#### Center for Scientific Review; Notice of Closed Meetings

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. App.), notice is hereby given of the following meetings.

The meetings will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: Center for Scientific Review Special Emphasis Panel; Small Business: Cell, Computational and Molecular Biology.

Date: July 28, 2014.

Time: 2:00 p.m. to 4:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, 6701 Rockledge Drive, Bethesda, MD 20892 (Telephone Conference Call).

Contact Person: Allen Richon, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 6184, MSC 7892, Bethesda, MD 20892, 301-435-1024, [allen.richon@nih.hhs.gov](mailto:allen.richon@nih.hhs.gov).

Name of Committee: Center for Scientific Review Special Emphasis Panel; Member Conflict: AIDS and AIDS Related Research.

Date: August 6-7, 2014.

Time: 10:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institutes of Health, 6701 Rockledge Drive, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Kenneth A Roebuck, Ph.D., Scientific Review Officer, Center for Scientific Review, National Institutes of Health, 6701 Rockledge Drive, Room 5106, MSC 7852, Bethesda, MD 20892, (301) 435-1166, [roebuck@csr.nih.gov](mailto:roebuck@csr.nih.gov).

[FWS-R8-ES-2014-N066;  
FXES11130800000-145-FF08EVEN00]

#### Proposed Safe Harbor Agreement With the Bishop Paiute Tribe for Owens Pupfish, Inyo County, California

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice of availability; receipt of permit application.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), have received, from the Bishop Paiute Tribe (applicant), an application for an enhancement of survival permit for the federally endangered Owens pupfish, under the Endangered Species Act of 1973, as amended (Act). This permit application includes a proposed safe harbor agreement (agreement) between the applicant and the Service. The agreement and permit application are available for public comment.

**DATES:** To ensure we are able to consider your comments, please send them to us by August 18, 2014.

**ADDRESSES:** The documents are available on our Web site: <http://www.fws.gov/ventura>. A limited number of printed copies are available by request. You may request the documents or submit comments by any of the following methods.

- *Email:* [fw8SHABishopPaiuteTribe@fws.gov](mailto:fw8SHABishopPaiuteTribe@fws.gov). Include "Bishop Paiute Tribe SHA" in the subject line of the message.
- *U.S. Mail:* Field Supervisor; U.S. Fish and Wildlife Service; Ventura Fish and Wildlife Office; 2493 Portola Road, Suite B; Ventura, CA 93003.
- *Fax:* Attn: Field Supervisor, (805) 644-3958.

**FOR FURTHER INFORMATION CONTACT:** Eric Morrissette, Safe Harbor Coordinator, Ventura Fish and Wildlife Office at the address above or by telephone at (805) 644-1766.

**SUPPLEMENTARY INFORMATION:** We have received an application for an enhancement of survival permit for the federally endangered Owens pupfish (*Cyprinodon radiosus*) under the Act. This permit application includes a proposed safe harbor agreement (agreement) between the applicant and

the Service. The agreement and permit application are available for public comment.

#### Availability of Documents

You may obtain copies of the documents for review by using one of the methods in **ADDRESSES**, or by contacting the individual named in the **FOR FURTHER INFORMATION CONTACT** section. You also may make an appointment to view the documents at the Ventura Fish and Wildlife Office (see **ADDRESSES**) during normal business hours.

#### Background

Under a safe harbor agreement, participating landowners voluntarily undertake management activities on their property to benefit species listed under the Act (16 U.S.C. 1531 *et seq.*). Safe harbor agreements, and the subsequent permits that are issued under section 10(a)(1)(A) of the Act, encourage private and other non-Federal property owners to implement conservation efforts for listed species by assuring property owners that they will not be subjected to increased land use restrictions as a result of efforts to attract or increase the numbers or distribution of a listed species on their property. Application requirements and issuance criteria for permits through safe harbor agreements are found in 50 CFR 17.22(c) and 1732(c).

We have worked with the applicant to develop this proposed agreement for the conservation of the Owens pupfish on the property subject to the agreement (enrolled property), which is Tribal Trust Land held in trust for the Tribe by the United States and managed by the applicant. The enrolled property is the Bishop Paiute Reservation in Inyo County, California, which occurs within the historic range of the Owens pupfish. Within the 875 acres of land comprising the enrolled property, a pond in the 24.8-acre Conservation Open Space Area contains suitable habitat for the Owens pupfish. The Owens pupfish will be translocated into its suitable habitat at the enrolled property according to a written agreement between the applicant and Service. Under this written agreement, the existing habitat for Owens pupfish will be managed for the species, and additional habitat for the species may be created in the future. We expect that the activities proposed in the agreement will result in the establishment of the Owens pupfish in suitable habitat that will be maintained and remain relatively undisturbed, thus resulting in a net conservation benefit for the species.

The agreement provides for the translocation and establishment of the Owens pupfish at the enrolled property, and the management of its suitable habitat. The proposed duration of the agreement and term of the enhancement of survival permit is 10 years. The agreement fully describes the proposed management activities to be undertaken by the applicant and the net conservation benefits expected to be gained for the Owens pupfish.

Upon approval of this agreement and satisfactory completion of all other applicable legal requirements, and consistent with the Service's Safe Harbor Policy published in the **Federal Register** on June 17, 1999 (64 FR 32717), the Service would issue a permit to the applicant authorizing take of the Owens pupfish incidental to the implementation of the management activities specified in the agreement; incidental to other lawful uses of the enrolled property, including normal, routine land management activities; and incidental to the return to pre-agreement conditions (baseline).

Management activities included in the agreement will provide for the translocation and establishment of the Owens pupfish and management of its habitat within the enrolled property. The objective of such activities is to establish a self-sustaining population of Owens pupfish within its historic range in the suitable habitat at the enrolled property. Take of Owens pupfish in the form of capture would occur during translocation activities, thereby necessitating take authority under the permit. Take incidental to activities associated with the management of Owens pupfish habitat is unlikely; however, it is possible that in the course of such activities or other lawful activities on the enrolled property, the applicant could incidentally take individuals of Owens pupfish, thereby necessitating take authority under the permit.

Baseline conditions at the enrolled property, as described in the agreement, have been established consisting of two elements, the current area of suitable habitat for Owens pupfish and the elevated presence of a population of Owens pupfish. Under the agreement, an elevated baseline for the population of Owens pupfish means that, in anticipation that translocation and establishment of the Owens pupfish is successful, the population of Owens pupfish would remain at the enrolled property at the end of the agreement term where there currently is no population of Owens pupfish and under other circumstances the baseline for the species presence could be zero. The
