The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) An intake structure consisting of a concrete box with screens and a 90 degree bend with a bell fitting; (2) a 36-inch-diameter, 1,400-foot-long, underground penstock; (3) a powerhouse containing two turbine generators with a combined power generation of 950 kilowatts with an operating head of 125 feet; (4) a new approximately 500-foot-long transmission line; and (5) appurtenant facilities. The estimated annual generation of the project would be 2,200 megawatt-hours.
