii)⁹ thereunder.

B. Self-Regulatory Organization's Statement on Burden on Competition

CME does not believe that the proposed rule change will have any impact, or impose any burden, on competition. The proposed change would simply expand the eligible performance bond collateral for CME's Base Guaranty Fund. These expanded collateral choices will benefit market participants by offering greater flexibility.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

CME has not solicited, and does not intend to solicit, comments regarding this proposed rule change. CME has not received any unsolicited written comments from interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective upon filing pursuant to Section 19(b)(3)(A)¹⁰ of the Act and Rule 19b-4(f)(4)(ii)¹¹ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
