Wister Lake Power, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On February 28, 2014, Wister Lake Power, LLC filed an application for a preliminary permit, pursuant to section

4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project to be located at the U.S. Army Corps of Engineers' (Corps) Wister Lake, on the Poteau River near the town of Poteau in LeFlore County, Oklahoma. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) Five 48 inch-diameter, 300-foot-long steel penstocks; (2) five inline generation units with a total capacity of 6-megawatts; (3) a switchyard on the south bank adjacent to the dam; (4) a 1-mile-long, 15kV transmission line.

The project would have an average annual generation of 16,000 megawatt-hours and operate utilizing surplus water from the Wister Lake, as directed by the Corps.
