

Determination 1–13 addresses the information submitted to the Compliance Division (CD) in EPA's Office of Transportation and Air Quality (OTAQ) by vehicle, engine, and equipment manufacturers for the purpose of obtaining certificates of conformity which are required before a manufacturer can legally sell vehicles, engines, or equipment in the United States.

As a follow-up to that class determination, OGC will be issuing a new class determination that will address the confidentiality of business information submitted in compliance reports for 2014 and subsequent model year vehicles, engines and equipment. This class determination will apply prospectively for 2014 and subsequent model year vehicles, engines and equipment regulated by OTAQ and covers information that is submitted by manufacturers to satisfy post-certification compliance reporting requirements as required by applicable Clean Air Act regulatory requirements. A copy of the draft class determination can be found under Docket ID No. EPA–HQ–OAR–2014–0229 at [www.regulations.gov](http://www.regulations.gov).

For the class determination covering certification information, EPA solicited comment directly from manufacturers through trade associations. However, because this is the first class determination issued by EPA that addresses compliance documents and information, EPA believes that a more formal approach is appropriate. EPA will review all comments submitted to the docket and will issue the final class determination later this year.
