Analysis of the Comments Received

All issues raised in the case briefs by parties to this investigation are addressed in the Issues and Decision Memorandum.⁴ A list of the issues which parties raised and to which we responded is in the Issues and Decision Memorandum and attached to this notice as an Appendix. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (IA ACCESS). IA ACCESS is available to registered users at <http://iaaccess.trade.gov> and it is available to all parties in the Central Records Unit (CRU), room 7046 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly on the internet at <http://enforcement.trade.gov/frn/>. The signed Issues and Decision Memorandum and the electronic versions of the Issues and Decision Memorandum are identical in content.

Changes Since the Preliminary Determination

Based on our analysis of the comments received, pre-verification corrections, and our findings at verifications, we made certain changes to the margin calculations for HLD Clark.⁵

⁴ See the memorandum from Deputy Assistant Secretary Christian Marsh to Acting Assistant Secretary Ronald K. Lorentzen entitled "Issues and Decision Memorandum for the Final Affirmative Determination in the Less than Fair Value Investigation of Certain Oil Country Tubular Goods from the Republic of the Philippines" dated concurrently with this notice and hereby adopted by this notice (Issues and Decision Memorandum).

⁵ For a discussion of these changes, see Memorandum to Neal Halper entitled "Cost of Production and Constructed Value Calculation Adjustments for the Final Determination—HLD

Verification

As provided in section 782(i) of the Act, we conducted sales and cost verifications of the questionnaire responses submitted by HLD Clark. We used standard verification procedures, including examination of relevant accounting and production records, as well as original source documents provided by HLD Clark.⁶

Final Determination

The Department determines that the following dumping margins exist for the period July 1, 2012, through June 30, 2013:

Exporter/manufacturer	Weighted-average dumping margin (percent)
HLD Clark Steel Pipe Co., Inc	9.88
All Others	9.88

Disclosure

We will disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

Continuation of Suspension of Liquidation

Pursuant to section 735(c)(1)(B) of the Act, the Department will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of all entries of certain oil country tubular goods from the Republic of the Philippines which were entered, or withdrawn from warehouse, for consumption on or after February 25, 2014, the date of publication of the *Preliminary Determination*. We will instruct CBP to require a cash deposit equal to the weighted-average amount by which normal value exceeds U.S. price, as follows: (1) The rate for HLD Clark will be the rate we determined in this final determination; (2) if the

These suspension of liquidation instructions will remain in effect until further notice.

All Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated "all others" rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero or *de minimis* margins, and any margins determined entirely under section 776 of the Act. The "All Others" rate is based on the weighted-average dumping margin calculated for HLD Clark, the only company for which the Department calculated a rate.⁷

U.S. International Trade Commission Notification

In accordance with section 735(d) of the Act, we notified the U.S. International Trade Commission (ITC) of our final determination. As our final determination is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will determine within 45 days whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports or sales (or the likelihood of sales) for importation of the subject merchandise. If the ITC determines that such injury exists, the Department will issue an antidumping duty order directing CBP to assess, upon further instruction by the Department, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

Return or Destruction of Proprietary Information

This notice will serve as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Use of Adverse Facts Available

In the *Preliminary Determination*, we determined that WSP Pipe Co., Ltd. (WSP) failed to respond to the Department's questionnaire and thus withheld necessary information within the meaning of section 776(a) of the Act.² Furthermore, because WSP did not submit any response to our requests for information and did not suggest alternative forms in which it could submit such responses, we preliminarily determined that sections 782(c)(1), (d), and (e) of the Act did not apply. Thus, in the *Preliminary Determination*, pursuant to sections 776(a)(2)(A), (B), and (C) of the Act, we based the dumping margin on facts otherwise available for WSP. Moreover, because WSP failed to act to the best of its ability to comply with the Department's requests for information, we applied adverse facts available (AFA) to WSP in the *Preliminary Determination*, pursuant to section 776(b) of the Act.³

In the Preliminary Decision Memo, we stated that "[i]t is the Department's practice to use the highest rate from the petition in an investigation when a respondent fails to act to the best of its ability to provide the necessary information."⁴ Therefore, because an
