SUPPLEMENTARY INFORMATION:

Title: Survey of Graduate Students and Postdoctorates in Science and Engineering.

OMB Approval Number: 3145-0062.

Summary of Collection: The Survey of Graduate Students and Postdoctorates in Science and Engineering (GSS), sponsored by the NSF and the National Institutes of Health (NIH), is a census of all institutions with post-baccalaureate programs in science, engineering and health fields in the United States. The GSS is the only national survey that collects information on specific characteristics of graduate enrollment for science, engineering and health

disciplines at the department level. It also collects information on race and ethnicity, citizenship, gender, sources of support, mechanisms of support, and enrollment status for graduate students; information on postdoctoral appointees (postdocs) by citizenship, sex, sources of support, type and origin of doctoral degree; and information on other doctorate-holding non-faculty researchers. To improve coverage of postdocs, the GSS periodically collects information on the race and ethnicity, sex, citizenship, source of support, field of research for the postdocs employed in Federally Funded Research and Development Centers (FFRDCs). The survey will be collected in conformance with the National Science Foundation Act of 1950, as amended, and the Privacy Act of 1974. Responses from the institutions are voluntary.

The Federal government, universities, researchers, and others use the information extensively. The NSF and the NIH publish statistics from the survey in several reports, but primarily in the data tables, and the congressionally mandated biennial publication series, "Science and Engineering Indicators" and "Women, Minorities and Persons with Disabilities in Science and Engineering." In addition, survey results will be used for research or statistical purposes, analyzing data, and preparing scientific reports and articles. All tables and reports are made available in various electronic formats on the GSS Web site (<http://www.nsf.gov/statistics/srvygradpostdoc/>). The survey results are also available in the Web-based Computer-Aided Science Policy Analysis and Research (WebCASPAR) database system. The URL for WebCASPAR is <https://ncsesdata.nsf.gov/webcaspar/>. A public release file is also made available on the GSS Web site (<http://www.nsf.gov/statistics/srvygradpostdoc/>).

Description of Respondents: Institutions.

Number of Respondents: 14,065.

Frequency of Responses: Annually.

Total Burden Hours: 35,760.

Dated: July 30, 2014.
