SUPPLEMENTARY INFORMATION:

I. Background

In applying for the YCC grant program, grantees agreed to submit participant-level data and quarterly aggregate reports for individuals who receive services through YCC programs and their partnerships with entities administering the workforce investment system as established under Section 1169(b) and 117 of the Workforce Investment Act of 1998 (WIA), Local Education Agencies (LEA's), non-profit organizations with program model experience, education and training providers such as community colleges and other institutions of higher education and employer partners. The reports will include aggregate data on demographic characteristics, types of services received, placements, program outcomes, and follow-up status. Specifically, they will summarize data on participants who received core YCC program services, program enrollment, retention and credential rates, placement services, and other services essential to successful outcomes for YCC program participants.

This document requests approval for a new information collection to meet the reporting and recordkeeping requirements of the YCC grant program.

Five outcome measures will be used to measure success in the YCC grant programs:

Long-Term Measures

- Final Program Retention Rate—the percentage of participants who complete the program, of those who enter the program;
- High School Diploma Attainment Rate—the percentage of participants who attain a high-school diploma;
- Credential Attainment Rate—the percentage of participants who attain an industry-recognized credential in the specified H-1B industry or occupation;
- Diploma and Credential Attainment Rate—the percentage of participants who attain a high-school diploma and credential in the specified H-1B industry or occupation; and
- Placement Rate—the percentage of participants who are placed in one of the following: Unsubsidized employment, post-secondary education, occupational skills training, or Registered Apprenticeship. (The performance report also will include separate counts of the number of participants who enter unsubsidized employment, enter post-secondary

education, enter occupational skills training, and enter a Registered Apprenticeship.)

In addition to the five outcome measures described above, grantees will report on a number of leading indicators that serve as predictors of success. These indicators include the following short and long-term measures:

Short-Term Measures

- Enrollment Rate—the number of participants enrolled in the program compared to the target number of participants identified in the grant application;
 - Attendance Rate—the rate of school attendance by participants in the program;
 - Chronic Absence Rate—the percentage of participants who have missed 10 percent of school days for any reason-excused or unexcused—as well as suspensions;
 - Mentoring Rate—percentage of participants who have matched mentors and participate in formal mentoring;
 - Yearly Program Retention Rate—percentage of participants who continue in program from one school year to the next;
 - Work Readiness Indicator—the percentage of participants who are deemed work ready based on an employer evaluation conducted at the end of each internship/work experience (using the DOL-developed work readiness tool found at: <http://wdr.doleta.gov/directives/attach/TEGL/TEGL07-10a4.pdf>);
 - Internship Placement and Completion Rates—the percentage of program participants who begin an internship and, of those who begin an internship, the percentage who complete;
 - Post-Secondary Credit Attainment Rate—the percentage of participants who attain post-secondary education credit from courses taken during the program; and
 - Average Post-Secondary Credit Hours Attained—the average number of post-secondary credits attained per participant while in the program.
- This information collection maintains a reporting and record-keeping system for a minimum level of information collection that is necessary to comply with Equal Opportunity requirements, to hold YCC grantees appropriately accountable for the Federal funds they receive, allowing the Department to fulfill its oversight and management responsibilities.

The information collection for YCC grantee performance reporting includes setting up an online Participant
