*Title:* Methodology for Determining Whether an Increase in a State's Child Poverty Rate is the Result of the TANF Program  
*OMB No.:* 0970-0186

**Description**

In accordance with Section 413(i) of the Social Security Act and 45 CFR part 284, the Department of Health and

Human Services (HHS) intends to extend without change the following information collection requirements. For instances when Census Bureau data show that a States child poverty rate increased by 5 percent or more from one year to the next, a State may submit independent estimates of its child poverty rate. If HHS determines that the States independent estimates are not more reliable than the Census Bureau estimates, HHS will require the State to submit an assessment of the impact of the TANF program(s) in the State on the child poverty rate. If HHS determines from the assessment and other information that the child poverty rate in the State increased as a result of the TANF program(s) in the State, HHS will then require the State to submit a corrective action plan.

**Respondents**

The respondents are the 50 States and the District of Columbia. When reliable Census Bureau data become available for the Territories, additional respondents might include Guam, Puerto Rico, and the Virgin Islands.

**ANNUAL BURDEN ESTIMATES**

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
Optional Submission of Data on Child Poverty from an Independent Source	51	1	8	408
Assessment of the Impact of TANF on the Increase in Child Poverty .....	51	1	120	6,120
Corrective Action Plan .....	51	1	160	8,160

Estimated Total Annual Burden Hours: 14,688.
