Certain Crystalline Silicon Photovoltaic Products From Taiwan: Notice of Amended Preliminary Determination of Sales at Less Than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* August 22, 2014.

SUMMARY: The Department of Commerce (“Department”) has determined that it made certain significant ministerial errors in the preliminary determination of sales at less than fair value in the antidumping duty investigation of certain crystalline silicon photovoltaic products from Taiwan, as described below in the “Supplementary Information” section of this notice. The Department corrected these errors and has recalculated the weighted-average dumping margin for a mandatory respondent and the all-others rate, as described below in the “Amended Preliminary Determination” section of this notice.

SUPPLEMENTARY INFORMATION:

Background

On July 31, 2014, the Department published its affirmative preliminary determination that certain crystalline silicon photovoltaic products from Taiwan are being, or are likely to be, sold in the United States at less than fair value, as provided by section 733 of the Tariff Act of 1930, as amended (the “Act”).¹

On July 30, 2014, Motech Industries, Inc. (“Motech”), a mandatory respondent in this investigation, submitted a timely ministerial error allegation with respect to the *Preliminary Determination*. In addition, on August 4, 2014, SolarWorld Industries America, Inc. (“Petitioner”) and tenKsolar (Shanghai) Co., Ltd. (“tenKsolar”), an exporter of Chinese panels that were made of cells produced in Taiwan during the period of investigation, submitted timely ministerial error allegations. Therefore, in accordance with 19 CFR 351.224(e), we have made changes, as discussed below, to the *Preliminary Determination*.

Period of Investigation

The period of investigation (“POI”) is October 1, 2012 through September 30, 2013.

Scope of Investigation

The merchandise covered by these investigations is crystalline silicon photovoltaic cells, and modules, laminates and/or panels consisting of crystalline silicon photovoltaic cells, whether or not partially or fully assembled into other products, including building integrated materials. For purposes of these investigations, subject merchandise also includes modules, laminates and/or panels
