### Federal Energy Regulatory Commission

[Docket No. CP14-21-000]

### Florida Gas Transmission Company, LLC; Notice of Availability of the Environmental Assessment for the Proposed Pompano Compressor Station 21.5 Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared this environmental assessment (EA) for the Pompano Compressor Station 21.5 Project proposed by Florida Gas Transmission Company, LLC (FGT) in the above-referenced docket. FGT requests authorization to construct, own, and operate new natural gas facilities in Broward County, Florida to provide additional delivery quantities to Florida Power & Light Company's Port Everglades Next Generation Clean Energy Center.

The EA assesses the potential environmental effects of the construction and operation of the Pompano Compressor Station 21.5 Project in accordance with the requirements of the National Environmental Policy Act. FGT's proposed project would include a new 22,000 horsepower electric driven compressor station; 3,100 feet of 18- and 24-inch-diameter mainline pipeline; and appurtenant facilities in Broward County, Florida. The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The EA has been placed in the public files of the FERC and is available for viewing on the FERC's Web site at [www.ferc.gov](http://www.ferc.gov) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Copies of the EA were mailed to federal, state, and local government representatives and agencies; elected officials; public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; newspapers and libraries in the project area; and parties to this proceeding. Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to lessen or avoid environmental impacts. The more specific your comments, the more useful they will be. To ensure that your comments are properly recorded and considered prior to a Commission decision on the proposal, it is important that we receive your comments in Washington, DC on or before August 8, 2014.
