SUPPLEMENTARY INFORMATION:

Title: Importation of Used Farm Equipment From Regions Affected With Foot-and-Mouth Disease.

OMB Control Number: 0579–0195.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) is authorized, among other things, to prohibit or restrict the importation of animals, animal products, and other articles into the United States to prevent the introduction of animal diseases and pests. The regulations for the importation of animals, animal products, and other articles into the United States are contained in 9 CFR parts 92 through 98.

In part 94, § 94.1(c) prohibits the importation of used farm equipment into the United States from regions where APHIS considers foot-and-mouth disease (FMD) or rinderpest to exist unless the equipment has been steam-cleaned prior to export to the United States so that it is free of exposed dirt and other particulate matter. Such equipment must be accompanied by an original certificate, signed by an authorized official of the national animal health service of the exporting region, stating that the farm equipment after its last use and prior to export, was steam-cleaned free of all exposed dirt and other particulate matter.

Since the last approval of this activity by the Office of Management and Budget (OMB), APHIS has declared additional regions as free of FMD, which means that these regions are no

longer subject to the requirements in § 94.1(c). As a result, there is a decrease in the estimated annual number of respondents from 150 to 91, and a decrease in the estimated annual number of responses from 1,000 to 910. In addition, the estimated total annual burden on respondents has decreased from 200 hours to 182 hours.

We are asking OMB to approve our use of this information collection activity for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.20 hours per response.

Respondents: Exporters of used farm equipment and foreign animal health officials in FMD-affected regions.

Estimated annual number of respondents: 91.

Estimated annual number of responses per respondent: 10.

Estimated annual number of responses: 910.

Estimated total annual burden on respondents: 182 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 26th day of June 2014.

Michael C. Gregoire,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Small Business Timber Sale Set-Aside Program; Appeal Procedures on Recomputation of Shares.

OMB Number: 0596-0141.

Expiration Date of Approval: 12/31/2014.

Type of Request: Extension without change of a currently approved information collection.

Abstract: The Forest Service adopted the Small Business Timber Sale Set-Aside Program on July 26, 1990 (55 FR 30485). The Agency administers the program in cooperation with the Small Business Administration (SBA) under the authorities of the Small Business Act (15 U.S.C. 631), the National Forest Management Act of 1976, and SBA regulations in 13 CFR part 121. The program is designed to ensure that small business timber purchasers have the opportunity to purchase a fair proportion of National Forest System timber offered for sale.

Under the program, the Forest Service must recompute the shares of timber sales to be set aside for qualifying small businesses every 5 years based on the actual volume of sawtimber that has been purchased by small businesses. Additionally, shares must be recomputed if there is a change in manufacturing capability, if the purchaser size class changes, or if certain purchasers discontinue operations.

In 1992, the Agency adopted new administrative appeal procedures (36 CFR part 215), which excluded the Small Business Timber Sale Set-Aside Program. Prior to adoption of 36 CFR part 215, the Agency had accepted appeals of recomputation decisions under 36 CFR part 217; and therefore decided to establish procedures for providing notice to affected purchasers offering an opportunity to comment on the recomputation of shares (61 FR

7468). The Conference Report accompanying the 1997 Omnibus Appropriation Act (Pub. L. 104-208) directed the Forest Service to reinstate an appeals process for decisions concerning recomputation of Small Business Set-Aside shares, structural recomputations of SBA shares, or changes in policies impacting the Small Business Timber Sale Set-Aside Program prior to December 31, 1996. The Small Business Timber Sale Set-Aside Program; Appeal Procedures on Recomputation of Shares (36 CFR 223:118; 64 FR 411, January 5, 1999) outlines the types of decisions that are subject to appeal, who may appeal decisions, the procedures for appeal decisions, the timelines for appeal, and the contents of the notice of appeal.

The Forest Service provides qualifying timber sale purchasers 30-days for predecisional review and comment on draft decisions to reallocate shares, including the data used in making the proposed recomputation decision. Within 15 days after the close of the 30-day predecisional review period, an Agency official makes a decision on the shares to be set aside for small businesses and gives written notice of the decision to all parties on the national forest timber sale bidders list for the affected area. The written notice provides the date by which the appeal may be filed and how to obtain information on appeal procedures.

Only those timber sale purchasers, or their representatives, affected by small business share timber sale set-aside recomputation decisions and who have submitted predecisional comments may appeal recomputation decisions. The appellant must file a notice of appeal with the appropriate Forest Service official within 20 days of the date of the notice of decision. The notice of appeal must include:

1. The appellant's name, mailing address, and day time telephone number;
2. The title and date of the decision;
3. The name of the responsible Forest Service official;
4. A brief description and date of the decision being appealed;
5. A statement of how the appellant is adversely affected by the decision being appealed;
6. A statement of facts in dispute regarding the issue(s) raised by the appeal;
7. Specific references to law, regulation, or policy that the appellant believes have been violated (if any) and the basis for such an allegation;
8. A statement as to whether and how the appellant has tried to resolve the appeal issues with the appropriate
