Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR Part 63, Subpart A, and any changes, or additions to the Provisions specified at 40 CFR Part 63, Subpart GGGG. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

Form Numbers: None.

Respondents/affected entities: Owners or operators of vegetable oil production facilities.

Respondent's obligation to respond: Mandatory (40 CFR Part 63, Subpart GGGG).

Estimated number of respondents: 89 (total).

Frequency of response: Initially, occasionally, and annually.

Total estimated burden: 34,721 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,339,890 (per year), includes no annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in the respondent and Agency labor hours in this ICR compared to the previous ICR. This is not due to any program changes. The decrease in hours occurred because the number of respondents was revised from 101 to 89 based on a comment received during industry consultation. However, there is an increase in the respondent and Agency burden costs due to an adjustment in labor rates. The labor rates have been updated to reflect the most recent data from the Bureau of Labor Statistics and OPM.

Spencer W. Clark,

Acting Director, Collection Strategies Division.
