SUPPLEMENTARY INFORMATION:

Title: Commercial Transportation of Equines for Slaughter.

OMB Control Number: 0579–0332.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Under the Federal Agriculture Improvement and Reform Act of 1996 (“the Farm Bill”), Congress gave responsibility to the Secretary of Agriculture to regulate the commercial transportation within the United States of equines for slaughter. Sections 901–905 of the Farm Bill (7 U.S.C. 1901 note) authorized the Secretary to issue guidelines for the regulation of commercial transportation of equines for slaughter by persons regularly engaged in that activity within the United States. As a result of that authority, the U.S. Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS) established regulations in 9 CFR part 88, “Commercial Transportation of Equines for Slaughter.”

The minimum standards cover, among other things, the food, water, and rest provided to such equines prior to transportation. The regulations also require the owner/shipper of the

equines to take certain actions in loading and transporting the equines and to certify that the commercial transportation meets certain requirements. In addition, the regulations prohibit the commercial transportation for slaughter of equines considered to be unfit for travel, the use of electric prods on such animals in commercial transportation for slaughter, and the use of double-deck trailers for commercial transportation of equines for slaughter.

These regulations require information collection activities, including a USDA-APHIS Owner/Shipper Certificate Fitness to Travel to a Slaughter Facility Form/Continuation Sheet (Veterinary Services-VS Forms 10-13/10-13A), maintaining copies of the signed VS Forms 10-13/10-13A, and the collection of business information from any individual or other entity found to be transporting horses for slaughter.

This notice includes the information collection requirements currently approved by the Office of Management and Budget (OMB) for the commercial transportation of equines for slaughter under OMB control numbers 0579-0332 and 0579-0160. These collection activities are collecting the same information; therefore, we are combining them. As a result, we have adjusted the values in the burden summary to reflect the values listed in the most recent renewal of OMB control number 0579-0160. After OMB approves and combines the burden for both collections under one collection (0579-0332), the USDA will retire OMB control number 0579-0160.

We are asking OMB to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection

technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.7483 hours per response.

Respondents: Owners and shippers of slaughter horses, owners or operators of slaughtering facilities, and drivers of the transport vehicles.

Estimated annual number of respondents: 300.

Estimated annual number of responses per respondent: 43.666.

Estimated annual number of responses: 13,100.

Estimated total annual burden on respondents: 9,803 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 23rd day of July 2014.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.
