

DEPARTMENT OF TRANSPORTATION**Maritime Administration****Meeting Notice (Closed)—Marine Transportation System National Advisory Council**

AGENCY: Maritime Administration, Department of Transportation.

ACTION: Notice of closed advisory council meeting.

SUMMARY: The U.S. Department of Transportation (DOT) and Maritime Administration (MARAD) announce that the Marine Transportation System National Advisory Council (MTSNAC) will hold a closed door meeting on August 14, 2014. After a review of all comments received from the interested public during its two national maritime symposiums, MARAD is now planning to provide the council a compilation of select concepts for further consideration. In January 2014, MARAD held a three-day National Maritime Strategy Symposium to discuss issues facing U.S.-flag vessels. The purpose of this initial public meeting was to generate ideas to improve, strengthen, and sustain the cargo opportunities and sealift capacity of the U.S.-flagged fleet engaged in international commercial trade. A second symposium was held in May which focused on domestic shipping, shipbuilding, ports and the needs of maritime stakeholders on the inland waterways, Great Lakes, gulf and coastwise trade. The August 14 meeting will be held to obtain the opinions and views of council members with respect to the value and impact of certain strategy options gathered through MARAD outreach. The input MARAD expects to receive from the council will be part of its on-going deliberations as it prepares a long term maritime strategy.

DATES: The MTSNAC closed meeting will take place August 14, 2014, from 2:00 p.m. to 4:00 p.m. via teleconference.

FOR FURTHER INFORMATION CONTACT: Richard Lolich, (202) 366-0704; Maritime Administration, MAR-540, Room W21-310, 1200 New Jersey Ave. SE., Washington, DC 20590-0001; richard.lolich@dot.gov.

SUPPLEMENTARY INFORMATION: The Marine Transportation System National Advisory Council (MTSNAC) is a chartered, non-federal body that responds to requests from the Maritime Administrator to identify and seek solutions, provide advice and make recommendations on certain maritime matters. The MTSNAC is comprised of

29 leaders from commercial transportation firms, port and water stakeholders, labor, and Federal, state and local public entities. The Council provides an industry stakeholder and academic prospective to Departmental policies that affect efficient and environmentally friendly waterborne freight and passenger movements.

This meeting notice is being given pursuant to section 10 of the Federal Advisory Committee Act of 1972. A determination, as required by section 10(d) of the Federal Advisory Committee Act, has been made that this meeting may be closed to the public in accordance with subsection (c)(3) of section 552b, title 5, the Government in Sunshine Act of 1976. In this instance, the (c)(3) exemption applies because matters to be considered by the advisory committee concern pre-decisional and deliberative internal information. The policy purposes for withholding this sort of information from the public are 1. To encourage open, frank discussions on matters of policy between subordinates and superiors; 2. To protect against premature disclosure of proposed policies before they are actually adopted; and 3. To protect against public confusion that might result from disclosure of reasons and rationales that are not in fact ultimately relied on by MARAD. Accordingly, the meeting will not be open to the public.

Authority: 46 U.S.C. 51312; 5 U.S.C. app. 552b; 41 CFR parts 102-3.140 through 102-3.165)

Reports, Forms, and Recordkeeping Requirements Agency Information Collection Activity Under OMB Review

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Request (ICR) abstracted below is being forwarded to the Office of Management and Budget (OMB) for

review and comment. A **Federal Register** Notice with a 60-day comment period was published on April 21, 2014 (76 FR 7897-7898).

DATES: Comments must be submitted no later than August 25, 2014.

FOR FURTHER INFORMATION CONTACT: Ms. Laurie Flaherty, Coordinator, National 911 Program, U.S. Department of Transportation, Office of Emergency Medical Services, National Highway Traffic Safety Administration, 1200 New Jersey Avenue SE., NTI-140, W44-322, Washington, DC 20590, (202) 366-2705 or via email at laurie.flaherty@dot.gov.

SUPPLEMENTARY INFORMATION:**National Highway Traffic Safety Administration**

Title: National 9-1-1 Profile Database as part of the National 9-1-1 Program.
OMB Control Number: 201106-2127-007.

Type of Request: Renewal of information collection Requirement.

Abstract: NHTSA is proposing to continue to collect and aggregate information from state level reporting entities that can be used to measure the progress of 9-1-1 authorities across the country in enhancing their existing operations and migrating to more advanced—Internet-Protocol-enabled emergency networks.

The data will be maintained in a “National 9-1-1 Profile Database.” One of the objectives of the National 9-1-1 Program is to develop, collect, and disseminate information concerning practices, procedures, and technology used in the implementation of E9-1-1 services and to support 9-1-1 Public Safety Answering Points (PSAPs) and related state and local public safety agencies for 9-1-1 deployment and operations. The National 9-1-1 profile database can be used to follow the progress of 9-1-1 authorities in enhancing their existing systems and implementing next-generation networks for more advanced systems.

The goal of the data collection process is to support a national 9-1-1 profile that will be used to help accurately measure and depict the current status and planned capabilities of 9-1-1 systems across the United States. Evaluations, based upon the data collected, will help draw attention to key roadblocks and solutions in the deployment process and to target possible future activities and resources consistent with the goals of the program. The information in aggregated form will be available to state and local stakeholders in the public safety community.

Affected Public: Under this proposed effort, NHTSA would specifically
