

proposes to clarify the FR Y–16 instructions to emphasize that companies should transition to the revised capital framework requirements in its company-run stress test projections in the quarter in which the requirements become effective. Specifically, companies would be required to transition to the revised capital framework and begin including the common equity tier 1 capital data item and common equity tier 1 risk based capital ratio data item in projected quarter two (1st quarter 2015) through projected quarter nine (4th quarter 2016) for each supervisory scenario for the 2015 stress test cycle.

The Federal Reserve also proposes several clarifications to the FR Y–16 report instructions, including: indicating that the Scenario Variables Schedule would be collected as a reporting form in the Reporting Central application (instead of as a file submitted in Adobe Acrobat PDF format); clarifying that covered SLHCs will begin reporting in March 2017; clarifying what BHCs and SLHCs should include in Balance Sheet Schedule line items 32 and 33 (retail and wholesale funding); and finally clarifying how the supporting qualitative information should be organized.

Secretary of the Board.
