

final 2020 census tabulation block inventory. For the first time, states will have the opportunity to review legal limits, such as incorporated places, American Indian areas and county boundaries, as reported through the Boundary and Annexation Survey (BAS). The alignment of the BAS with the BBSP will facilitate the cooperation between state and local government. A verification phase will occur in early 2017.

Phase 2: Voting District Project (VTDP)

The Census Bureau will formally announce through a subsequent **Federal Register** Notice the commencement of Phase 2, the Voting District Project. The VTDP will provide the state liaison, on behalf of the state, to submit the voting districts (a generic term used to represent areas that administer elections such as precincts, election districts, wards, etc.) to the Census Bureau for representation in the 2020 Census P.L. 94–171 products (data and geographic products). Beginning in late 2017, states that choose to participate in Phase 2, the Voting District Project will receive on a flow basis, geographic products that afford them the opportunity to update the Voting Districts (VTDs) for inclusion in the 2020 Census tabulation geography. State liaisons will continue to align their effort with updates from state and local government officials participating in the BAS. The VTD/BAS update and alignment will continue through spring of 2018. A verification phase will occur in early 2019 for states that participated in Phase 2.

Phase 3: Delivery of the Decennial Census 2020 Redistricting Data

By April 1, 2021, the Director of the Census Bureau will, in accordance with 13 U.S.C. 141(c), furnish the Governor and state legislative leaders, both the majority and minority, with 2020 Census population counts for standard census tabulation areas (e.g., state, Congressional district, state legislative district, American Indian area, county, city, town, census tract, census block group, and census block) regardless of a state's participation in Phase 1 or 2. The Director of the Census Bureau will provide 2020 population counts for those states participating in Phase 2, for both the standard tabulation areas and for voting districts. For each state, this delivery will occur prior to general release and no later than April 1, 2021.

Phase 4: Collection of Post-Census 2010 Redistricting Data Plans

Beginning in 2021, the Census Bureau will solicit from each state the newly drawn legislative and Congressional

district plans and prepares appropriate data sets based on the new districts. This effort will occur every two years in advance of the 2030 Census in order to update these boundaries with new or changed plans. A verification phase will occur with each update.

Phase 5: Review of the 2020 Census Redistricting Data Program and Recommendations for the 2030 Redistricting Data Program

As the final phase of the 2020 Census Redistricting Data Program, the Census Bureau will work with the states to conduct a thorough review of the program. The intent of this review, and the final report that results, is to provide guidance to the Secretary of Commerce and the Census Bureau Director in planning the 2030 Census Redistricting Data Program.

Please address questions concerning any aspect of the 2020 Census Redistricting Data Program to the person identified in the contact section of this notice.
