

training and recordkeeping, as a condition of the pesticide registration (e.g., registrants of pesticide products that assert claims to inactivate *Bacillus anthracis* (anthrax) spores). To become a certified applicator, a person must meet certain standards of competency through completion of a certification program or test. EPA administers certification programs for pesticide applicators under section 11 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and EPA regulation 40 CFR part 171. Authorized agencies administer certified applicator programs within their jurisdictions, but each agency's certification plan must be approved by EPA before it can be implemented. In areas where no authorized agency has jurisdiction, EPA may administer a certification program directly.

This ICR also addresses how registrants of certain pesticide products are expected to perform specific, special paperwork activities, such as training and recordkeeping, in order to comply with the terms and conditions of the pesticide registration (e.g., registrants of anthrax-related pesticide products that assert claims to inactivate *Bacillus anthracis* spores). Paperwork activities associated with the use of such products are conveyed specifically as a condition of the registration.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average, per response type, as follows: 4,409 hours—annual reporting of authorized agencies on certification programs; 470 hours for completing certification application forms in Indian country; 121 hours for optional training—private applicator in Indian country; 10,044 hours RUP application recordkeeping—commercial applicators in the Federal plan; 1,305,100 hours RUP application records—commercial applicators under authorized agencies; 19.5 hours RUP sales recordkeeping—dealers in Indian country to prepare and maintain required annual RUP use records; 3.33 hours for dealerships to report or change their dealership information; 50 hours for registrants of anthrax-related products to prepare and conduct training activities; and 37 hours for registrants of anthrax-related products to keep records. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are pesticide applicators, administration of certification programs by States/Tribal lead agencies, individuals or entities engaged in activities related to the registration of a pesticide product, and RUP dealers (only for EPA-administered programs).

Estimated total number of potential respondents: Per response type, average annual respondents are: 57 authorized agencies report on certification programs; 2,767 applicants complete a certification form under the Federal plan; 10 private applicators complete the optional training under the Federal plan; 3,240 commercial applicators keep records of RUP applications under the Federal plan; 421,000 commercial applicators keep records of RUP application under authorized agencies' plan; 10 dealers of RUPs keep records of RUP transactions in Indian country; 3.33 dealerships report or change their dealership information; two registrants of anthrax-related products prepare and conduct training activities; and two registrants of anthrax-related products keep records.

Frequency of response: Annual.

Estimated total average number of responses for each respondent: Varies.

Estimated total annual burden hours: 1,320,254 hours.

Estimated total annual costs: \$42,637,864.99. This includes an estimated burden cost of \$42,637,864.99 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is a decrease of 415 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease reflects EPA's updating of burden estimates, addition of a recently-implemented optional, voluntary offering, and a change in the number of entities whose certification programs are directly overseen by EPA. This change is both an adjustment and the result of a program change.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional

comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2013-0811; FRL-9912-15]

Agency Information Collection Activities; Proposed Collection; Comment Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), this document announces that EPA is planning to submit an Information Collection Request (ICR) to the Office of Management and Budget (OMB). The ICR, entitled: "Residential Lead-Based Paint Hazard Disclosure Requirements" and identified by EPA ICR No. 1710.07 and OMB Control No. 2070-0151, represents the renewal of an existing ICR that is scheduled to expire on April 30, 2015. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection that is summarized in this document. The ICR and accompanying material are available in the docket for public review and comment.

DATES: Comments must be received on or before September 22, 2014.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2013-0811, by one of the following methods:

- **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- **Mail:** Document Control Office (7407M), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001.

• *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

For technical information contact: John David Wilkins, National Program Chemicals Division (7404-T), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (202) 566-0477; email address: wilkins.john@epa.gov.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Residential Lead-Based Paint Hazard Disclosure Requirements.

ICR number: 1710.07.

OMB control number: 2070-0151.

ICR status: This ICR is currently scheduled to expire on April 30, 2015. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 1018 of the Residential Lead Based Paint Hazard Reduction Act of 1992 (42 U.S.C. 4852d) requires that sellers and lessors of most residential housing built before 1978 disclose known information on the presence of lead based paint and lead based paint hazards, and provide an EPA approved pamphlet to purchasers and renters before selling or leasing the housing. Sellers of pre-1978 housing are also required to provide prospective purchasers with ten days to conduct an inspection or risk assessment for lead based paint hazards before obligating purchasers under contracts to purchase the property. The rule does not apply to rental housing that has been found to be free of lead-based paint, zero-bedroom dwellings, housing for the elderly, housing for the handicapped, or short term leases. The affected parties and the information collection-related requirements related to each are described below:

1. Sellers of pre-1978 housing must attach certain notification and disclosure language to their sales/leasing contracts. The attachment lists the information disclosed and a statement of compliance by the seller, purchaser and any agents involved in the transaction.
2. Lessors of pre-1978 housing must attach notification and disclosure language to their leasing contracts. The attachment, which lists the information disclosed and a statement of compliance with all elements of the rule, must be signed by the lessor, lessee and any agents acting on their behalf. Agents and lessors must retain the information for three years from the completion of the transaction.
3. Agents acting on behalf of sellers or lessors are specifically required by Section 1018 to comply with the disclosure regulations described above.

Responses to the collection of information are mandatory (see 40 CFR 745, Subpart F, and 24 CFR 35, Subpart H). Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.14 hours per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR are persons engaged in selling or leasing certain residential dwellings built before 1978, or who are real estate agents representing such parties.

Estimated total number of potential respondents: 39,645,600.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.1.

Estimated total annual burden hours: 6,467,176 hours.

Estimated total annual costs: \$125,683,576. This includes an estimated burden cost of \$125,683,576 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is a decrease of 470,154 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease reflects a gradual reduction in the annual number of real estate sales involving target housing subject to the rule's requirements and an overall decrease in real estate sales. There has also been a notable decrease in the overall growth of the real estate agent profession which reduces the number of new entrants who have start-up burden and cost related to this ICR activity. While the number of property rentals increased over the past year, fewer parties are involved in those transactions so the increases in the rental market were not enough to offset the decrease in the sales market in terms of burden and cost related to this ICR. This change is an adjustment.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Federal Implementation Plans To Reduce Interstate Transport of Fine Particulate Matter and Ozone (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), "Information Collection Request Renewal for the Federal Implementation Plans to Reduce Interstate Transport of Fine Particulate Matter and Ozone" (EPA ICR Number 2391.03, OMB Control No. 2060-0667) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through July 31, 2014. Public comments were previously requested via the **Federal Register** (79 FR 7179) on February 6, 2014 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not

conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before August 25, 2014.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2009-0491, to (1) EPA online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epamail.epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Karen VanSickle, Clean Air Markets Division, Office of Air and Radiation, (6204J), Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number (202) 343-9220; fax number: (202) 343-2361; email address: vansickle.karen@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The United States Environmental Protection Agency (EPA) is proposing to renew an information collection request for the Federal Implementation Plans to Reduce Interstate Transport of Fine Particulate Matter and Ozone (Transport Rule) to allow for future implementation of the rule. The Transport Rule was published in the **Federal Register** on August 8, 2011 (76 FR 48208)¹ and compliance obligations were originally scheduled to

¹ A supplemental rule extending the Transport Rule's ozone-season NO_x requirements to sources in five additional states was published in the **Federal Register** on December 27, 2011 (76 FR 80760).

commence on January 1, 2012.

However, the U.S. Court of Appeals for the District of Columbia Circuit (D.C. Circuit) stayed the rule prior to implementation and subsequently issued an opinion vacating the rule. On April 29, 2014, the U.S. Supreme Court reversed the D.C. Circuit opinion vacating the Transport Rule. On June 26, 2014 the U.S. Department of Justice filed a motion on EPA's behalf at the D.C. Circuit seeking to have the stay lifted and to allow compliance obligations under the rule to commence as of January 1, 2015. The D.C. Circuit has not yet ruled on that motion.

Once implemented, the Transport Rule's requirements would incorporate and supersede the existing requirements under the Clean Air Interstate Rule (CAIR). CAIR's requirements, in turn, incorporated certain requirements under the NO_x SIP Call. The Transport Rule includes new reporting requirements and, like CAIR and the NO_x SIP Call, combines these requirements with existing requirements from the Acid Rain Program (ARP) under Title IV of the Clean Air Act (CAA) Amendments of 1990. Each of these existing requirements has an approved ICR in place. All data received by EPA will be treated as public information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

Form numbers: None.

Respondents/affected entities: Entities potentially affected by this action are those which are subject to the Federal Implementation Plans: Interstate Transport of Fine Particulate Matter and Ozone (76 FR 48208, Aug. 8, 2011) and Federal Implementation Plans for Iowa, Michigan, Missouri, Oklahoma, and Wisconsin (76 FR 80760, Dec. 27, 2011).

Respondent's obligation to respond: Mandatory (Sections 110(a) and 301(a) of the Clean Air Act).

Estimated number of respondents: EPA estimates that there are 1,305 (1,201 industry and 104 state or local) respondents that will conduct monitoring in accordance with Part 75.

Frequency of response: Yearly, quarterly, occasionally.

Total estimated burden: 188,001 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$26,718,842 (per year), includes \$13,150,678 annualized capital or operation & maintenance costs.

Changes in the estimates: There is an increase of 2800 in the hours in the total
