Aaron Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

[FR Doc. 2014–20139 Filed 8–22–14; 8:45 am]

BILLING CODE 5001–06–P

DEPARTMENT OF DEFENSE

Department of the Army

Intent To Grant an Exclusive License for U.S. Army Owned Invention to Stevens Institute of Technology

AGENCY: Department of the Army, DoD.

ACTION: Notice.

SUMMARY: The Department of the Army announces that, unless there is an objection, after 15 days it contemplates granting an exclusive license to Stevens Institute of Technology, Hoboken, New Jersey for U.S. patent application serial number 13/301,124, filed November 21, 2011 entitled “Inkjet-Printed Flexible Electronic Components from Graphene Oxide”. Any license granted shall comply with 35 U.S.C. 209 and 37 CFR part 404.

DATES: Written objections must be filed not later than 15 days following publication of this notice.

ADDRESSES: Send written objections to Timothy Ryan, U.S. Army ARDEC, ATTN: RDAR–EIB (Bldg 93), Picatinny Arsenal, NJ 07806–5000.

FOR FURTHER INFORMATION CONTACT: Mr. Timothy Ryan, email: timothy.s.ryan.civ@mail.mil; (973) 724–7953.

SUPPLEMENTARY INFORMATION: None.

Brenda S. Bowen,

Army Federal Register Liaison Officer.

BILLING CODE 3710–08–P

DEPARTMENT OF ENERGY

[OE Docket No. EA–295–B]

Application To Export Electric Energy; Merrill Lynch Commodities, Inc.

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

SUMMARY: Merrill Lynch Commodities, Inc. (MLCI) has applied to renew its authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before September 24, 2014.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585–0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202–586–8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On October 5, 2009, DOE issued Order No. EA–295–A to MLCI, which authorized MLCI to transmit electric energy from the United States to Canada as a power marketer for a five-year term using existing international transmission facilities. That authority expires on October 5, 2014. On August 13, 2014, MLCI filed an application with DOE for renewal of the export authority contained in Order No. EA–295–A for an additional five-year term.

In its application, MLCI states that it does not own or operate any electric transmission facilities, and it does not have a franchised service area. The electric energy that MLCI proposes to export to Canada would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies, qualifying cogeneration, small power production facilities and exempt wholesale generators. The existing international transmission facilities to be utilized by

the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission’s (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning the MLCI application to export electric energy to Canada should be clearly marked with OE Docket No. EA–295–B. An additional copy is to be provided directly to Merida de la Pena, Merrill Lynch Commodities, Inc., Vice President, Commodities Counsel, 20 E. Greenway Plaza, Suite 700, Houston, TX 77046.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE’s National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845>, or by emailing Angela Troy at Angela.Troy@hq.doe.gov.

Issued in Washington, DC, on August 19, 2014.

Brian Mills,

Director, Permitting and Siting Office of Electricity Delivery and Energy Reliability.
