Title: Examination of Cash Nutrition Assistance Program Benefits in Puerto Rico.

OMB Number: 0584—NEW.

Expiration Date: Not yet determined.

Type of Request: Emergency request for a new collection.

Abstract

The Nutrition Assistance Program (NAP) is a critical Federal Government assistance program provided to low-income residents of Puerto Rico. Since July 1982, Puerto Rico has operated NAP from Federal funds received as a block grant. In late 2001, Puerto Rico developed an electronic benefit transfer (EBT) system and mandated that 75 percent of a household's monthly benefit be restricted to the EBT system for purchasing eligible food items at certified retailers. The remaining 25 percent of the monthly benefit may be issued in the form of cash to allow participants a way to purchase food from retailers not certified to accept EBT.

In early 2014, Congress reauthorized the Food and Nutrition Act of 2008 in the Agricultural Act of 2014 (Pub. L. 113-79), commonly known as the 2014 Farm Bill, which included a provision for the gradual discontinuation of the

cash portion of the NAP benefit until, by FY 2021, no benefits in the form of cash will be issued (Section 4025). The legislation also required a review of NAP cash benefits in Puerto Rico, including the history and purpose of the cash portion, barriers to redeeming the non-cash portion, and usage of cash benefits for the purchase of non-food items. Additionally, it required an assessment of the potential adverse effects of discontinuing the cash portion for both participants and retailers, and allows the Secretary of Agriculture to exempt participants or categories of participants if the review finds that the discontinuation of cash benefits is likely to have significant adverse effects.

This study performs the required assessment of the cash portion of benefits received under NAP in Puerto Rico. The specific research objectives are to:

- Objective 1: Review the history and purpose of distributing a portion of monthly benefits in the form of cash
- Objective 2: Examine the barriers to the redemption of non-cash benefits by both program participants and retailers
- Objective 3: Examine the current usage of cash benefits for the purchase of non-food and other prohibited items
- Objective 4: Identify and assess the potential adverse effects of the discontinuation of cash benefits for both program participants and retailers

Primary data collected from NAP participants, NAP-certified and uncertified retailers, community-based organizations (CBOs), and group residential facilities will be analyzed to assess barriers to redeeming the non-cash portion of the benefit, use of the cash portion of the benefit, and potential adverse effects on participants and retailers from eliminating the cash portion of the benefit.

The information collection includes the following components:

- A telephone survey with NAP participants,
- Focus groups with NAP participants,
- In-person (semi-structured) interviews with certified and uncertified retailers,
- In-person (semi-structured) interviews with directors of community-based organizations that work with NAP participants, and

- In-person (semi-structured) interviews with directors of residential facilities where NAP participants live

Affected Public

Respondent groups identified include: (1) NAP participants across Puerto Rico; (2) managers or owners of food stores (retailers) across Puerto Rico; (3) directors of CBOs, and (4) directors/managers of group residential facilities.

Estimated Number of Respondents

The total estimated number of respondents is 1,467. This includes 1,000 NAP participants for telephone surveys (75 percent of whom will complete surveys); 396 NAP participants for the focus groups (41 percent of whom will attend the focus groups); and 60 retailers (30 certified and 30 uncertified) for the in-person semi-structured interviews (50 percent of whom will complete interviews).

Also included are 6 CBO directors and 5 directors/managers of group residential facilities.

Estimated Number of Responses per Respondent

All respondents (NAP participants, retailers, and CBO and group residential facility directors) will respond once, either to one telephone survey, one focus group, or one in-person interview. In addition, all respondents will be contacted with an advance letter, and will receive recruitment phone calls.

Estimated Total Annual Responses

The estimated total annual responses is 4,475, including contacts with an advance letter, initial recruitment phone calls, follow-up phone calls, and completed surveys, focus groups, and interviews.

The 4,475 responses are based on the sum of 2,659 successful contacts or

completed surveys, focus groups, and interviews, and 1,816 attempted contacts, surveys, and interviews.

Estimated Time per Response

Response times may vary from 0.05 hours to 1.5 hours depending on actual activity and respondent group. The estimated time per interview ranges from 0.18 hours to 1.5 hours, depending on respondent group and interview mode.

Estimated Total Annual Burden on Respondents

The estimated total annual burden on respondents is 599.08 hours (including recruitment communications and completed and attempted interviews and surveys). See the table below for estimated total annual burden for each type of respondent.
