DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

August 22, 2014.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by September 29, 2014 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725 17th Street NW., Washington, DC 20503. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control

number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service

Title: Livestock Slaughter.

OMB Control Number: 0535-0005.

Summary of Collection: The primary functions of the National Agricultural Statistics Service (NASS) are to prepare and issue current official State and national estimates of crop and livestock production, disposition and prices and to collect information on related environmental and economic factors. General authority for data collection activities is granted under U.S. Code Title 7, Section 2204. This statute specifies the "The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics . . . and shall distribute them among agriculturists". Information from federally and non-federally inspected slaughter plants are used to estimate total red meat production. NASS will use a Federally and non-Federally-inspected livestock slaughter survey to collect data.

Need and Use of the Information: NASS will combine information collected from both types of plants to estimate total red meat production, consisting of the number of head slaughtered plus live and dressed weights of cattle, calves, hogs and sheep. Accurate and timely livestock estimates provide USDA and the livestock industry with basic data to project future meat supplies and producer prices. Agricultural economists in both the public and private sectors use this information in economic analysis and research.

Description of Respondents: Business or other for-profit; Farms.

Number of Respondents: 1,300.

Frequency of Responses: Reporting: Weekly, Monthly, Quarterly and Annually.

Total Burden Hours: 2,504.

Charlene Parker,

Departmental Information Collection Clearance Officer.

SUPPLEMENTARY INFORMATION:

Title: Importation of Gypsy Moth Host Material From Canada.

OMB Control Number: 0579-0142.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to prohibit or restrict the importation, entry, exportation, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA. Regulations governing the importation of gypsy moth host material into the United States from Canada are

contained in 7 CFR 319.77-1 through 319.77-5.

The regulations are intended to prevent the introduction of gypsy moth into noninfested areas of the United States by placing certain inspection and documentation requirements on gypsy moth host material (i.e., regulated articles) imported from Canada. These regulated articles are: Certain trees with and without roots (e.g., Christmas trees) and shrubs with roots and persistent woody stems, logs and pulpwood with bark attached, bark and bark products, outdoor household articles, and mobile homes and their associated equipment. Under the regulations, depending on the place of origin of the regulated articles and their destination in the United States, certain information collection activities are required, including a phytosanitary certificate, certificate of origin, compliance agreement, or signed homeowner statement.

In the previous request for extension of approval of this information collection, the number of individuals (private citizens) was counted under the estimated annual number of responses per respondent rather than the estimated annual number of respondents. This notice reflects the corrected estimates.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.055 hours per response.

Respondents: Canadian plant health authorities; growers, exporters, or shippers of Christmas trees, shrubs,
