Abstract: This data collection instrument is being submitted to obtain approval for information collection on the Independent Living Services For Older Individuals Who Are Blind program. Through this program, grants are made to states to support services for individuals age 55 or older whose severe visual impairment makes competitive employment difficult to obtain but for whom independent living goals are feasible. This data will be used to evaluate and construct a profile for the program nationwide. The respondents will be the managers of the Independent Living Services For Older Individuals Who Are blind program in each of the 56 states and territories. The revisions to this instrument consist of 2 additional items in Part I to capture the amount of other federal funds made available to the program, and the carryover for those funds. In Part III, rearrangement in the order of requested information to avoid double counting of consumers in the race and ethnicity categories; an additional item to capture the number of consumers served who are homeless; additional items to capture the number of consumers referred from nursing homes, assisted living facilities, government/social service agencies, and self-referrals.

Title of Collection: Report of Randolph-Sheppard Vending Facility Program.

OMB Control Number: 1820-0009.

Type of Review: A revision of an existing information collection.

Total Estimated Number of Annual Responses: 52.

Total Estimated Number of Annual Burden Hours: 702.

Abstract: The Vending Facility Program authorized by the Randolph-Sheppard Act provides persons who are blind with remunerative employment and self-support through the operation of vending facilities on federal and other property. Under the Randolph Sheppard Program, state licensing agencies recruit, train, license and place individuals who are blind as operators of vending facilities (including cafeterias, snack bars, vending machines, etc.) located on federal and other properties. In statute at 20 U.S.C. 107a(6)(a), the Secretary of Education is directed through the Commissioner of the Rehabilitation Services Administration (RSA) to conduct periodic evaluations of the programs authorized under the Randolph-Sheppard Act. Additionally, section 107b(4) requires entities designated as the state licensing agency to make such reports in such form and containing such information as the Secretary may from time to time require. The information to be collected is a necessary component of the evaluation process and forms the basis for annual reporting. These data are also used to understand the distribution type and profitability of vending facilities throughout the country. Such information is useful in providing technical assistance to state licensing agencies and property managers. The Code of Federal Regulations, at 34 CFR 395.8, specifies that vending machine income received by the state from federal property managers can be distributed to blind vendors in an amount not to exceed the national average income for blind vendors. This amount is determined through data collected using RSA-15: Report of Randolph-Sheppard Vending Facility Program. In addition, the collection of information ensures the provision and transparency of activities referenced in 34 CFR 395.12 related to disclosure of program and financial information.

The following changes are found in the revised information collection (IC) RSA-15: Report of Randolph-Sheppard Vending Facility Program. At the end of

the reporting form, a text box was added for notes or explanations. The instructions were modified accordingly to accommodate these changes in the form and to clarify information.
