DEPARTMENT OF EDUCATION

[Docket ID ED-2014-OSERS-0058]

Extension of Public Comment Period; Request for Information on Addressing Significant Disproportionality Under Section 618(d) of the Individuals With Disabilities Education Act

AGENCY: Office of Special Education and Rehabilitative Services, Department of Education.

ACTION: Notice extending public comment period.

SUMMARY: On June 19, 2014, we published in the **Federal Register** (79 FR 35154) a request for information (RFI) seeking comment on actions that the Department should take to address significant disproportionality based on race and ethnicity in the identification, placement, and discipline of children with disabilities. The RFI established a July 21, 2014, deadline for the submission of written comments. We are extending the comment period to July 28, 2014.

DATES: Comments must be received on or before July 28, 2014.

ADDRESSES: Submit your comments through the Federal eRulemaking Portal or via postal mail, commercial delivery, or hand delivery. We will not accept comments by fax or by email. Please submit your comments only one time, in order to ensure that we do not receive duplicate copies. In addition, please include the Docket ID at the top of your comments.

- *Federal eRulemaking Portal:* Go to www.regulations.gov to submit your comments electronically. Information on using Regulations.gov, including instructions for accessing agency documents, submitting comments, and viewing the docket is available on the site under "Are you new to the site?"

- *U.S. Mail, Commercial Delivery, or Hand Delivery:*

If you mail or deliver your comments about these proposed regulations, address them to the contact person listed under **FOR FURTHER INFORMATION CONTACT**.

- *Privacy Note:* The Department's policy is to make all comments received from members of the public available for public viewing in their entirety on the Federal eRulemaking Portal at www.regulations.gov. Therefore, commenters should be careful to include in their comments only

information that they wish to make publicly available.

FOR FURTHER INFORMATION CONTACT:

Larry Ringer, U.S. Department of Education, 400 Maryland Avenue SW., room 4032, Potomac Center Plaza, Washington, DC 20202-2600. Telephone: (202) 245-7496.

If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), call the Federal Relay Service (FRS), toll free, at 1-800-877-8339.

SUPPLEMENTARY INFORMATION:

Background:

On June 19, 2014, we published in the **Federal Register** an RFI seeking comment on actions that the Department should take to address significant disproportionality based on race and ethnicity in the identification, placement, and discipline of children with disabilities. The RFI established July 21, 2014, as the deadline for receiving comments. However, from June 19-25, 2014, the RFI was not consistently available on www.regulations.gov, the Government-wide portal that allows the public to comment electronically on documents in the **Federal Register**. To ensure that anyone unable to comment during that period has the opportunity to do so, we are extending the deadline for comments to July 28, 2014.

Accessible Format: Individuals with disabilities can obtain this document in an accessible format (e.g., braille, large print, audiotope, or compact disc) on request to the contact person listed under **FOR FURTHER INFORMATION CONTACT**.

Electronic Access to This Document: The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available via the Federal Digital System at: www.gpo.gov/fdsys. At this site you can view this document, as well as all other documents of this Department published in the **Federal Register**, in text or Adobe Portable Document Format (PDF). To use PDF, you must have Adobe Acrobat Reader, which is available free at this site.

You may also access documents of the Department published in the **Federal Register** by using the article search feature at: www.federalregister.gov. Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

Dated: July 8, 2014.

Michael K. Yudin,

Acting Assistant Secretary for Special Education and Rehabilitative Services.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Quadrennial Energy Review: Notice of Public Meeting

AGENCY: Office of Energy Policy and Systems Analysis, Secretariat, Quadrennial Energy Review Task Force, Department of Energy.

ACTION: Notice of public meeting.

SUMMARY: At the direction of the President, the U.S. Department of Energy (DOE or Department), as the Secretariat for the Quadrennial Energy Review Task Force (QER Task Force) will convene a public meeting to discuss and receive comments on issues related to the Quadrennial Energy Review.

DATES: The sixth public meeting will be held on July 28, 2014, beginning at 9:00 a.m. Mountain Time. Written comments are welcome, especially following the public meeting, and should be submitted within 60 days of the meeting.

ADDRESSES: The sixth meeting will be held at: University of Colorado-Denver, Auraria Campus, St. Cajetan's Center, 1190 9th Street, Denver, Colorado 80204.

You may submit written comments to: QERComments@hq.doe.gov or by U.S. mail to the Office of Energy Policy and Systems Analysis, EPSA-60, QER Meeting Comments, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0121.

For the sixth public meeting, please title your comment "Quadrennial Energy Review: Comment on the Public Meeting Gas-Electricity Interdependence."

FOR FURTHER INFORMATION CONTACT: Ms. Adonica Renee Pickett, EPSA-90, U.S. Department of Energy, Office of Energy Policy and Systems Analysis, 1000 Independence Avenue SW., Washington, DC 20585-0121. Telephone: (202) 586-9168. Email: Adonica.Pickett@hq.doe.gov.

SUPPLEMENTARY INFORMATION: On January 9, 2014, President Obama issued a *Presidential Memorandum—Establishing a Quadrennial Energy Review*. To accomplish this review, the Presidential Memorandum establishes a Quadrennial Energy Review Task Force to be co-chaired by the Director of the

Office of Science and Technology Policy, and the Director of the Domestic Policy Council. Under the Presidential Memorandum, the Secretary of Energy shall provide support to the Task Force, including support for coordination activities related to the preparation of the Quadrennial Energy Review Report, policy analysis and modeling, and stakeholder engagement.

The DOE, as the Secretariat for the Quadrennial Energy Review Task Force, will hold a series of public meetings to discuss and receive comments on issues related to the Quadrennial Energy Review.

The initial focus for the Quadrennial Energy Review will be our Nation's infrastructure for transporting, transmitting, storing and delivering energy. Our current infrastructure is increasingly challenged by transformations in energy supply, markets, and patterns of end use; issues of aging and capacity; impacts of climate change; and cyber and physical threats. Any vulnerability in this infrastructure may be exacerbated by the increasing interdependencies of energy systems with water, telecommunications, transportation, and emergency response systems. The first Quadrennial Energy Review Report will serve as a roadmap to help address these challenges.

The Department of Energy has a broad role in energy policy development and the largest role in implementing the Federal Government's energy research and development portfolio. Many other executive departments and agencies also play key roles in developing and implementing policies governing energy resources and consumption, as well as associated environmental impacts. In addition, non-Federal actors are crucial contributors to energy policies. Because most energy and related infrastructure is owned by private entities, investment by and engagement of the private sector is necessary to develop and implement effective policies. State and local policies; the views of nongovernmental, environmental, faith-based, labor, and other social organizations; and contributions from the academic and non-profit sectors are also critical to the development and implementation of effective energy policies.

An interagency Quadrennial Energy Review Task Force, which includes members from all relevant executive departments and agencies (agencies), will develop an integrated review of energy policy that integrates all of these perspectives. It will build on the foundation provided in the Administration's *Blueprint for a Secure Energy Future* of March 30, 2011, and

Climate Action Plan released on June 25, 2013. The Task Force will offer recommendations on what additional actions it believes would be appropriate. These may include recommendations on additional executive or legislative actions to address the energy challenges and opportunities facing the Nation.

July 28, 2014 Public Meeting: Gas-Electricity Interdependence

On July 28, 2014, the DOE will hold a public meeting in Denver, Colorado. The July 28, 2014 public meeting will feature facilitated panel discussions, followed by an open microphone session. Persons desiring to speak during the open microphone session at the public meeting should come prepared to speak for no more than 5 minutes and will be accommodated on a first-come, first-served basis, according to the order in which they register to speak on a sign-in sheet available at the meeting location, on the morning of the meeting.

In advance of the meeting, DOE anticipates making publicly available a briefing memorandum providing useful background information regarding the topics under discussion at the meeting. DOE will post this memorandum on its Web site: <http://energy.gov>.

Submitting comments via email. Submitting comments by email to the QER email address will require you to provide your name and contact information in the transmittal email. Your contact information will be viewable to DOE staff only. Your contact information will not be publicly viewable except for your first and last names, organization name (if any), and submitter representative name (if any). Your contact information will be publicly viewable if you include it in the comment itself or in any documents attached to your comment. Any information that you do not want to be publicly viewable should not be included in your comment, nor in any document attached to your comment. Otherwise, persons viewing comments will see only first and last names, organization names, correspondence containing comments, and any documents submitted with the comments.

Do not submit to the QER email address (QERcomments@hq.doe.gov) information for which disclosure is restricted by statute, such as trade secrets and commercial or financial information (hereinafter referred to as Confidential Business Information (CBI)). Comments submitted to the QER email address cannot be claimed as CBI. Comments received through the email address will waive any CBI claims for

the information submitted. For information on submitting CBI, see the Confidential Business Information section, below.

If you do not want your personal contact information to be publicly viewable, do not include it in your comment or any accompanying documents. Instead, provide your contact information in a cover letter. Include your first and last names, email address, telephone number, and optional mailing address. The cover letter will not be publicly viewable as long as it does not include any comments.

Include contact information each time you submit comments, data, documents, and other information to DOE. If you submit via mail or hand delivery/courier, please provide all items on a CD, if feasible, in which case it is not necessary to submit printed copies. No telefacsimiles (faxes) will be accepted.

Comments, data, and other information submitted to DOE electronically should be provided in PDF (preferred), Microsoft Word or Excel, WordPerfect, or text (ASCII) file format. Provide documents that are not secured, written in English, and are free of any defects or viruses. Documents should not contain special characters or any form of encryption and, if possible, they should carry the electronic signature of the author.

Confidential Business Information. Pursuant to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit via email, postal mail, or hand delivery/courier two well-marked copies: One copy of the document marked "confidential" including all the information believed to be confidential, and one copy of the document marked "non-confidential" with the information believed to be confidential deleted. Submit these documents via email or on a CD, if feasible. DOE will make its own determination about the confidential status of the information and treat it according to its determination. Confidential information should be submitted to the Confidential QER email address: QERConfidential@hq.doe.gov.

Factors of interest to DOE when evaluating requests to treat submitted information as confidential include: (1) A description of the items; (2) whether and why such items are customarily treated as confidential within the industry; (3) whether the information is generally known by or available from other sources; (4) whether the information has previously been made available to others without obligation concerning its confidentiality; (5) an

explanation of the competitive injury to the submitting person which would result from public disclosure; (6) when such information might lose its confidential character due to the passage of time; and (7) why disclosure of the information would be contrary to the public interest. It is DOE's policy that all comments may be included in the public docket, without change and as received, including any personal information provided in the comments (except information deemed to be exempt from public disclosure).

Issued in Washington, DC, on July 8, 2014.

Michele Torrusio,

QER Secretariat, QER Interagency Task Force, U.S. Department of Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Bonneville Power Administration

Hot Springs to Anaconda Transmission Line Rebuild Project

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE). **ACTION:** Notice of intent to prepare an Environmental Impact Statement (EIS) and notice of floodplain and wetland assessment.

SUMMARY: In accordance with the National Environmental Policy Act (NEPA), BPA intends to prepare an EIS on its proposed rebuild of existing approximately 120 miles of existing 230-kilovolt (kV) wood-pole transmission line that runs through Sanders, Lake, Missoula, Granite, Powell, and Deer Lodge counties, Montana. The deteriorated condition of the more than 60-year-old line compromises BPA's ability to maintain reliable electric service, and poses a safety risk to the public and maintenance crews.

With this notice, BPA is initiating the public scoping process for the EIS and is requesting comments about the potential environmental impacts it should consider as it prepares the EIS for the proposed project. In accordance with DOE regulations for compliance with floodplain and wetland environmental review requirements, BPA will prepare a floodplain and wetlands assessment that identifies, evaluates, and as appropriate, implements actions to avoid or minimize potential harm to or within any affected floodplains and wetlands. The assessment will be included in the EIS.

DATES: Written comments are due to the address below by August 12, 2014.

Comments may also be made at three EIS scoping meetings to be held on the 29th, 30th, and 31st of July, 2014 at the addresses below.

ADDRESSES: Comments and suggestions on the proposed scope of the Draft EIS for this project and requests to be placed on the project mailing list may be mailed by letter to Bonneville Power Administration, Public Affairs—DKC-7, P.O. Box 14428, Portland, OR 97292-4428. Or you may FAX them to 503-230-3285; submit them on-line at www.bpa.gov/comment; or email them to comment@bpa.gov. Scoping meetings will be held in Montana from 4:00 p.m. to 7:00 p.m. at the following locations: July 29, 2014 at the Missoula Fire Department, Station 4, 3011 Latimor Street, Missoula; on July 30, 2014 at the Dixon Senior Citizens Center, 106 3rd Street, Dixon; and on July 31, 2014 at the William K. Kohrs Memorial Library, 501 Missouri Avenue, Deer Lodge. At these informal, open-house meetings, BPA will provide project information and maps. Members of the project team will be available to answer questions and accept verbal and written comments.

FOR FURTHER INFORMATION CONTACT: Doug Corkran, Environmental Coordinator, Bonneville Power Administration—KEC-4, P.O. Box 3621, Portland, Oregon, 97208-3621; toll-free telephone number 1-800-622-4519; direct number 503-230-7646; fax number 503-230-5699; or email at dfcorkran@bpa.gov. You may also contact Chad Hamel, Project Manager, Bonneville Power Administration—TEP-TPP-1, P.O. Box 3621, Portland, Oregon, 97208-3621; toll-free telephone 1-800-622-4519; direct telephone 360-619-6557; or email cjhamel@bpa.gov. Additional information can be found at the project Web site: www.bpa.gov/goto/HotSpringsAnaconda.

SUPPLEMENTARY INFORMATION: BPA proposes to rebuild three existing wood-pole transmission lines—the Hot Springs-Rattlesnake, Rattlesnake-Garrison, and Garrison-Anaconda lines—that run consecutively from Hot Springs, Montana to Anaconda, Montana. No major work has been done on the lines since they were built in 1952. Many of the structures, the electric wire (conductor), and associated structural components (cross arms, insulators, and dampers) are physically worn and structurally unsound in places. The wood transmission poles have lasted beyond the expected 55 to 60 years and now need to be replaced due to age, rot, and deterioration. Rebuilding the deteriorated line would maintain reliable electrical service and

avoid risks to the safety of the public and maintenance crews.

The project would include removing and replacing existing wood-pole structures and components, as well as the conductor; improving access roads and establishing temporary access where needed; removing trees adjacent to the line that may cause a threat to reliability; developing temporary staging areas for storage of project materials; and revegetating areas disturbed by construction activities. The existing structures would be replaced with structures of similar design within or near to their existing locations. The line would continue to operate at 230 kV.

Proposed activities would also include the installation of new line disconnect switches at the Hot Springs and Garrison substations, and upgrading the existing fiber optic line that is attached to the Hot Springs-Rattlesnake and Rattlesnake-Garrison transmission line structures.

Alternatives Proposed for Consideration: In addition to the Proposed Action, BPA will evaluate the No Action Alternative as well as any additional viable alternatives brought forward during the scoping process. Under the No Action Alternative, BPA would not rebuild the line and would make repairs on an as-needed or emergency basis.

Public Participation and Identification of Environmental Issues: The potential environmental issues identified for most transmission line projects include land use, cultural resources, visual impacts, sensitive plants and animals, erosion/soils, wetlands, floodplains, and fish and water resources. The existing lines cross about 50 miles of the Flathead Indian Reservation, small portions of the Lolo and Beaverhead-Deer Lodge National Forests, several miles of State land, as well as private land.

BPA has established a 30-day scoping period during which affected landowners, concerned citizens, special interest groups, local governments, and any other interested parties are invited to comment on the scope of the proposed EIS. Scoping will help BPA ensure that a full range of issues related to this proposal is addressed in the EIS, and also help identify significant or potentially significant impacts that may result from the proposed project. When completed, the Draft EIS will be circulated for review and comment, and BPA will hold at least one public comment meeting for the Draft EIS. BPA will consider and respond in the Final EIS to comments received on the Draft EIS. BPA's subsequent decision will be documented in a Record of Decision.
