

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies, such as electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.906 hours per response.

Respondents: Equine owners, equine farm managers, and equine trainers.

Estimated annual number of respondents: 18,446.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 18,446.

Estimated total annual burden on respondents: 16,712 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 30th day of June 2014.

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

Performance Review Board Membership

AGENCY: Architectural and Transportation Barriers Compliance Board.

ACTION: Notice.

SUMMARY: Notice is given of the appointment of members to a performance review board for the Architectural and Transportation Barriers Compliance Board (Access Board).

FOR FURTHER INFORMATION CONTACT:

David M. Capozzi, Executive Director, Access Board, 1331 F Street NW., Suite 1000, Washington, DC 20004-1111. Telephone (202) 272-0010.

SUPPLEMENTARY INFORMATION: Section 4314 (c) of Title 5, U.S.C., requires each agency to establish, in accordance with regulations, one or more Senior Executive Service (SES) performance review boards. The function of the boards is to review and evaluate the initial appraisal of senior executives' performance and make recommendations to the appointing authority relative to the performance of these executives. Because of its small size, the Access Board has appointed SES career members from other federal agencies to serve on its performance review board. The members of the performance review board for the Access Board are:

- Craig Luigart, Chief Information Officer, Veterans Health Administration, Department of Veterans Affairs;
- Georgia Coffey, Deputy Assistant Secretary for Diversity and Inclusion, Department of Veterans Affairs;
- Rebecca Bond, Chief, Disability Rights Section, Department of Justice.

David M. Capozzi,

Executive Director.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Reporting of Sea Turtle Entanglement in Fishing Gear and Marine Debris.

OMB Control Number: 0648-0496.

Form Number(s): NA.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 112.

Average Hours per Response: Initial telephone calls and written reports, 1 hour each; follow-up interviews, 30 minutes.

Burden Hours: 163.

Needs and Uses: This request is for extension of a currently approved information collection.

Sea turtles can become accidentally entangled in active or discarded fishing gear, marine debris, or other lines in the marine environment. These entanglements may prevent the recovery of endangered and threatened sea turtle populations. NOAA's Marine Fisheries Service (NMFS) established the Sea Turtle Disentanglement Network in response to the threat of entanglement, in particular in the vertical line of fixed gear fisheries. The Network's goals are to increase reporting and to reduce sea turtle serious injury and mortality associated with these events. As there is limited to no observer coverage of pot gear fisheries, NMFS relies on the Network, the United States Coast Guard (USCG), the fishing industry, Federal, state, and local authorities, and the public for this information, which helps NMFS understand the threats to sea turtle populations in the Northeast Region (Maine to Virginia).

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or faxed to (202) 395-5806.

Dated: June 30, 2014.

Polyvinyl Alcohol From Japan, the Republic of Korea, and the People's Republic of China: Final Results of the Expedited Sunset Reviews of the Antidumping Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On June 5, 2008, the Department of Commerce (the Department) initiated sunset reviews of the antidumping duty orders on polyvinyl alcohol (PVA) from Japan, the Republic of Korea (Korea), and the People's Republic of China (PRC)

pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). The Department has conducted expedited (120-day) sunset reviews for these orders pursuant to 19 CFR 351.218(e)(1)(ii)(C)(2). As a result of these sunset reviews, the Department finds that revocation of the antidumping duty orders would be likely to lead to continuation or recurrence of dumping as indicated in the "Final Results of Review" section of this notice.¹

DATES: *Effective Date:* July 7, 2014.

FOR FURTHER INFORMATION CONTACT: Alice Maldonado at (202) 482-4682, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On March 3, 2014, the Department published the notice of initiation of the sunset reviews of the antidumping duty orders on PVA from Japan, Korea, and the PRC pursuant to section 751(c) of the Act.²

The Department received notices of intent to participate from E.I. du Pont de Nemours and Company and Sekisui Specialty Chemical America, LLC (collectively, "the domestic interested parties") within the deadline specified in 19 CFR 351.218(d)(1)(i). The companies claimed interested party status under section 771(9)(C) of the Act as manufacturers of a domestic like product in the United States.

The Department received complete substantive responses to the notice of initiation from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). We received no substantive responses from respondent interested parties with respect to any of the orders covered by these sunset reviews, nor was a hearing requested. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), the Department conducted expedited (120-day) sunset reviews of the antidumping duty orders for Japan, Korea, and the PRC.

Scope of the Orders

The merchandise covered by these orders is PVA. This product consists of all PVA hydrolyzed in excess of 80 percent, whether or not mixed or diluted with commercial levels of

defoamer or boric acid, except as noted below.

The following products are specifically excluded from the scope of these orders:

- (1) PVA in fiber form.
- (2) PVA with hydrolysis less than 83 mole percent and certified not for use in the production of textiles.
- (3) PVA with hydrolysis greater than 85 percent and viscosity greater than or equal to 90 cps.
- (4) PVA with a hydrolysis greater than 85 percent, viscosity greater than or equal to 80 cps but less than 90 cps, certified for use in an ink jet application.

(5) PVA for use in the manufacture of an excipient or as an excipient in the manufacture of film coating systems which are components of a drug or dietary supplement, and accompanied by an end-use certification.

(6) PVA covalently bonded with cationic monomer uniformly present on all polymer chains in a concentration equal to or greater than one mole percent.

(7) PVA covalently bonded with carboxylic acid uniformly present on all polymer chains in a concentration equal to or greater than two mole percent, certified for use in a paper application.

(8) PVA covalently bonded with thiol uniformly present on all polymer chains, certified for use in emulsion polymerization of non-vinyl acetic material.

(9) PVA covalently bonded with paraffin uniformly present on all polymer chains in a concentration equal to or greater than one mole percent.

(10) PVA covalently bonded with silan uniformly present on all polymer chains certified for use in paper coating applications.

(11) PVA covalently bonded with sulfonic acid uniformly present on all polymer chains in a concentration level equal to or greater than one mole percent.

(12) PVA covalently bonded with acetoacetylate uniformly present on all polymer chains in a concentration level equal to or greater than one mole percent.

(13) PVA covalently bonded with polyethylene oxide uniformly present on all polymer chains in a concentration level equal to or greater than one mole percent.

(14) PVA covalently bonded with quaternary amine uniformly present on all polymer chains in a concentration

level equal to or greater than one mole percent.

(15) PVA covalently bonded with diacetoneacrylamide uniformly present on all polymer chains in a concentration level greater than three mole percent, certified for use in a paper application.

The merchandise subject to these orders is currently classifiable under subheading 3905.30.00 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of these orders is dispositive.

Analysis of Comments Received

All issues raised in these reviews are addressed in the "Decision Memorandum for the Expedited Sunset Reviews of the Antidumping Duty Orders on Polyvinyl Alcohol from Japan, the Republic of Korea, and the People's Republic of China" from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Ronald Lorentzen, Acting Assistant Secretary for Enforcement and Compliance (June 30, 2014) (Decision Memo), which is hereby adopted by this notice. The issues discussed in the Decision Memo include the likelihood of continuation or recurrence of dumping and the magnitude of the margins of dumping likely to prevail if the orders were revoked. The Decision Memo is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). IA ACCESS is available to registered users at <http://iaaccess.trade.gov>, and it is available to all parties in the Central Records Unit, room 7046 of the main Department of Commerce building. In addition, a complete version of the Decision Memo can be accessed directly at <http://enforcement.trade.gov/frn/index.html>. The signed and electronic versions of the Decision Memo are identical in content.

Final Results of Reviews

The Department determines that revocation of the antidumping duty orders on PVA from Japan, Korea, and the PRC would be likely to lead to continuation or recurrence of dumping, and that the margins of dumping likely to prevail are the following rates:
