For the Nuclear Regulatory Commission.

Kristen Benney,
Acting NRC Clearance Officer, Office of Information Services.

For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. Revision 2 of RG 1.60 is available in ADAMS under Accession No. ML13210A432.

The NRC is issuing Revision 2 of RG 1.60 directly as a final regulatory guide because the changes between Revision 1 and Revision 2 are non-substantive. The main reason for this revision was to update the reference materials, along with adding the ADAMS accession numbers, for the key technical basis documents in the reference section to facilitate public access to those documents.

II. Backfitting and Issue Finality

Issuance of this final regulatory guide does not constitute backfitting as defined in 10 CFR 50.109 (the Backfit Rule) and is not otherwise inconsistent with the issue finality provisions in 10 CFR part 52. The changes in Revision 2 of RG 1.60 are limited to editorial changes to improve clarity, to update references, and to facilitate public access to key technical basis documents. These changes do not fall within the kinds of agency actions that constitute backfitting or are subject to limitations in the issue finality provisions of part 52. Accordingly, the NRC did not address the Backfit Rule or issue finality provisions of part 52.

III. Congressional Review Act

This action is not a rule as defined in the Congressional Review Act (5 U.S.C. 801–808).

IV. Submitting Suggestions for Improvement of Regulatory Guides

Revision 2 of RG 1.60 is being issued without public comment. However, you may at any time submit suggestions to the NRC for improvement of existing regulatory guides or for the development of new regulatory guides to address new issues. Suggestions can be submitted by the form available online at http://www.nrc.gov/reading-
