Silicon Metal From the Russian Federation: Continuation of Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* July 2, 2014.

SUMMARY: As a result of the determinations by the Department of Commerce (the Department) and the International Trade Commission (ITC) that revocation of the antidumping duty order on silicon metal from the Russian Federation (Russia), would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, the Department is publishing a notice of continuation for this antidumping duty order.

FOR FURTHER INFORMATION CONTACT: Contact Information: Elfi Blum or Jacqueline Arrowsmith, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone (202) 482-0197 or (202) 482-5255, respectively.

SUPPLEMENTARY INFORMATION:

Background

The Department initiated and the ITC instituted sunset reviews of the antidumping duty order on silicon metal from Russia, pursuant to section 751(c) of the Tariff Act of 1930, as

amended (the Act).¹ As a result of its review, the Department found that revocation of the antidumping duty order would likely lead to a continuation or recurrence of dumping and therefore notified the ITC of the magnitude of the margins likely to prevail were the order to be revoked.²

On June 17, 2014, the ITC published its determination pursuant to section 751(c) of the Act, that revocation of the antidumping duty order on silicon metal from Russia would likely lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.³

Scope of the Order

The product covered by this order is silicon metal, which generally contains at least 96.00 percent but less than 99.99 percent silicon by weight. The merchandise covered by this order also includes silicon metal from Russia containing between 89.00 and 96.00 percent silicon by weight, but containing more aluminum than the silicon metal which contains at least 96.00 percent but less than 99.99 percent silicon by weight. Silicon metal currently is classifiable under subheadings 2804.69.10 and 2804.69.50 of the Harmonized Tariff Schedule of the United States (HTSUS). This order covers all silicon metal meeting the above specification, regardless of tariff classification.

Continuation of the Order

As a result of the determinations by the Department and the ITC that revocation of this antidumping duty order would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the antidumping duty order on silicon metal from Russia. U.S. Customs and Border Protection will continue to collect antidumping duty cash deposits at the rates in effect at the time of entry for all imports of subject merchandise.

The effective date of the continuation of this order will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act, the Department intends to initiate the next

five-year review of this order not later than 30 days prior to the fifth anniversary of the effective date of continuation.

This five-year (sunset) review and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act and 19 CFR 351.218(f)(4).

Dated: June 24, 2014.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.
