

vehicle or light truck size designation. Tires covered by this investigation may be tube-type, tubeless, radial, or non-radial, and they may be intended for sale to original equipment manufacturers or the replacement market.

Subject tires have, at the time of importation, the symbol "DOT" on the sidewall, certifying that the tire conforms to applicable motor vehicle safety standards. Subject tires may also have the following prefixes or suffix in their tire size designation, which also appears on the sidewall of the tire:

Prefix designations:

P—Identifies a tire intended primarily for service on passenger cars

LT—Identifies a tire intended primarily for service on light trucks

Suffix letter designations:

LT—Identifies light truck tires for service on trucks, buses, trailers, and multipurpose passenger vehicles used in nominal highway service.

All tires with a "P" or "LT" prefix, and all tires with an "LT" suffix in their sidewall markings are covered by this investigation regardless of their intended use.

In addition, all tires that lack a "P" or "LT" prefix or suffix in their sidewall markings, as well as all tires that include any other prefix or suffix in their sidewall markings, are included in the scope, regardless of their intended use, as long as the tire is of a size that is among the numerical size designations listed in the passenger car section or light truck section of the *Tire and Rim Association Year Book*, as updated annually.

Passenger vehicle and light truck tires, whether or not attached to wheels or rims, are included in the scope. However, if a subject tire is imported attached to a wheel or rim, only the tire is covered by the scope.

Specifically excluded from the scope of this investigation are the following types of tires: (1) Racing car tires, defined as tires for use exclusively on a race track; such tires do not bear the symbol "DOT" on the sidewall; (2) new pneumatic tires, of rubber, of a size that is not listed in the passenger car section or light truck section of the *Tire and Rim Association Year Book*; (3) pneumatic tires, of rubber, that are not new, including recycled and retreaded tires; and (4) non-pneumatic tires, such as solid rubber tires.

The products covered by the investigation are currently classified under the following Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 4011.10.10.10, 4011.10.10.20, 4011.10.10.30, 4011.10.10.40, 4011.10.10.50, 4011.10.10.60, 4011.10.10.70, 4011.10.50.00, 4011.20.10.05, and 4011.20.50.10. Tires meeting the scope description may also enter under the following HTSUS subheadings: 4011.99.45.00, 4011.99.85.00, 8708.70.45.45, 8708.70.45.60, 8708.70.60.30, 8708.70.60.45, and 8708.70.60.60. While HTSUS subheadings are provided for convenience and for customs purposes, the written description of the subject merchandise is dispositive.

Welded Stainless Pressure Pipe From Malaysia, Thailand, and the Socialist Republic of Vietnam: Antidumping Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: Based on affirmative final determinations by the Department of Commerce (the Department) and the International Trade Commission (the ITC), the Department is issuing antidumping duty orders on welded stainless pressure pipe (WSPP) from Malaysia, Thailand, and the Socialist Republic of Vietnam (Vietnam).

DATES: *Effective date:* July 21, 2014.

FOR FURTHER INFORMATION CONTACT: Erin Kearney (Malaysia), or Brandon Farlander/Trisha Tran (Thailand), or Lilit Astvatsatrian (Vietnam) AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-0167 or (202) 482-0182/(202) 482-4852 or (202) 482-6412, respectively.

SUPPLEMENTARY INFORMATION:

Background

In accordance with sections 735(d) and 777(j)(1) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.210(c), on May 30, 2014, the Department published its affirmative final determinations of sales at less-than-fair-value in the antidumping duty investigations of WSPP from Malaysia, Thailand, and Vietnam, respectively.¹ On July 14, 2014, the ITC notified the Department of its affirmative determinations that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act by reason of less-than-fair-value imports of WSPP from Malaysia, Thailand, and Vietnam.²

¹ See *Welded Stainless Pressure Pipe From Malaysia: Final Determination of Sales at Less Than Fair Value and Final Affirmative Determination of Critical Circumstances, in Part; 2012-2013*, 79 FR 31090 (May 30, 2014); *Welded Stainless Pressure Pipe From Thailand: Final Determination of Sales at Less Than Fair Value*, 79 FR 31093 (May 30, 2014); and *Welded Stainless Pressure Pipe from the Socialist Republic of Vietnam: Final Determination of Sales at Less Than Fair Value*, 79 FR 31092 (May 30, 2014).

² See *Welded Stainless Pressure Pipe from Malaysia, Thailand, and Vietnam*, USITC Investigation Nos. 731-TA-1210-1212 (Final), USITC Publication 4477 (July 2014).

In addition, the ITC notified the Department of its final determination that critical circumstances do not exist with respect to imports of subject merchandise from Malaysia that are subject to the Department's affirmative critical circumstances finding.³

Scope of the Orders

The products covered by these orders are circular welded austenitic stainless pressure pipe not greater than 14 inches in outside diameter. For purposes of these orders, references to size are in nominal inches and include all products within tolerances allowed by pipe specifications. This merchandise includes, but is not limited to, the American Society for Testing and Materials (ASTM) A-312 or ASTM A-778 specifications, or comparable domestic or foreign specifications. ASTM A-358 products are only included when they are produced to meet ASTM A-312 or ASTM A-778 specifications, or comparable domestic or foreign specifications.

Excluded from the scope are: (1) Welded stainless mechanical tubing, meeting ASTM A-554 or comparable domestic or foreign specifications; (2) boiler, heat exchanger, superheater, refining furnace, feedwater heater, and condenser tubing, meeting ASTM A-249, ASTM A-688 or comparable domestic or foreign specifications; and (3) specialized tubing, meeting ASTM A269, ASTM A-270 or comparable domestic or foreign specifications.

The subject imports are normally classified in subheadings 7306.40.5005, 7306.40.5040, 7306.40.5062, 7306.40.5064, and 7306.40.5085 of the Harmonized Tariff Schedule of the United States (HTSUS). They may also enter under HTSUS subheadings 7306.40.1010, 7306.40.1015, 7306.40.5042, 7306.40.5044, 7306.40.5080, and 7306.40.5090. The HTSUS subheadings are provided for convenience and customs purposes only; the written description of the scope of these investigations is dispositive.

Antidumping Duty Orders

As stated above, on July 14, 2014, in accordance with section 735(d) of the Act, the ITC notified the Department of its final determinations in these investigations, in which it found material injury with respect to WSPP from Malaysia, Thailand, and Vietnam.⁴ Because the ITC determined that imports of WSPP from Malaysia, Thailand, and Vietnam are materially

³ *Id.*

⁴ *Id.*

injuring a U.S. industry, unliquidated entries of such merchandise from Malaysia, Thailand, and Vietnam, entered or withdrawn from warehouse, for consumption are subject to the assessment of antidumping duties.

Therefore, in accordance with section 736(a)(1) of the Act, the Department will direct U.S. Customs and Border Protection (CBP) to assess, upon further instruction by the Department, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price (or constructed export price) of the merchandise, for all relevant entries of WSPP from Malaysia, Thailand, and Vietnam. These antidumping duties will be assessed on unliquidated entries of WSPP from Malaysia, Thailand, and Vietnam entered, or withdrawn from warehouse, for consumption on or after January 7, 2014, the date of publication of the preliminary determinations,⁵ but will not include entries occurring after the expiration of the provisional measures period and before publication of the ITC's final injury determination as further described below.

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, we will instruct

CBP to continue to suspend liquidation on all entries of WSPP from Malaysia, Thailand, and Vietnam. We will also instruct CBP to require cash deposits equal to the amounts as indicated below. These instructions suspending liquidation will remain in effect until further notice.

Accordingly, effective on the date of publication of the ITC's final affirmative injury determinations, CBP will require, at the same time as importers would normally deposit estimated duties on this subject merchandise, a cash deposit equal to the estimated weighted-average antidumping duty margins listed below.⁶

Provisional Measures

Section 733(d) of the Act states that instructions issued pursuant to an affirmative preliminary determination may not remain in effect for more than four months except where exporters representing a significant proportion of exports of the subject merchandise request the Department to extend that four-month period to no more than six months. At the request of exporters that account for a significant proportion of WSPP from Malaysia, Thailand, and Vietnam, we extended the four-month period to no more than six months in each case.⁷ In the underlying

investigations, the Department published the preliminary determinations on January 7, 2014. Therefore, the six-month period beginning on the date of publication of the preliminary determinations ended on July 6, 2014. Furthermore, section 737(b) of the Act states that definitive duties are to begin on the date of publication of the ITC's final injury determination.

Therefore, in accordance with section 733(d) of the Act and our practice, we will instruct CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, unliquidated entries of WSPP from Malaysia, Thailand, and Vietnam entered, or withdrawn from warehouse, for consumption after July 6, 2014, the date the provisional measures expired, until and through the day preceding the date of publication of the ITC's final injury determinations in the **Federal Register**. Suspension of liquidation will resume on the date of publication of the ITC's final determination in the **Federal Register**.

The weighted-average dumping margins are as follows:

Manufacturer/exporter	Weighted average margin (percent)
Malaysia:	
Superinox Pipe Industry Sdn. Bhd./Superinox International Sdn. Bhd	167.11
Kanzen Tetsu Sdn. Bhd	167.11
Pantech Stainless & Alloy Industries Sdn. Bhd	167.11
All Others	22.70
Thailand:	
Ametai Co., Ltd./Thareus Co., Ltd	24.01
Thai-German Products Public Company Limited	24.01
All Others	23.89
Vietnam:	
Sonha International Corporation/Sonha International Corporation	16.25
Mejonsel Industrial Vietnam Co., Ltd./Mejonsel Industrial Vietnam Co., Ltd	16.25
Vietnam-Wide Entity	16.25

With regard to the ITC's negative critical circumstances determination on imports of WSPP from Malaysia, we will instruct CBP to lift suspension and to refund any cash deposit made to secure

the payment of estimated antidumping duties with respect to entries of the merchandise entered, or withdrawn from warehouse, for consumption on or after October 9, 2013, (i.e., 90 days prior

to the date of publication of the preliminary determination), but before January 7, 2014, the publication date of the preliminary determination.

Malleable Cast Iron Pipe Fittings From the People's Republic of China: Final Results of Expedited Second Sunset Review of Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of this sunset review, the Department of Commerce ("Department") finds that revocation of the antidumping duty ("AD") order would be likely to lead to continuation or recurrence of dumping at the dumping margins identified in the "Final Results of Review" section of this notice.

DATES: *Effective:* July 21, 2014.

FOR FURTHER INFORMATION CONTACT: Brendan Quinn, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-5848, respectively.

SUPPLEMENTARY INFORMATION:

Background

On March 3, 2014, the Department published the notice of initiation of the second sunset review of the AD Order¹ on malleable cast iron pipe fittings the People's Republic of China ("PRC"), pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act").² Both Anvil International, LLC³

("Anvil") and Ward Manufacturing ("Ward") timely notified the Department of their intent to participate within the deadline specified in 19 CFR 351.218(d)(1)(i), with each claiming domestic interested party status under section 771(9)(C) of the Act, as a domestic producer of malleable pipe fittings.⁴ The Department then received a complete substantive response jointly filed by both Anvil and Ward (collectively, "Anvil/Ward" or "Domestic Producers") within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).⁵ The Department did not receive any responses from any respondent interested parties. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), we conducted an expedited (120-day) sunset review of the Order.

Scope of the Order

The products covered by the Order are certain malleable iron pipe fittings, cast, other than grooved fittings, from the PRC. The merchandise is currently classifiable under item numbers 7307.19.90.30, 7307.19.90.60, 7307.19.90.80, and 7326.90.85.88 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Excluded from the scope of this order are metal compression couplings, which are imported under HTSUS number 7307.19.90.80. A metal compression coupling consists of a coupling body, two gaskets, and two compression nuts. These products range in diameter from ½ inch to 2 inches and are carried only in galvanized finish. Although HTSUS subheadings are provided for convenience and customs purposes, the Department's written description of the scope of this proceeding is dispositive.

Analysis of Comments Received

A complete discussion of all issues raised in this sunset review is provided in the accompanying Issues and Decision Memorandum, which is hereby adopted by this notice.⁶ The issues

in the initial less-than-fair-value investigation of this proceeding. Ward Manufacturing was also a petitioner in the initial investigation.

⁴ See letter from Anvil entitled, "Five-Year ("Sunset") Review Of Antidumping Duty Order On Malleable Cast Iron Pipe Fittings From The People's Republic Of China: Notice Of Intent To Participate Of Anvil International, LLC," dated March 13, 2014, and letter from Ward entitled, "Malleable Cast Iron Pipe Fittings from China, Second Sunset," dated March 17, 2014.

⁵ See letter from Anvil/Ward entitled, "Malleable Cast Iron Pipe Fittings from China, Second Sunset: Substantive Response to the Notice of Initiation," dated April 2, 2014 ("Substantive Response").

⁶ See the Department's memorandum from Christian Marsh, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations,

discussed in the Issues and Decision Memorandum include the likelihood of continuation or recurrence of dumping and the magnitude of the margins of dumping likely to prevail if the order were revoked. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System ("IA ACCESS"). Access to IA ACCESS is available to registered users at <http://iaaccess.trade.gov> and to all parties in the Central Records Unit, room 7046 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed at <http://enforcement.trade.gov/frn/>. The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Final Results of the Sunset Review

Pursuant to section 752(c)(3) of the Act, the Department determines that revocation of the Order would be likely to lead to continuation or recurrence of dumping at weighted-average dumping margins up to 111.36 percent.

Notification Regarding Administrative Protective Orders

This notice also serves as the only reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing the results and notice in accordance with sections 751(c), 752(c), and 777(i)(1) of the Act.

Dated: June 27, 2014.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.
