Notice of Expert Public Workshop on Alternatives and Risk Reduction Approaches to Trichloroethylene (TCE)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is holding a public workshop to gather information from experts on the use of trichloroethylene (TCE) as a degreaser, availability and efficacy of safer alternatives, and possible risk reduction approaches. This workshop will examine TCE use as a degreaser in various applications, including cold cleaning, vapor degreasing, or as an aerosol. In June, EPA completed its final risk assessment that identified health risks to people, including workers, when TCE is used as a degreaser. This effort is part of EPA's commitment to improve the safety of existing chemicals under the Toxic Substances Control Act (TSCA).

Information from the workshop will be helpful as EPA works with stakeholders on potential risk reduction approaches.

DATES: The workshop will be held on July 29, 2014, from 9 a.m. to 5 p.m., and on July 30, 2014, from 9 a.m. to noon.

Written comments, identified by docket identification (ID) number EPA-HQ-OPPT-2014-0327, must be received on or before July 22, 2014.

Requests to participate in the workshop must be received on or before July 22, 2014. All interested in participating are invited to pre-register at the following Web site: <http://www.epa.gov/oppt/existingchemicals/pubs/workplans.html> by July 22, 2014. Pre-registering will allow EPA to improve workshop planning.

To request accommodation of a disability, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**, preferably at least 10 days prior to the meeting, to give EPA as much time as possible to process your request.

Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

II. Background

TCE was identified for risk assessment as part of EPA's Existing Chemicals Management Program. EPA reviewed readily available information on TCE including uses, physical and chemistry properties, fate, exposure potential, and associated hazards to humans and the environment. TCE was selected based on concerns for its human health hazard (e.g., human carcinogen), and its exposure profile (i.e., widely used in consumer products and detected in drinking water, indoor environments, surface water, ambient air, groundwater, and soil) using OPPT's TSCA Work Plan screening methodology. The purpose of the workshop is to collect more information on how TCE is used as a degreaser,

understand the process and efficacy considerations important to selecting safer alternatives, solicit feedback on potential alternatives to TCE, and discuss safer engineering practices and technologies that can reduce exposure to TCE. Information from the workshop will be helpful as EPA works with stakeholders on potential risk reduction approaches.

The goals of the workshop are to generate information from experts on TCE when used as a degreaser and better understand the factors when transitioning to safer alternatives. The other uses of TCE as described in the Agency's final risk assessment will be addressed separately. The workshop will include various presentations, keynote lectures, breakout sessions with case studies, and public comment opportunities. To start the workshop, EPA will present its findings from its final risk assessment available online at <http://www.epa.gov/oppt/existingchemicals/pubs/workplans.html>. Workshop experts will discuss how TCE is used as a degreaser, the process and efficacy considerations important to safer alternative selection, present case studies that examine potential alternatives to TCE, and discuss safer engineering practices, new products, and technologies that can reduce exposure to TCE. Many sessions will include charge and outcome questions to guide the discussion. This workshop will include periods for public comment. EPA's goal is to bring the experts together and understand the challenges and opportunities when making changes to decrease exposure to TCE.

III. How can I request to participate in this meeting?

You may submit a request to participate in this meeting to the technical person listed under **FOR FURTHER INFORMATION CONTACT**. Do not submit any information in your request that is considered CBI.

Requests to participate in the meeting, identified by docket ID number EPA-HQ-OPPT-2014-0327, must be received on or before July 22, 2014.
