

determines that a fabric, yarn, or fiber is not available in commercial quantities in a timely manner in the territory of any Party; or when the United States determines that a fabric, yarn, or fiber currently on the list is available in commercial quantities in a timely manner. The CAFTA–DR Implementation Act authorizes the President to make such modifications to the list in Annex 3.25. See Annex 3.25 of the CAFTA–DR Agreement; see also section 203(o)(4)(C) and (E) of the CAFTA–DR Implementation Act.

The CAFTA–DR Implementation Act requires the President to establish procedures governing the submission of a request and providing opportunity for interested entities to submit comments and supporting evidence before a commercial availability determination is made. In Presidential Proclamation 7987, the President delegated to CITA the authority under section 203(o)(4) of CAFTA–DR Implementation Act for modifying the list in Annex 3.25. Pursuant to this authority, CITA published modified procedures it would follow in considering requests to modify the Annex 3.25 list of products determined to be not commercially available in the territory of any Party to CAFTA–DR (*Modifications to Procedures for Considering Requests Under the Commercial Availability Provision of the Dominican Republic-Central America-United States Free Trade Agreement*, 73 FR 53200 (September 15, 2008)) (“CITA’s procedures”).

On June 12, 2014, the Acting Chairman of CITA received a request from Alston & Bird LLP, on behalf of Buhler Quality Yarns (“Buhler”) for a Commercial Availability determination to remove or restrict (“Request to Remove”) certain ring spun single yarns of micro modal fibers, currently listed in Annex 3.25. Buhler offered to supply the specified yarn and provided information demonstrating their ability to supply commercial quantities in a timely manner. On June 13, 2014, in accordance with CITA’s procedures, CITA notified interested parties of the Request to Remove, which was posted on the dedicated Web site for CAFTA–DR commercial availability proceedings. In its notification, CITA advised that any Response to the Request to Remove must be submitted by June 26, 2014, and any Rebuttal Comments to a Response must be submitted by July 2, 2014, in accordance with Sections 6, 7 and 9 of CITA’s procedures. No Response to the Request to Remove was placed on the record of the proceeding.

In accordance with section 203(o)(4)(C) of the CAFTA–DR

Implementation Act, Section 8(a) and (b), and Section 9(c)(1) of CITA’s procedures, as no interested entity submitted a Response objecting to the Request to Remove, CITA has determined to approve the Request to Remove the subject product from the list in Annex 3.25. Pursuant to Section 9(c)(3)(iii)(A), textile and apparel articles containing the subject product are not to be treated as originating in a CAFTA-DR country if the subject product is obtained from non-CAFTA–DR sources, effective for goods entered into the United States on or after 180 calendar days after the date of publication of this notice. A revised list in Annex 3.25, noting the effective date of the removal of the subject product, has been posted on the dedicated Web site for CAFTA–DR commercial availability proceedings.

Specifications: Certain Ring Spun Single Yarns of Micro Modal Fibers: Certain ring spun single yarns of English yarn number 30 and higher of 0.9 denier or finer micro modal fibers, classified in subheading 5510.11.0000 of the Harmonized Tariff Schedule of the United States (HTSUS).

The DSS Director has been assigned specific responsibility for administering the NISP on behalf of DoD components and those Executive Branch departments and agencies that have entered into agreements with the Secretary of Defense for industrial security services required for safeguarding classified information disclosed to industry by these DoD components and executive Branch departments or agencies (collectively referred to hereafter as Government Contracting Activities (GCAs)). (See DoD Directive 5105.42, “Defense Security Service,” and DoD Instruction 5220.22, “National Industrial Security Program.”) DSS carries out its NISP administration mission in part by assessing the security posture of cleared contractor facilities in order to determine if the cleared facilities are complying with the provisions of the National Industrial Security Program Operating Manual (NISPOM) and by verifying that cleared contractors mitigate and ensuring identified security vulnerabilities. This public information collection is focused on strengthening DSS analysis of threats to classified information and cleared personnel at cleared contractor facilities by ensuring the accuracy of contract, technology, program, and facility data in the DSS Industrial Security Facilities Database (ISFD). DSS will be able to more effectively and efficiently perform its NISP administration mission if DSS can analyze accurate information in ISFD. In turn, this will allow DSS to better tailor vulnerability assessments and other products and support for cleared facilities. Responding to this public information collection is voluntary.
