

marine mammals under the Marine Mammal Protection Act and incidental takes of threatened and endangered marine mammal species under the Endangered Species Act, which is required every five years. Current federal regulatory permits and authorizations expire in May 2016.

The cumulative impacts of past, present, and other reasonably foreseeable future actions are expected to result in impacts on marine mammals in the Temporary Maritime Activities Area, but the contribution would be small compared to other actions. The Draft Supplemental EIS/OEIS indicates that the incremental contribution of the No Action Alternative, Alternative 1, or Alternative 2 to all other resource areas analyzed would be negligible.

The Draft Supplemental EIS/OEIS was distributed to federal, state, and local agencies, elected officials, and other interested organizations and individuals.

### Western Area Power Administration

#### Agency Information Collection Extension

**AGENCY:** Western Area Power Administration, DOE.

**ACTION:** Submission for Office of Management and Budget review; Request for comments.

**SUMMARY:** Western Area Power Administration (Western), an agency within the Department of Energy (DOE), has submitted an extension to an existing Information Collection Request (ICR) to the Office of Management and Budget (OMB) for review, comment and approval, as required under the Paperwork Reduction Act of 1995. The ICR seeks a 3-year extension for Western's Applicant Profile Data form (APD), OMB Control No. 1910–5136. The ICR described below identifies the request, including the anticipated public burdens. The ICR is necessary for the proper performance of Western's functions. Western markets a limited amount of Federal power. Due to the high demand for Western's power and limited amount of available power, Western needs to be able to collect information under the ICR to evaluate who will receive an allocation. This public process only determines the information Western will collect in its ICR. The actual allocation of Federal power will be done through a separate process and is outside the scope of this notice.

**DATES:** To ensure consideration, comments regarding this collection must be received on or before

September 22, 2014. The Paperwork Reduction Act requires OMB to make a decision on the extension of the ICR within 60 days after this publication or receipt of the proposed collection of information, whichever is later. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, please advise the DOE Desk Officer at OMB of your intention to make a submission as soon as possible. You may phone the Desk at 202–395–4718.

**ADDRESSES:** Written comments should be sent to: The DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW., Washington, DC 20503.

A copy of the comments should be sent to Western at [PRAComments@wapa.gov](mailto:PRAComments@wapa.gov) or Mr. Ronald Klinefelter, Assistant General Counsel, Western Area Power Administration, Corporate Services Office, 12155 W. Alameda Parkway, Lakewood, CO 80228–8213.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the APD and instructions should be directed to Mr. Ronald Klinefelter at the above address or telephone (720) 962–7010. The APD is available on Western's Web page at [ww2.wapa.gov](http://ww2.wapa.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Statutory Authority

Reclamation Laws are a series of laws arising from the Desert Land Act of 1872 and include, but are not limited to: The Desert Land Act of 1872, Reclamation Act of 1902, Reclamation Project Act of 1939, and the Acts authorizing each individual project such as the Central Valley Project Authorizing Act of 1937.<sup>1</sup> The Reclamation Act of 1902 established the Federal reclamation program.<sup>2</sup> The basic principle of the Reclamation Act of 1902 was that the United States, through the Secretary of the Interior, would build and operate irrigation works from the proceeds of public land sales in the 16 arid Western states (a 17th was later added). The Reclamation Project Act of 1939 expanded the purposes of the reclamation program and specified certain terms for contracts that the Secretary of the Interior enters into to
