SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Sealing of Abandoned Areas Standard information collection related to the design and construction of any new seal and the maintenance and repair of all seals. The Standard includes reporting and recordkeeping requirements to help ensure the construction and maintenance of seals are done correctly; certified persons conducting sampling in sealed areas are adequately trained, and problems can be found and corrected. Federal Mine Safety and Health Act of 1977 sections 101(a) and 103(h) authorize this information collection. See 30 U.S.C. 811(a) and 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219–0142.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on August 31, 2014. The DOL seeks to extend PRA authorization for this

information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 8, 2014 (79 FR 19387).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. SUPPLEMENTARY INFORMATION:

I. Background: The Equal Access to Justice Act provides for the award of fees and expenses to certain parties involved in administrative proceedings with the United States. The statute requires, at 5 U.S.C. sec. 504(a)(2), that a party seeking an award of fees and other expenses in a covered administrative proceeding must submit to the agency an application which shows that the party is the prevailing party and is eligible to receive an award under the Act. DOL regulations implementing the Equal Access to Justice Act contain a subpart specifying the contents of applications for an award, 29 CFR part 16, subpart B. The DOL is currently proposing no changes to the information collection requirements.

II. Desired Focus of Comments: The DOL, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3505(c)(2)(A)). The program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of the collection requirements on respondents can be properly assessed. The DOL is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including
