

Intent (LOI) (assuming one person per estimated submission) and 1,920 reviewers of proposals submitted through Grants.gov.

(6) *Annual Estimated Number of Total Responses*: Annual Estimated Number of Total Responses: The Office of Science receives about 1,000 DOE national laboratory and interagency proposals per year, based on an average of estimated submission numbers (fiscal year 2006 through fiscal year 2014) and about 7,000 pre-proposals and letters of intent per year, based on an estimate of about 200 per solicitation and the number of solicitations per year (about 35, based on an average between fiscal year 2006 and fiscal year 2014).

(7) *Annual Estimated Number of Burden Hours*: The time it takes to complete a form depends upon the type of form being completed. External users will need to register with PAMS in order to access the system. It takes approximately 30 minutes for external users to complete the forms required to become a registered PAMS user. Both LOI and pre-proposal forms take 15 minutes each, whereas completing a lab/interagency proposal will take about 2 hours. The reviewers require about 1 hour of analysis, per submission. Based on the annual estimated number of responses, broken down by DOE national laboratory, letter of intent and pre-proposal, the annual estimated time required for reviewers to complete analysis or responses and the time required for external users to register with PAMS, the estimated annual number of burden hours is 10,630.

Total number of unduplicated respondents: 9,920.
